AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS.
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and banging sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without hurrying the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, or the two get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, J. Brown & Co.
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited in part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $30. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D.C.
Address T. H. HUBBARD & CO.,
No. 39 Fayette st., or box No. 40,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A scheme will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; schemes being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Delta, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of any claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have the advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that at ONCE MORE SUCCEEDED, AT THE PATENT OFFICE (than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that there is no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. There, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S
DYSENTERY POWDER,
Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten
ONE POWDER WILL CURE THE WORST CASE,
when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*;—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.
These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.
Please try them; if they do not give *perfect satisfaction*, return them and take your money.

City Hotel, Portsmouth, N. H.
BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.
While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but that ONE AILMENT—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, or abdomen, extremities or skin. Every form of inflammation (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a needle dipped into a solution of it, to affect the entire system.
☞ Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite selectrifle prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treatment of
DISEASES OF CHILDREN,
and has been used with never failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the only Child's Medicine in this country intended to do away with the excessive and injurious use of Paregoric, a remedy sure to be followed by a "dose of physic."
The ingredients of which the Carminative is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The Carminative is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct distributed and sour stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price only 25 cents.
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health, unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and a train of sudden mishaps has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of infinite menstruation, or nervous and spinal affections in the back and limbs, owness of spirits, hysterics, &c. Nor are these prescriptions to be taken in the cure of Leucorrhœa, only called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, prepaid, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

FRIDAY, AUGUST 21, 1857.

OUR PROGRESS.

NO. VII.

We left off, in No. 6, with training; but the training was not quite finished. The intemperance was not confined to the ranks, nor to the spectators, though in both it abounded. On one review day, not soon to be forgotten by the writer, a field officer on duty fell from his horse in front of the regiment, from mere intoxication, in full view of all. We have heard of similar cases, and some worse; but never saw any other of this kind. We have seen, however, at an officers' drill, a little more than 30 years ago, the company so stimulated, that the afternoon exercises were a mere farce and laughing stock.

The temperance reformation of 1827 reached the militia; and many companies in various places dismissed the liquor from drill and parade; while some that did not, became nurseries for drunkards.—In New Hampshire, as in several other States, training days, with their evils, (and whatever of good they did,) are now numbered among the obsolete ideas.

To get rid of their drunkenness and disorder, was certainly progress for good.

In this connexion, it should be named, that the rum or whiskey ration, which was formerly a part of our Army regulation, has been abolished, and no man has called for its return!

In the war of 1812—15, rum was dear, and the supply comparatively small, both of rum from abroad, and of molasses to distill here. Nevertheless, the stills all went, and grain and *potatoes* were largely consumed in this manner.

We have seen a still, (such as women used to distill rose water, &c.,) in operation in a tavern in Portsmouth, distilling gin from potatoes and juniper berries; and have seen the liquor drip into a tumbler, until a dram was raised, which, with a little water, went down a man's throat before it had time to get cold.

Why this urgency and haste? may be asked. The answer is, intoxicating drinks were then deemed a necessary of life. In this respect, how great the change. They are now regarded, by those who love and defend them, as mere luxuries;—by others, as a nuisance, generally useless, often pernicious. This is moral progress. It has been reached by moral effort, in law and gospel, through many disappointments and mistakes. But the labor has not been in vain.

An elderly mechanic and thorough temperance man, reminds us of one great item in the drunkenness of forty years ago, viz. Freedom Frolics. Every mechanic, on his 21st birth day, must *treat*, i. e. he must provide a great store of free drinks for all his acquaintance, and especially of his own craft;—any body might get drunk, and it was rather expected that everybody would,—though some few did not. The sober ones however, were the exception and not the rule.

The company drank in concert many times, and sung in chorus several verses of doggerel, part of which was,

"Here's a young man that's free to-day—
That's free to day—that's free to-day."

And another part was,

"See how he guzzles it down—
He guzzles it down—he guzzles it down."

This beautiful termination *down*, rhymed with the word *crown*: and the crowning was done on this wise. All the company placed their right hands on the young man's head, as they sung the word *crown*;—a tumbler was filled to the brim with strong liquors, and he must drink the whole, which was very often done. It is easy to imagine that these freedom frolics were mere drunken rows. And such, in truth, they commonly were.

We remember a combined freedom frolic, of *two* young men, in Boston, in 1820.—Both of them, and most of the company were in a condition *appropriate* to the occasion.

The temperance reformation absolutely *blotted out* this silly and mischievous custom. This is certainly good progress.

AMERICAN INSTITUTE OF INSTRUCTION.—The 28th annual meeting of the American Institute of Instruction is holding its annual session at Manchester, N. H., with a goodly number of teachers and professors present. Among the notables may be named Prof. Greene, of Brown University; Pres. BARTOWS, of the Pittsburg Female College; "Father" Greenleaf, of Bradford, of arithmetic renown; Z. Richards, of Washington, D. C.; and others of professional celebrity, too numerous to mention. The attendance is large, and the lectures and discussions able and spirited.

WASHINGTON, Aug. 19.—The President, a short time ago, received a letter from Professor Silliman and others, including several Doctors of Divinity, objecting to the employment by him of the United States military forces to execute the so-called laws of Kansas, and assuring him that they would not cease to pray that he might have the proper course of duty pointed out to him, or something to this effect. To this letter the President has just replied, briefly but pointedly, denying their premises, questioning their knowledge of those laws, and, after acknowledging their validity, he calmly assures them that, by the help of God, he will enforce them in accordance with his oath of office.

We think it probable that Prof. Silliman and the D. D.s do lack knowledge of the *bogus* laws. Governor Walker himself confesses that he is ignorant, or was so, of a most important item in those laws. And his apologists in New England, within a week past, have urged the ignorance of the Governor as an excuse for a gross omission of duty. Very likely indeed it is, then, that the Doctors should not know every quirk and turn of the bogus laws. But they know, and the country knows, full well, that they were devised by a clique of most unprincipled men, and enacted by a legislature of border ruffians, chosen in defiance of law and justice.

Nevertheless, we doubt the wisdom of the Doctors in addressing a letter to the President. They might just as well have sent it to Messrs. Douglas and Atchison.

☞ The London Christian Spectator says: "As a general rule, we believe American theological writers to be better versed in modern languages, and more deeply read in ancient literature—in other words, better and abler scholars—than the majority of theological writers in this country."

☞ The New York Times has a letter from Hong Kong announcing that the U. S. government has seized the Island of Formosa, as security for the payment by the Chinese government of the indemnity demanded for damages done to American interests during the disturbances at Canton. The story is probably untrue.

POSTAL.—In answer to a letter, the General Post Office has decided that the seller's price-mark on the fly leaf of a book sent by mail, subjects the whole to letter postage.

☞ It is said that the National Hotel, at Washington, which as a public house, has been ruined by the disease which goes by its name, will be remodeled for a theatre.

☞ Hon. E. H. Rollins, Speaker of the New Hampshire House of Representatives, and the proprietor of an extensive apothecary establishment in Concord, was brought before the Police Court in that city, on Saturday last, charged with selling a pint of new rum, and keeping liquors for sale. Mr. Rollins defended himself, and the Judge decided that no case was made out.

A LONG PASSAGE.—A letter was shown to us yesterday morning, which was placed in the New York Post Office on the 11th of February last! It was directed to Boston, to a well known gentleman, residing, however, in this city. From Boston, the letter was forwarded to the Dead Letter Office at Washington, thence to the writer in New York, from which place it was originally sent. After a six months' travel, including several long rests, the missive, which contained a check for fifty dollars, found its proper stopping place.—*Salem Gazette.*

PROPERTY SOLD.—The property of the Bay State Tool Company, in Northampton, was sold at auction on the 5th inst., under a foreclosed mortgage, for $15,000, held by the Holyoke Bank. It was purchased by Mr. Boyd, of New York, agent of Jessup & Sons, of England, dealers in steel, and who were large creditors of the concern. The price bid for it was $22,500. The establishment cost $85,000, and has been in operation about three years.

NEW YORK, August 19—6 P. M.—Beef declined fully 1½c on all qualities, and in some cases 2c per lb., the market closing inactive, with a tendency to a still further decline; many sales in the morning were forced, and there is a prospect of a large number left over. Sheep and Lambs—no material change in prices. Swine lower, and quoted at 7¼ a 8c.

THE SEASON IN ENGLAND.—The London correspondent of the New York Commercial Advertiser says, "The summer continues without a single day of cloud or rain, and the harvest is everywhere being secured in the most splendid order.

☞ Rev. H. O. Howland was installed pastor of the Congregational church and society in Chester, August 12th. Sermon, Rev. N. Bouton, D. D.

Abraham Houghton, of Lyndon, Vt., recently discovered a jug of potato whiskey in an old stump in a field where he was plowing, which he had himself placed there forty years ago.

☞ At a late border ruffian convention at Lecompton, Kansas, Dr. Stringfellow announced that he was, now and hereafter, a National Democrat. He called for a division of the house, when 11 National Democrats went on his side, and 30 on the other. The Dr. and his friends withdrew. The object of the convention was to nominate a delegate to the *bogus* Constitutional Convention. Mr. Randolph was nominated. The correspondent of the Chindowan says:

I never beheld a rougher, more ignorant or more drunken crowd in a convention than those I met here. During the whole afternoon, they made the streets ring with songs, curses and denunciations of Lane, the "abolitionists," etc.

DOVER FACTORIES.—The Dover Enquirer says:—

While nearly all the manufacturing establishments in New England are curtailing their operations, and in some cases wholly suspending, we are glad to learn that the Cocheco Company, in this city, will continue their business as usual.* The description of goods manufactured by them, although doubtless somewhat affected by the high price of cotton, and the general depression of business, is such as to command a ready sale, at all times. Their Prints stand among the first in the market, and the demand for them is always equal to the supply. We doubt whether any Mills in the country are more skilfully and prudently managed, or return to their stockholders more satisfactory dividends.

EDUCATION.—The new Board of School Commissioners met at Concord, Thursday. Dr. Elliott of Great Falls has been re-elected Chairman. The entire list of school books recommended will be revised. Worcester's dictionaries have been restored by a unanimous vote to the list. Other important changes have been or will be made.

☞ A live man indeed, is E. R. Clarke, Esq., of Sharon, Mass. His "Sherry Wine Bitters,"—of which an advertisement may be seen on our fourth page, and his "Pure Corn Starch," are celebrated all over New England, and most everywhere else. Each bottle of the Bitters is ornamented with a picture of the manufacturer: and the numerous copies of this which circulate all about, prove the popularity of this "medicated beverage." The Corn Starch from his manufactory can't be beat.

A NEW BRUNSWICK RAILROAD OPENED. *St. John, N. B., Aug.* 20.—The railway between Shediac and Moncton was opened yesterday morning. It is estimated about 6000 persons availed themselves of the opportunity to enjoy a ride upon the occasion.

Sixty Portuguese refugees from Madeira arrived at New York on Wednesday. They have been compelled to leave their native island by religious persecution, and are bound to Illinois, where there is a colony of refugees from the same island.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

THERE ARE HUNDREDS OF REMEDIES

Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N. Y.

LOCAL.

MUNICIPAL.—*Thursday evening, Aug. 20.* In the Board of Aldermen, an application was made by John Harrat for a sidewalk on Chapel street. Referred to Com. on Streets, Roads and Bridges.

J. H. Thacher asked leave to encumber Market st., for the purpose of repairing a store. Granted.

Atlantic Engine Co. No. 6 made application to take their engine to Dover on the 15th and 16th of September. Voted that the Fire Department have permission to refer it to the Board of Aldermen.

Several bills were approved and ordered to be paid, others rejected, and some referred.

The subject respecting the encroachment on the street on Wibird's Hill was brought up, but a full Board not being present, it was postponed to the next meeting.

The Board voted to meet at 7 1-2 o'clock, instead of at 8, as heretofore.

Adjourned.

Common Council not in session.

For the Chronicle.

A SUGGESTION.—*Messrs. Editors:*—One of our journals has lately been publishing a very interesting series of articles entitled "Rambles about Portsmouth." We have perused these articles with a great deal of pleasure; indeed, so much have we been pleased, that Twist-like, we would ask for more.—With becoming humility, we would therefore suggest that you send forth your efficient corps of reporters, with orders to promenade around the city, with not only eyes and ears open, but with nostrils fully dilated, to prepare a course of writings, entitled, if you please, "Smells around Portsmouth." Let them note down several localities which would be most likely, above others, to leave an unfavorable impression on their olfactory nerves.

A beautiful field for illustration on this subject may be found in the various slaughter-houses which adorn our suburbs. After this theme has been exhausted, another is presented, more in the centre of the city, in the shape of certain livery stables, which at most seasons proclaim their anti-Frangipanni powers, far and wide. Here a chance is furnished for a flourish about the great Augean stable and the wonderful individual who cleaned it out in such a Yankeefied fashion. Rambling, or rather, smelling, onward, the South Mill Pond Pond perfumery-factory may serve to suggest a third report. But we will not offer any further remarks. When the above-mentioned places have been commented on in the "Smells," we may take occasion to bring forward a few more to be submitted to the same process. ONE WHO KNOWS.

☞ We understand that an Engine Company from Laconia propose to visit this city and the Isles of Shoals, the latter part of next week, probably Friday. They are to take the Cochecho Railroad at Alton Bay, and will tarry one night in Dover—whence they will come to Portsmouth in a schooner.

☞ A new Liquid Stove Polish, advertised this day, if applied agreeably to the the directions, gives nearly the appearance of new iron, with only a moderate amount of brushing, with no dust and no unpleasant odor. See advertisement of Mr. Carleton.

☞ We observe that the Band are making arrangements to favor us with music on Market Square this evening. They are to perform two evenings a week throughout August and September, agreeably to the conditions of the appropriation made by the city.

8 DAYS LATER FROM EUROPE.

NEW YORK, August 19.—The Cunard steamship Arabia, Capt. Stone, with Liverpool advices to to the 8th inst., arrived at this port this evening.

Liverpool Breadstuffs Market, Aug. 8.—The Broker's Circular quotes Flour dull at a decline on the week of 1s; Wheat also dull at a decline of 2d per bushel; Corn inactive at a decline on the week of 1s.—Richardson, Spence & Co. quote:—Flour—Western Canal 30s a 30s 6d; Philadelphia and Baltimore 30s a 31s; Ohio 32s. Wheat—Red 8s a 8s 6d; white 9s 3d a 9s 8d. Corn—Mixed and yellow 37s 6d a 38s; white nominally 45s a 45s 6d.

The weather in England had been rough and stormy, but was rather more settled.

Bloomfield, Bishop of London, is dead.

The steamship Khersonese, which was to have left Liverpool for Newfoundland simultaneously with the Arabia, has been withdrawn, having been chartered by the government to convey troops to India.—Her place in the line will be filled in a few days by the steamship Crimean.

The shore cable of the Atlantic Telegraph was successfully landed at Valentia Bay, on the eve of the 5th. The Lord Lieutenant of Ireland received it formally from the officers and men of the Niagara and Susquehanna, amidst great enthusiasm.

A letter from Valencia, dated Aug. 3, says: The machinery for paying out the cable works perfectly, and we can telegraph over the whole cable without the least difficulty. We expect to arrive at Newfoundland in about 20 days after leaving this place.

The Emperor and Empress of the French, accompanied by Count Walewski and a small suite, arrived at Osborne, on a visit to Queen Victoria, on the Morning of the 6th, and were received with a royal salute from the fleet at Spithead. The visit was strictly a private one, and would not, it is believed, extend beyond the Isle of Wight, and probably Portsmouth Navy Yard.

The most vigilant surveillance was kept up in the neighborhood of Osborne, and all over the island, by a strong force of police from London and Paris, and boats were stationed off the beach, at Osborne to prevent the approach of any shore or strange boats. It is thought the Imperial party would return to France on the 10th.

A petition, calling upon Parliament to send out a much larger military force to India, than was contemplated, was receiving numerous signatures in Liverpool.

The house of Carr Brothers & Co., at Newcastle, extensive colliery owners, had temporally suspended payment. Their liabilities are very large, but the assets are said to be ample.

France.—The trial of the Italians, accused of an attempt to assassinate the Emperor, had resulted in a verdict af guilty, with extenuating circumstances in favor of Bartollotte and Gbilli. The Court sentenced Tibaldi to transportation for life, and Bartollotto and Gbilli to 15 years' imprisonment. The trial excited very little interest.

Spain.—The Paris correspondent of the Times, in a letter upon the Spanish-Mexican question, says:—From 40 to 50,000 Americans were ready to march into the Mexican territory as auxiliaries against the Spaniards. If any difficulty on the score of nationality had been raised, they would have assumed the Mexican flag, and enrolled themselves as Mexican citizens or soldiers.

The Mexican government seems to have no objection to a war with Spain.

The crops in Itily had all been secured, and the wheat harvest had been set down at an average of a crop and a half. A considerable increase was also anticipated in the crop of wine.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The combination is similar to the Church instrument being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of Melodeons for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any first manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons,	Hallett & Cumston,
J. Gilbert & Co.,	Wm. P. Emerson,
Brown & Allen,	A. W. Ladd & Co.,
George Hewes,	Woodward & Brown,
Newhall & Co.	

MELODEONS WANTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all prizes have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to

S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for services rendered so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of getting their application in a form to secure for them as early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ancuer 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine
THAT NEVER FAILS!

IS DR. WILSON'S
DYSENTERY POWDER,
Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten
ONE POWDER WILL CURE THE
WORST CASE,
when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;*—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among our females. Pain in the back, in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whichever that is the case, the Pills will invariably speedily all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, fluttering of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square flat boxes—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A WESTERN INCIDENT.

A notice which appeared in the Chronicle a few days since, of Dr. John C. Bennett, formerly professor in the medical department of Willoughby University, and now of Iowa, has called to mind an incident which occurred many years ago in Ohio, and in which that distinguished gentleman was a prominent actor.

The new county of P—— in the northwestern part of that State, had just been laid out, and a wonderful specimen of primeval architecture, in the shape of a mud-plastered log court house, had been erected at the county seat. The twenty-five able-bodied male inhabitants of the infant township were enthusiastic in their rejoicings, for there had been a sharp contest between the inhabitants of the two principal towns as to which should become the shire town, and enjoy the signal honor of the court house and county jail. The town of P—— triumphed, and from its title the county took its name.

When the result became known, each inhabitant strove to out-do the others in his manifestations of exuberant delight. The landlord of the principal (and only) tavern, —(a log palace, one story high, containing two rooms, and passing as the "United States Hotel,")—marched up the principal (and only) street, ringing his small dinner-bell. The lawyer exhausted his wind—and there was no lack of it—in long and repeated blasts upon a huge fish-horn. The doctor worried his small horse into a perfect fever by driving him at a 2.40 rate through the endless and unsounded mud of that immortal "county-seat." The school-master, who also officiated as preacher on Sundays, adjourned his school, or rather adjourned *himself*, after his promising pupils had departed in a body without an instant's warning, and totally ignoring the formality of a "billet." Bonfires were lighted, muskets discharged, and an instrumental concert given in the mud in front of the "United States," by the musician of the "county-seat," on his favorite instrument—a four-keyed accordeon. It was a great time—for one of its size. Slumber fled the eyelids of the inhabitants of that heretofore peaceful borough; and the sale of tallow candles—sixes—at the "grocery" was immense—wholly unparalleled in the annals of history.

The day following, all business was suspended. A motley crowd gathered at the "grocery," and it was very evident that something was about to be *did*. The lawyer made a speech. He soared high above the mud which everywhere surrounded him, and gazed with wrapt vision upon golden vistas beyond. He saw property wonderfully increasing in value, the canal lined with immense ware-houses, into which grain was being poured by steam elevators; the twenty-five inhabitants of P—— increased to as many thousands, within two years—*sure*. He came down from the empyrean and landed on the counter. The applause was terrific.

"Captain P——" was next called upon. The captain was a native of New Hampshire, and had once commanded a militia company in Hillsborough county. The military spirit was strong within him, and the smouldering embers of the old camp fires were rapidly being fanned into a flame. He entirely agreed with the 'squire in his ideas of progress, but argued the necessity of immediate action. He erected the court house—in his speech—and built a secure jail for all offenders, in the rear of the first-mentioned edifice. Then came the necessity for defence. Riots might occur. The degraded and vicious, such as infest all *large cities*, might on some pretext revolt, and bid defiance to the laws.—The prospective mayor might require the aid of the military to quell the outbreak. But his honor's summons would be disregarded. The nearest military force was located eighty miles off, and before it could reach the ground the city might be laid in ashes. A military organization should be formed at once, and thus every household would be saved from impending danger.—The idea took like wild-fire. In an hour the company was enrolled—not a man hesitating, from the minister down to—the lawyer.

Time passed on—the court house was erected, logs hauled, and ground broke for the new jail. The military company had made several accessions among new settlers and from other townships in the region, and on the first day of February had reached the requisite number of forty, which entitled it to a stand of arms and field-piece from the State. Captain P., the commanding officer of the new company, had communicated this favorable condition of things to the authorities at Columbus, asking an order for an old cannon, then lying at the dilapidated fort at T——, nearly a hundred miles from the new county-seat.

But either the irregularity of the mails, or a laxity on the part of the officials, detained the expected favorable reply. Sixteen days passed; the mails came to hand, but no official-looking document gladdened the eyes of Captain P. and his brave compatriots. What was to be done? A celebration of the right stamp, such as would do honor to the occasion, had been projected for the 22d, the birth-day of the immortal Washington. The Captain urged upon his men the necessity for immediate action—arguing that they were justly entitled to the cannon—that an order for its delivery to the company was doubtless on its way, and stated it as his belief that they should not give up their celebration simply because the document had not reached them.

They could manage to do without the stand of arms for the present, but the cannon! what regular military corps could celebrate Washington's birth-day with fowling-pieces?

The Captain's argument was acknowledged to be sound, and it needed only the suggestion from him, to appoint a committee who should proceed to the Fort, and after making suitable overtures to the officer in charge, to carry home the cannon, *vi et armis*, if need be; at any rate, *somehow*.

So the committee of six, headed by the valiant Captain, with four stout horses and a suitable go-cart, made their way to the Fort. Three days hard travel over the outrageous roads of that county, brought them face to face with the thick-headed old Dutchman in charge of the Fort—and the cannon. The case was plainly stated, but the impression made upon the obtuse old dutchman was evidently slight—a distinct "Yaw" being the only response; it was argued with all the ardor and eloquence of the Captain of the valiant forty, but without appreciable result. In vain was the old Dutchman's patriotism appealed to—he remained *dutch* to the last. He knew his duty—he must "shee te order."

So the forces were called off, and a parley ensued. It was agreed that one of their number should return with all speed to P——, and procure the order, which doubtless had ere this arrived. Accordingly the messenger departed, but not for P. He awaited the result of the Captain's stratagem, at a distance of twenty rods from the scene of action. In two hours, the Fort was surrendered at discretion—stratagem and whiskey—particularly the latter—having accomplished what eloquent appeals to patriotism had utterly failed to do—secured the cannon and left the Dutchman ingloriously, but essentially, drunk upon the "tented field." He had "sheen te order," but it had appeared to his admiring vision in the *unquestionable* shape of *—a whiskey jug*.

It was past midnight—and the morning of the 22nd, when the wearied and worn "committee," having in charge the long-coveted six-pounder, reached the county-seat. All exhausted as they were, they yet refused to retire for a few hours' repose, but at once commenced operations upon the cannon, and by dint of hard scrubbing and the use of about ten pounds of sulphuric acid, they succeeded in restoring the original lustre to the old brass piece, and the first rays of the rising sun were dazzlingly reflected from its polished surface. At sunrise, the committee and the cannon submitted their *report*, a loud one, which called forth the entire population. The company were soon under arms, the evolutions were gone through with in true backwoods' style, the cannon thundered forth a national salute, and at high noon the company "adjourned" for a dinner of ham and eggs at the *leading hotel*.

A second and final salute was projected for the opening of the afternoon campaign, at 3 o'clock precisely. But that salute was destined never to reverberate through the dim and gray old woods of that youth-

ful settlement. The first gun was fired, and while the second cartridge was being rammed home, a premature explosion occurred, which terribly mutilated the first gunner, tearing off his right arm below the elbow, and mangling his face and breast in a shocking manner. The poor sufferer was instantly conveyed to the tavern, unconscious of his real condition, but raving incoherently, and writhing in maniacal fury. It was a sad, heart-sickening sight. There had been no more manly form in the ranks that day; than that of the noble Crittenden. He was a young man, universally beloved, and every countenance paled at his fearful condition, his terrible agony. And now what could be done for his relief? His arm must be amputated, and the torn vessels, from which the life-blood was madly gushing, must be secured at once. The village doctor shrunk from the task. He had no suitable instruments, and the nearest amputating case was owned by a surgeon of some local distinction, twenty miles away. The doctor insisted that the surgeon should be sent for, and while the messenger was being dispatched, busied himself to the extent of his poor abilities, in washing the terrible wounds and in vain attempts to compress the severed arteries. With his poor appliances and poorer skill, his success was but limited, and, as with every pulsation of the heart, the red blood spurted forth, and the agonizing groans of the wounded man subsided into faint moans, it seemed evident that death from hemorrhage must inevitably ensue before relief could, by any possibility, arrive.

A small, mud-bespattered man, mounted on a jaded horse, approaches the tavern. In an instant, every heart beats with renewed hope, as a score of voices shout forth the name of "Professor Bennett!" The keen black eyes of the little man flash fire, as with his hand upon the pulse of the sufferer, he enquires of the cowering doctor, "Why was not this limb amputated an hour ago?" "No instruments," was the reply. "We have sent for Dr. C——, he will be here by midnight." "By midnight! The man is dying *now*, from loss of blood! Landlord, bring me a carving knife, a butcher knife, — anything that will cut!" A carving-knife was selected, hastily ground; a small saw used by a carpenter procured; an extempore tourniquet made, by knotting a large cord and tying it tightly around the arm, the knots pressing accurately upon the arteries—a couple of slashing incisions, made in the sound flesh, laying bare the bone—a few rapid passes with the saw, and the mangled fragments of that sinewy arm dropped upon the floor. The cord was now slightly loosened, the mouths of the arteries discovered by the jet of blood which occurred immediately on the loosening of the bandage—the vessels taken up on the sharpened point of a knitting-needle—suitable ligatures applied—the stump dressed, stimulants and anodynes administered to the poor sufferer,—and the work of the skilful surgeon was ended. Dr. Bennett awaited the arrival of Dr. C., and in a consultation which ensued, expressed but little hope of recovery for the poor patient. An effusion of blood from the mouth, following severe attacks of coughing, indicated serious internal injury, and the enfeebled condition of the life-powers rendered reaction doubtful. The only hope was in the naturally strong constitution of the patient.

At sunrise, Dr. B. wended his way from the settlement, followed by the blessings of every human being. He had performed a noble work, and, as all hoped, had saved the life of a much-loved citizen.

But alas! the fate of poor Crittenden was sealed. He lingered on a bed of misery for twenty-two days, and expired, the recuperative energies of nature proving insufficient to restore the exhausted life-powers.

The Military Company died out. The "order" never arrived, and the cannon was shortly after delivered into the care of the old Dutchman. But the fame of Dr. John C. Bennett never died out in that region.

☞ The Liverpool Mercury of August 7th, says "that the accounts of the growing crops continue to be most favorable, and we are now reaping in some parts of these islands, the fruits of one of the earliest harvests on record. We learn from Ireland, that in some districts the potato disease has re-appeared, but the tubers are said to be still sound, and the loss, so far, has been trifling. The price of wheat in the face of these facts is receding, but butcher's meat and some other articles of food continue unusually dear."

☞ U. S. troops do not like to go to Utah. Of the 540 in the advance party, when they reached Fort Laramie, 140 had deserted.

MR. GOODRICH'S LETTER.

The Boston Traveller of Thursday contained a long letter from Mr. Goodrich "to the Republicans of Massachusetts," the design of which is to show that the Hon. N. P. Banks, the nominee of the Republicans for Governor at the approaching election, is not reliable as to his Republican principles, and therefore should not be supported by the party. We have read this long, interminable letter with a great deal more pain than pleasure. Mr. Goodrich, as we think, has utterly failed to make out his case. He thinks the election of Mr. Banks as Speaker in Congress, was not a Republican triumph. This will be news to the country at large, and it will amazingly comfort the slave-holding Democracy in the South. They opposed Mr. Banks on the distinctive ground that he was a "black Republican;" and when his election was secured, they poured forth hideous wails of sadness and anguish at the awful strides of the Republican party.

Mr. Goodrich was a candidate for Governor in the convention that nominated Mr. Banks. The *majority* of votes were against him, and we think he should have borne his disappointment like a philosopher, and submitted to the decision against him. If Mr. Banks had been defeated, we doubt not that he would have given an earnest and hearty support to Mr. Goodrich. We have no special respect for the temper or the judgment of a man who consents to take his chances in a popular convention, and when he finds the tide against him, flies off in a tangent and does all in his power to injure his friends and defeat his party.

We doubt not that Mr. Banks will be triumphantly elected in spite of Mr. Goodrich and all the special pleading of his long letter of nearly *nine* columns, closely printed. But how will Mr. Goodrich stand? How will the party feel toward the man who did all in his power to procure their defeat? We regret this great blunder of Mr. G. He has, in times past, done good service to the Republican cause. He has labored earnestly, faithfully and successfully. The time *would* have come when he would have been remembered and honorably required. But how is it now? We fear the old adage will be verified in his case:—

"He digged a pit, he digged it deep,
He digged it for his brother;
But his great sin he did fall in
The pit he digged for t'other."

A. B.

WASHINGTON, Aug. 20th.—Gov. Walker of Kansas, in official dispatches recently received says, that on one point he has been grossly misprepented, viz.: As desiring that every man should vote who happened to be in the Territory on the day of the election for ratification of the Constitution.

This, he remarks, would be desirable, if there were conclusive evidence that all such persons were actual *bona fide* settlers. But the only sufficient and usual proof of such a fact would be some previous residence.

On this point, which is one of detail, he had never proposed to make suggestions to the Convention, although when asked his opinion by members of that body, he had indicated a previous residence of three or six months; and that the same qualification be adopted in the Constitution, in regard not only to that, but to all future elections; and in his judgment one or other of these terms will be adopted by the Convention,* from whom he anticipates cordial co-operation. It is somewhat extraordinary, he adds, that whilst this accusation of letting any man vote who may happen to be in the Territory on the day of election, has been preferred in the South as an indication of a desire on my part to let in abolition vagrants and interlopers to control the result, the Republicans of Kansas draw an entirely different conclusion, viz.; that I designed in this manner to bring many thousand Missourians into the Territory to decide the contest.

*We don't believe Gov. Walker is quite so green, as to suppose for a moment, that this border ruffian convention will propose any *fair* terms of voting whatever. We should be very happy to see that they did, but if so, they must contradict everything else which they and their "illustrious predecessors" have done, clear back to Douglas and Atchison, Buford and Stringfellow.

☞ Rev. Wm. H. Channing, of Boston, is to succeed Rev. Mr. Martineau, as preacher in the Gothic [Unitarian] Chapel, Liverpool. As the substitute for Rev. Mr. Thom, who now resumes his former pastorate, Mr. Channing has had a success in all respects remarkable.

The fire in the stable of Hart, Thomas & Co., on Magazine street, New Orleans, before reported by telegraph, is rumored to have destroyed the lives of three or four men.

FEEBLE CHURCHES.—Several days ago, we published a little article, copied from some paper, stating that 10 churches in Vermont, had within some short time, ceased to be self-supporting. In the same article, the writer of it, whoever he was, stated the cause of the declension, viz. emigration to the west.

We were somewhat amused, a day or two after, by seeing the same statement of the ten feeble churches, with the above reason for it cut off, and its place most ingeniously supplied, in another paper, by the grave suggestion that political preaching did the mischief,—and that unless this wicked practice was stopped, there would be an alarming increase of feeble churches. This precious exhibition of ignorance was, if not unanswerable, certainly not worth answering,—because, nobody who went to meeting regularly would pay attention to it beyond a laugh at its nonsense.

But we have just been reading, in the Congregational Journal, one of the Rev. Wm. Clark's Missionary letters from Coos County, where it appears feeble churches abound, and where some of the preaching seems to be quite as feeble as the churches.

Mr. Clark says:—

In many of these places, to be sure, there are nominal preachers; but as was shrewdly said by a common-sense man in one of these towns, "We have what is called *preaching* in our town, but no *sermons*."

Another, an old man of 80 years, living in one of the morally desolate towns of this county, on whom calling at an early hour in the morning recently, and finding him reading the Bible, he said to me, "We have no instructive Bible preaching here, sir. A man claiming to be a minister of Jesus Christ, came into my house awhile ago, and charged me with entertaining wrong views of religion. In reply I said, I claim to build my religion on the ten Commandments. Is not that the right foundation, sir? Will you repeat the first Commandment? He could not say a word of it. But I repeated it to him. Will you tell me what is the second? He could not utter a word of this. This, however, I also repeated to him. Will you tell me, sir, what is the third? He was dumb.—But I repeated this to him. What is the fourth? Unable to make any answer, the renegade took his hat and left my house." I use the old man's language.

In another town in this county, a preacher spoke to his hearers about "expostulating the Scriptures," and expressing his dissatisfaction with them, that they did not "expound to him," or that they did not utter their "amen" to what he said.

CRIME ENCOURAGED.

The New York Sunday Times holds the following language, in commenting upon the recent riots and disorders in New York city. The article is worthy of perusal in all other cities wherein any officials do what they can to promote crime by aiding and abetting criminals in efforts to escape merited punishment. The criminal officer or magistrate who does this, whether he seeks for filthy lucre or brilled suffrage, really sinks himself below the more private but less guilty culprit whose accomplice he is.

A very slight glance at the encouragement given to *crime* in this city by men in *official station*, must satisfy any reflecting mind of the radical error that exists in our present system of nominations. A *magistrate* makes himself notorious for holding an extempore court on the pavement, or for openly doing anything else just as flagitious, in order to dismiss from custody some of the worst outlaws that infest this unfortunate community. A *councilman* voluntarily presents himself as bondsman for two other disorderly creatures, to secure their *escape* from the imprisonment they deserve. How many more of these worthy gentlemen make it a practice to secure immunity to such offenders, we do not know; but how long can we expect policemen to be diligent in capturing vicious characters, if their efforts to do their duty are so practically frustrated and held up to public contempt? The best corps of patrol men in the world would be rendered careless, and their efficiency utterly paralyzed, in a short time, by such treatment. The only relief is to hold up such magistrates and such councilmen to public reprobation; and the only remedy is for good citizens to refuse to vote for such men when they are unscrupulously placed in nomination. No party ties should be strong enough to induce the honest to support a ticket composed of base materials; and the party that insults the public intelligence and integrity by thrusting reckless people like these into the foreground as candidates for the suffrages of the respectable, only merits its just reward when abandoned in disgust and denounced for its perfidy to honorable principles.

☞ The Supreme Court of Middlesex County, Mass. decide that bonds given by the treasurer of a manufacturing corporation expired with the term for which he was originally elected, and did not apply to the new term for which he was re-elected.

The St. Louis Intelligencer, of Saturday, says that Rollins is certainly elected; while the Republican, which supported Stewart, though it does not admit his defeat, says the result is very doubtful.

The *doubtful* flag will be kept flying if possible, till after Maine, Massachusetts, and Pennsylvania shall have voted.

LARGE OPERATIONS IN COUNTERFEIT MONEY.—In New York during Tuesday morning and evening, some thirty or forty persons—men and women—were in circulation throughout the city, passing spurious five dollar notes, purporting to be of the issue of the Lee Bank, of Lee, Massachusetts. So successful were the operators, it is believed that they succeeded in passing some six or eight thousand dollars worth of the stuff. At the bar of the St. Nicholas hotel, $40 worth of the paper was taken. The police, in concert, went in pursuit of the rogues and arrested David Hill, Honora Kilen, Agnes Moore, James Thomas, John Thomas, Rachel Miller, Henry Lovejoy, Joseph Webster, James Bades, Richard Shierin and others. The prisoners were subsequently identified by the shop keepers and others to whom they passed the bills. The head quarters of the bad-bill distributors is said to be at Greenpoint.

COLONIZING VIRGINIA.—Eli Thayer has begun colonizing Virginia by purchasing four steam engines of 700 horse power, in the aggregate, and Mr. D. W. Cook has gone out to lay the foundations of the one already there. Mr. E. M. Holmes of Worcester will leave in a day or two to survey the new city of Ceredo, and we hear of a printer who has the offer of the new weekly. It is significant of the Yankee element that a newspaper is determined upon before the commencement of the enterprise.—*Worcester Transcript.*

No medicine has been introduced in this country that is giving such universal satisfaction as Dr. Wilson's Dysentery Powders. They immediately check the disease without danger of producing inflammation or fever. Dysentery, Diarrhea, Cholera Morbus, and Summer Complaint are cured with one Powder, if taken when first attacked with the disease. Give them one trial and you will not be without them. a6 3w

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were grey headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

☞ The telegraph from Washington, reports that Henry F. Wendell., Esq., has been appointed Navy Agent at Portsmouth, N. H., vice Nehemiah Moses, Esq., removed. This is doubtless correct, although no official intelligence of the appointment has been received in this city. Mr. Wendell is well known as one of our most efficient, prompt and reliable business men; and many, aside from those politically interested in the division of the government loaves and fishes, will congratulate him on his good luck.

☞ Rev. Thomas Holmes is to preach at Hanover Street Chapel to-morrow.

CRINOLINE.—The often asked question "What is Crinoline?" is answered in the following paragraph:—

"The ladies err in supposing that the word crinoline is the French term for *hoops*, for there is no similarity between them.—Crinoline is the fasionable material for ladies' skirts, which hoops are not; and they only serve, very imperfectly, to produce the effect to the *jupe* of the robe by inflating it *a la baloon*, but without the comfort and grace of the crinoline. Crinoline is hair-cloth. *Crin* is the French name for horse-hair, and the addition of *oline* is merely the peculiar manufacture of it. Since the great luxury of this kind of skirt has become generally known, and the price of hair-cloth has risen proportionately, fine splints and fibers of wood have been employed to mix with horse hair in forming the fabric, but even that stuff is call crinoline, because the imitation does not materially deteriorate the goods or change its effect. When bustles were in fashion, the best of them were made from crinoline."

VERMONT.—The Vermont Chronicle publishes the Report of the Congregational ministers and churches for the year ending June 1, 1857, of which the following is a summary:—193 churches, 70 pastors, 69 stated supplies, 53 destitute churches; 55 unsettled ministers, 13 ministers dismissed, 9 ministers ordained or installed, 12 licentiates, 5 ministers deceased; 315 added to the churches by profession, 301 added by letter, 326 members dismissed, 16 excluded, 205 deaths: 16,857 church members, of whom 3,838 are males, and 13,024 females; 2,140 non resident members, 147 infant baptisms. 49 churches increased 264 members, and 59 decreased 216.

☞ Judge R. B. Warden, heretofore a leading, prominent, and influential Democrat of Ohio, who supported Buchanan last year, has become disgusted with the indorsement by the State Convention, of the Dred Scott decision, and in a letter to the Ohio State Journal invokes defeat upon his party.

KANSAS.

A letter from Spectator to the Boston Transcript, dated Lawrence, Kansas, Aug. 13, says:

We have a new act in the military subjugation of Kansas. It seems that the dragoons are quartered here for the arrest of our free State citizens for the part taken by them in the conflicts of last fall. They have commenced at the beginning. Last evening a company of troopers came up from Franklin, whither they had slyly repaired by a round-about way, bringing back six prisoners. These they paraded through our city under the formidable escort. So we are given to understand what we may expect under this martial rule.

The people are excited and exasperated as they have not been before since the outrages of last September. Be not surprised if you hear of some rash deeds of retaliation. It would be a great mistake. In *patient, forbearing endurance* lies our strength for the next two months; and our only *very faint* hope of success in the election to take place at the end of that period. I confess I hope for nothing from any chance that will be given us at the ballot box then. It will be a repetition of the old fraud in some new and if possible more oppressive form. Gov. Walker has been prostrated by the voice of the Southern press, and we greatly fear that the President's fine words and promises will not be backed by actions.

The weather is very unsettled. The country looks beautifully. Monstrous crops of corn and potatoes are promising everywhere. I am afraid that meadow haying will be fatally interfered with by the rains, in many instances. Most of the meadow lands are mid-leg deep with water. Farmers who rely on their meadows—which were ready for the scythe by the middle of July—look "as blue as mustard" over their misfortunes. Further inquiries and personal observation confirm my opinion that there is no potato rot or rust in these diggings.

RUNAWAY CAUGHT.—Cornelius Sullivan, of Georgetown, Mass., was convicted last October, of rumselling, and, being an old offender, if he had been sentenced, would have had to go to the House of Correction for a year. He has been out on bail, till certain law questions were settled, and his backers were about giving him up, when, about three weeks ago, he took leg bail for parts unknown, leaving his bail in the lurch. George W. Boynton, constable of Georgetown, laid baits to catch him. He came here and left a description of Sullivan with City Marshal Lowell. Soon Lowell, with an eye open for rogues, spotted him, and sent word to Boynton, who came here yesterday, found Sullivan and took him off to Georgetown, where he will have no sympathy, from the fact that he played false to his backers.—*Manchester Mirror, 19th.*

THE GREAT EASTERN.—It is stated by a contemporary that the Chairman, Directors and Secretary of the Great Eastern Steam Navigation Company, accompanied by her commander, Capt. Harrison, are to visit Liverpool to-morrow, and from thence proceed to Holyhead, to make arrangements for the first voyage of the Great Eastern to Portland. The movements of the managers of this ship of late, remind us of the family portrait of the Vicar of Wakefield, which was so large that it could not be got into the house. Here we have a ship which the owners do not know what to do with. They fancy she is too big to get into any working port, and they visit Holyhead, Milford Haven, and every out-of-the-way port to find accommodations.—*Liverpool Courier. 5th.*

Mr. Brown, the Democratic candidate for Governor of Georgia, said in one of his speeches that Mr. Buchanan had married the South. Mr. Hill, the opposing candidate, retorted by saying he had made a bad husband, as he had in less than four months *whipped his wife!*

AMERICAN HOUSE.
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and convenience of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

S. D. & H. W. Smith,
MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 311 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor Use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lottery, in which R. Parker & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month! If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $30 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.
Address T. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 78 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, Lt. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more likely to secure to them an early application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R.H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Commissioner of Patents.

New Militia Law.

LAWS OF NEW HAMPSHIRE.

PASSED JUNE SESSION, 1857.

AN ACT remodeling the Militia of the State of New Hampshire.

Be it enacted by the Senate and House of Representatives in General Court convened, follows:

OF EXEMPTIONS.

SECTION 1. The following persons are exempted from enrollment and military duty: The vice president of the United States; the officers civil and executive of the government of the United States; members and officers of both houses of congress; all custom house officers and their clerks; all post office officers and stage drivers, who are actually in the care and conveyance of the mail of the United States; all ferrymen necessarily employed at any ferry on any post road; all keepers of exports; all pilots on the coast; all mariners employed in the navigation service of any citizen or merchant within the United States; the members and officers of the legislature while in session; all persons, who, having held commissions in the army or navy of the United States, or in the militia of any State, for the term of four years, shall have been regularly discharged or suspended; all persons, who, having held a warrant or office in the militia, shall have done duty as such for the term of four years; fire engineers or hosemen, who shall, on or before the twentieth day of April, annually, produce to the selectmen of the town or mayor and aldermen of the city, within whose limits they reside, a certificate of the foreward that they have been legally appointed and are bound to perform the duty of such engineers or hosemen; all persons while employed as officers or keepers in the state prison; clergymen of every religious denomination; every person of the religious denomination of Quakers or Shakers, who shall on or before the twentieth day of April, annually, produce to the selectmen of the town, or mayor and aldermen of the city, within whose limits he shall reside, a certificate of the fact; two or more of the elders or overseers, and the clerk of the meeting or society with which he meets for worship, in substance as follows:

We, the subscribers, elders (or overseers as the case may be) of the meeting of the society of do hereby certify that frequently and usually attends with said society for public worship, is a regular member thereof, and we believe he is conscientiously scrupulous of bearing arms.

A. B. } Elders
C. D. } Overseers.

E. F. Clerk.

And any person who shall produce a certificate from the clerk of any society or meeting of the people called Friends, that he is a member of said society or meeting in good standing, shall not be liable to enrollment; the members of the executive council; judges and clerks of all courts of record; judges and registers of probate; registers of deeds; the attorney general; the secretary and treasurer of the State; physicians and surgeons, on whom has been conferred the degree of doctor of medicine, or who shall have recommended by any regular medical society; and the attendants upon the insane, employed in the New Hampshire asylum for the insane.

OF ENROLLMENTS AND RETURNS.

SECTION 1. Every free, able-bodied, male citizen of this State, of the age of eighteen years, and under the age of forty-five years, not now by law exempt from doing military duty, shall be enrolled in the town or city within whose limits he may reside, and he shall be regularly enlisted in some volunteer company.

SEC. 2. This enrollment shall be made annually, in the month of April, by the selectmen of each town, or the assessors of each city, and a record thereof deposited with the clerk of said town or city, and an abstract of the same forwarded by the clerk to the adjutant general, on or before the seventeenth day of May.

SEC. 3. If any person, when applied to by the captain or any officer of the company in which he is liable to serve, or by the selectmen of the town, or officers of the city within whose limits he resides, shall neglect or refuse to give information or shall give false answers in relation to his name or age, or to the discharge of any duty concerning military duty, he shall forfeit five dollars for each offence. If such person is a minor, his parent or guardian shall be liable for such forfeiture.

SEC. 4. If any person when applied to by any officer as above, shall neglect or refuse to give information, or shall give any false information in relation to the name of any person liable to do military duty, residing in his house or family, he shall forfeit the sum of five dollars.

SEC. 5. If the selectmen of any town, or the city council of any city, shall neglect or refuse to perform any duty imposed upon them by the preceding section, every selectman and every member of the city council so neglecting or refusing, shall forfeit the sum of twenty dollars for each and every offence, to be recovered by the adjutant general or any other person suing therefor, one-half for the use of the person who may sue for the same, the other half to the use of the State.

OF RETURNS.

SECTION 1. The captain of each volunteer company shall, at the annual inspection of his company in May, (the third Tuesday of May,) make out and sign a correct return in such form as shall be prescribed, of the names of the men enrolled in his company, cause it to be recorded in the orderly book of his company, signed by the clerk and transmitted to the adjutant of his regiment.

SEC. 2. The captain shall also at the same time make out and sign a correct return in such form as may be prescribed, of the camp equipage, ordnance, arms, ammunition, stones, musical instruments, and public property of every description in his company, which have been furnished by the State, and of the property in requisition for such article or for any wanting: shall cause the same to be signed and recorded by the clerk, and transmit the same to the quartermaster of his regiment.

SEC. 3. The clerk shall assist the captain in making his returns, and shall sign and record the same in his orderly book.

SEC. 4. The adjutant shall furnish the captains with blank forms of returns to be made by them, and explain how they should be made; shall consolidate the returns made to him into a regimental return, and make the same in his orderly book, and within the time prescribed by law, transmit the same to the adjutant general, and a duplicate thereof to the brigade major, and keep the same in his office ready for inspection.

SEC. 5. The brigade major shall consolidate the regimental returns made to him into a brigade return, record the same in his orderly book, and within the time prescribed by the adjutant general, and a duplicate thereof to the major general, and keep the returns made to him on file.

SEC. 6. The quartermaster shall consolidate the returns made to him into a regimental return; add thereto the articles of public property in his own keeping for the use of the regiment, such as are called for required; record the same in his orderly book, and transmit it, countersigned by the colonel to the adjutant general, and keep the returns made to him on file.

SEC. 7. The returns of captains to the adjutants and quartermasters shall be made within ten days after the annual inspection in May, (third Tuesday of May,) and the returns of adjutants and quartermasters to the adjutant general within twenty days after the inspection; and if either of said officers shall neglect to make his return within the time aforesaid, he shall forfeit for each neglect the sum of twenty dollars.

SEC. 8 Adjutants shall receive two dollars for making the regimental returns, to be paid by the adjutant general.

SEC. 9. Postage and other reasonable expenses incurred in the transmission of orders and returns, and transmission of public property, shall be paid by the adjutant general on satisfactory evidence that the expense was actually and necessarily incurred and was just and reasonable.

SEC. 10. The adjutant general shall immediately consolidate the adjutants' returns of the several regiments, and record and transmit the same to the commander-in-chief, and a duplicate thereof to the secretary of war of the United States.

SEC. 11. He shall consolidate the returns of the regimental quartermasters, and add to the same a return of all articles of public property in his possession or issued to regimental quartermasters, record the same, and transmit it to the commander-in-chief.

OF ORDERLY BOOKS AND ROSTERS.

SECTION 1. Each division inspector, brigade major, adjutant and clerk of a company shall keep an orderly book, and record therein all orders and official communications, received or issued by his commanding officer, and all returns which shall be signed by him, and distribute all orders of his commanding officer.

SEC. 2. Each quartermaster shall keep an orderly book, and record therein all orders and official communications received by him relating to his office, or communications written by him relating to the public property in his charge, all receipts for public property distributed by him, and all returns of public property made by him.

SEC. 3. The adjutant of each regiment shall keep in his orderly book a roster of the officers and non-commissioned officers of the regiment, with the dates of their appointments, and the place of their residence; shall keep a like roster of all the officers of each company.

SEC. 4. The clerk of each company shall record all permits and sergeant's certificates, presented to him for that purpose, in his orderly book.

OF WARNINGS.

SECTION 1. Whenever the captain shall parade his company, he shall issue his orders to one or more of their privates, not being the orderly sergeant, otherwise to one or more privates of his company, requiring them to warn the officers and privates whose names are inserted in or annexed to the order, to appear at such time and place appointed.

SEC. 2. Such sergeant or private shall warn every person whose name is so inserted, by delivering to him in person or leaving at his usual place of abode a written or printed order at least four days previous to the time of such parade.

SEC. 3. The return under oath of the sergeant or private shall be made to the officer directed to him, stating that such notice was given, or a copy of the record of such order and return in the company books certified by the clerk, shall be evidence that due notice was given of enrollment or of such parade.

SEC 4. Such return or record may be amended by such sergeant, private or clerk respectively, at any time, so that all the facts may appear.

SEC. 5. Any sergeant or private, who shall be convicted of making a false return, shall be liable to the punishment prescribed in other cases of perjury.

SEC. 6. The captain of any company shall neglect or refuse to warn any officer or private whom he shall be ordered to warn, he shall forfeit the sum of two dollars for each person so neglected.

SEC. 7. The captain may verbally warn his company when paraded, to appear on some day, not more than thirty days after; and a record of such warning and of the names of the officers and privates then present being made in the orderly book of the company and signed by the captain and clerk, said record or a certified copy shall be evidence of due notice to all such present.

SEC. 8. If any sergeant or private shall refuse or neglect to make due return under oath of any order to him directed, agreeable to such order, he shall forfeit two dollars for each person whose name is inserted in or annexed to such orders and who shall not appear at such parade, to be recovered by action of debt by the captain; but the names of the officers and privates then present being made in the orderly book of the company and signed by the captain and clerk, said record or a certified copy shall be evidence of due notice to all such present.

SEC. 9. If any sergeant or private shall refuse or neglect to make due return under oath of any order to him directed, agreeable to such order, he shall forfeit two dollars for each person whose name is inserted in or annexed to such orders and who shall not appear at such parade, to be recovered by action of debt by the captain; but the names of the officers and privates then present being made in the orderly book of the company and signed by the captain and clerk, said record or a certified copy shall be evidence of due notice to all such present.

SEC. 10. If any sergeant or private shall neglect or refuse to warn any officer or private whom he shall be ordered to warn, he shall forfeit the sum of two dollars for each person so neglected.

SEC. 11. The captain may verbally warn his company when paraded, to appear on some day, not more than thirty days after; and a record of such warning and of the names of the officers and privates then present being made in the orderly book of the company and signed by the captain and clerk, said record or a certified copy shall be evidence of due notice to all such present.

SEC. 8. If any sergeant or private shall refuse or neglect to make due return under oath of any order to him directed, agreeable to such order, he shall forfeit two dollars for each person whose name is inserted in or annexed to such orders and who shall not appear at such parade, to be recovered by action of debt by the captain; but the names of the officers and privates then present being made in the orderly book of the company and signed by the captain and clerk, said record or a certified copy shall be evidence of due notice to all such present.

SEC. 9. If any sergeant or private shall neglect or refuse to warn any officer or private whom he shall be ordered to warn, he shall forfeit the sum of two dollars for each person so neglected.

SLAVERY IN OREGON.—The Occidental Messenger is the title of a new pro-slavery paper recently started in Oregon. The editor gives the following among other reasons for favoring the introduction of slavery into the Territory:

The slavery representation in the U. S. Senate needs strengthening—the preponderance being in favor of the free States—and a fine opportunity is now presented to restore the equilibrium by the admission of Oregon with a Slavery clause.

Suppose all this to happen—what will be gained? Answer, the slave power will gain two Senators to do its bidding.—Oregon will gain the privilege of being ruled by an aristocracy which will keep her poor,—and after 40 years of trial, like Missouri, she will groan and even fight for deliverance.

The addition of agricultural to the words medical and mechanical purposes, in the liquor business, has added to sales of the agents in this city, during the haying season.—*Newburyport Herald.*

Having made hay for more than 20 years, a teetotaller, Uncle Toby says he is certain there is no more need of rum in the *hay-field*, than there is in the pulpit or printing office. And having travelled, a teetotaller, in New Hampshire nearly all the summer of 1827; having travelled in the County of Rockingham all the winter of 1837: and having travelled in Massachusetts and other States nearly the whole year 1850, this latter year mostly on foot, he is certain that the *traveler*, who is 25 years old, or 35, or 50, needs neither rum nor wine, nor any intoxicating stuff whatever, unless for the purpose of getting tipsy or partly so. One hundred miles a week on foot, or 150 miles in a carriage, can be performed by men of these ages, in common health, and with legs not damaged by drink or vice, without the aid of artificial stimulants. So says Uncle Toby, who has done it, and who is ready to do it again, when duty or interest calls for it.

A traveller or hay-maker, needing a dram? Pshaw! not unless he is a tippler or sot.

MORMON RESISTANCE.—*Washington, Aug. 21.*—The Interior Department has received intelligence from reliable gentlemen and fugitive Mormons, that Brigham Young is preparing to resist Gen. Harney—that he has relapsed into the grossest infidelity and atheism, and that he continues to hold up the government of the United States to the supreme contempt of the Mormons.

Indeed! Brigham has relapsed; has he? We would like to know when he was recovered or recovering into anything like christianity.

CINCINNATI, Aug. 21.—The brick warehouse occupied by Charles Rodman, fell last evening, under a pressure of 1,600 barrels of whiskey, stored in the lofts. The adjoining buildings, occupied by Calvin Fletcher and J. A. Skiff, were badly injured. Loss $20,000.

If the whiskey were sold, a thousand men might fall under its pressure.

☞ Some of the most respectable gentlemen of the Israelitish descent now living and doing business in Pittsburg, have signed a call for a meeting to be held at their synagogue, to take the treaty made and concluded by our late administration, between the United States and Switzerland, excluding all Israelites from the benefits derived by this treaty to the citizens of of this Union, into consideration. They declare that as a body they consider the treaty unconstitutional, and that the late administration has inflicted a great wrong upon them, and given them just ground for complaint, as they are "a peaceable, loyal, and law-abiding part of this Republic," and citizens of these United States.

SINGULAR DEATH.—An inquest was held in New York, Thursday, upon the body of a little girl named Jane Eliza Davis, who died at the residence of her parents, No. 488 Grand street, under very remarkable circumstances. On Tuesday evening she took a needle from the cushion, and while walking the room with it stumbled and fell. Her whole weight came upon the left side, the point striking her heart. A physician who was called was unable to find it. She lingered till next morning and died. A post mortem examination revealed the fact that the point of the needle had been driven into the right oricle of the heart. At every pulsation the needle had caused a laceration, and when the examination was made the wound was about the size of half a dollar.

SUICIDE OF A BANK OFFICER.—Geo. Hembold, first teller of the Western Bank, committed suicide in Philadelphia on the 16th inst., by cutting his throat.

☞ Dr. Lydia Sayer Hasbrouck, the Apostle of Dress Reform, who lectured some time ago in New York, is building a curiosity of architecture in the shape of a "mud house" in Middletown, N. Y., which is designed to solve the problem how each can be his own landlord. The house, which is pleasantly located on a hill near the village, is octagonal, and resembles brown stone at a little distance, and is certainly an improvement on the square, formal looking, red or yellow houses so much the fashion in country towns. The materials are stone and rough mortar—cheap enough certainly.

☞ A beautiful unknown girl, poorly clad, but with soft hands, black hair and long dark eyelashes, threw herself before the Tuesday morning train on the Germantown Railroad, near Philadelphia, and was nearly cut in two; the back of her head was torn off, and every rag of her clothing. The train was stopped, and the relics were gathered together at the road-side, to the horror of all who saw them. The poor suicide had been seen about the spot, waiting for a chance to "rush into eternity."

☞ The Governor election in Missouri is still undecided. The St. Louis Republican puts Stewart (pro-slavery) 9 votes ahead; and the Democrat, Rollins (emancipationist) 329, with four counties to hear from. The Democrat says:

We still adhere to the belief that the reported majorities for Stewart in Dent, Bates, Texas, Wayne, and one or two others, will be largely reduced, and still incline to the belief that Major Rollins has been truly and rightfully elected Governor of Missouri, and that a correct abstract of the vote will show such to be the case.

PEARLS IN SPENCER.—About fifty of the inhabitants of Spencer, Mass., have spent three days in searching a small brook near the railroad depot for pearls. A great many clams have been opened, a good deal of whiskey drank, and about twenty pearls found, the value of which can be estimated from the fact that the postmaster of that town offered a cent a piece for a few of the *best* of them.

☞ The steamship Tennessee, recently arrived at New York, brought home 260 fillibusters from Walker's Nicaraguan army. They mostly belong to the western States, are emaciated, ragged and forlorn, and all denounce Walker as a miserable tyrant, while they speak well of the Costa Ricans who befriended them and sent them home. $268 (about a dollar to a man) was collected in New York for their relief.

THE TEXAS ELECTION.—The Galveston Civilian of the 13th gives full returns from 48 counties in Texas, showing Runnels, the Democratic candidate for Governor, 4,500 ahead. The Galveston News of the 11th inst., says the majority for Runnels will be 9,000 or 10,000, and that the Legislature will be more largely Democratic than ever before.

☞ An editor who has just started a new paper, out West (of course,) advertises that he has secured the services of that well-known member of the press, Constant Reader, Esq., who will in future publish his valuable communications in said editor's paper only. We wonder Bonner, of the New York Ledger, hadn't got him before.

☞ The "Pond Island Light," at the mouth of the Kennebec river, consumes but a single pint of oil in a night! A new and valuable improvement magnifies the slight flame so that it is seen by the mariner at a great distance.

"COSTAR," THE GREAT RAT, ROACH, &c., EXTERMINATOR, 388 Broadway, N. Y., has commenced the advertising campaign again in our columns. See Advertisement and Special Notice in to-day's paper.

☞ Parts 33 and 34 of Spencer's History of the United States are received, and contain for illustrations the Death of De Kalb at the Battle of Camden, and Arnold persuading Andre to conceal the papers in his boot.

☞ The ladies of Exeter will give another Promenade Concert, for the benefit of the Cornet Band, of that village, at the Town Hall, on Tuesday evening next. The Band will appear in new uniform.

THE LAST WILLISISM.—N. P. Willis describes a sheet of blotting paper from Washington Irving's desk as "the door mat on which the thoughts of Irving's last book had wiped their sandals as they went in."

W. H. Branch, of Lawrence, was attacked by a cow on Monday morning, and before she left him, his clothing was nearly stripped from him, and several of his limbs were badly broken.

MILLS STOPPED.—The number of cotton looms that have been stopped in New England, in consequence of the high price of cotton and the low price of goods, is about six thousand, and orders have been given to stop many more as fast as the yarn runs out. We heard, yesterday, of two large mills that will run only till the cotton now in process of manufacture is exhausted. This is the only remedy. We talk of the short supply of cotton. The evil is not there; it is the over supply of cotton machinery. The looms now in operation are not only too many for the supply of cotton—they are too many for the demand for cotton goods at anything like the prices which alone at the present cost of the raw material, can return a new dollar for an old one. In England thirty thousand looms have been stopped, and prices have quickly responded to this judicious curtailment of production.—*Providence Jour.*

EXCITEMENT AMONG THE COLORED PEOPLE. On Sunday evening, there was great excitement among our colored citizens at the West End of Boston, Mass. It appears that a Mr. Stevens, of Norfolk, Va., whose business it is to look up his "property," and to take it whenever and wherever he finds it, went with some of his southern brethren to Rev. Mr. Grimes' church to get his spiritual strength renewed, and to catch any stray lambs which may have wandered from his flock. While looking around, he appears to have "spotted" two, and to have been imprudent enough to say so.

It was soon on the wind that a slave catcher was among them. He, too, had been "spotted." By the time he had got a few rods from the church he was waited upon by a few members of the vigilance committee. What passed between them has not come to our knowledge, but it is reported that though the committee waited on him he did not wait on them, but found it convenient to leave, and very suddenly too.—*Traveller.*

MRS. PARTINGTON has plunged lately into agriculture, and has had her arbor "desecrated" with all manner of "flagrant" and "ambiguous" plants, including a grape vine, the gift of her friend Curtis.

She went out a few mornings ago, scratching about her roots like a venerable hen, with a black bonnet on her head, when her neighbor, Mr. Vinter, who deals largely in wines, reached his long neck over the gate. "Good crop of grapes, ma'm?" said he. "'Twill be pretty burdensome," she replied, looking up to where the seven bunches hung, which had been left after Ike made himself sick by eating the others green. "Any ordium upon the vine?" he asked. "I don't know as regards the odium upon my vine," replied she, "but I am not going to make any wine that will be likely to have the odium that some wine has that is sold for good, that never saw a grape in its life." She wondered why he turned away so suddenly, but supposed he had an errand round the corner. The black bonnet hovered again over the yellow flowers, as a maternal biddy might over a flock of young ducks, and the old case-knife was passed vigorously among the roots. "Ah, there is health in it," said Mrs. Partington, "depend upon it, for since I've been soiling I have moved a structure from my chest, and feel like some body else." Bless her, what an example hers is to follow.—*Sat. Eve. Gaz.*

POLICE COURT, LOWELL.—On Friday morning, Owen Mahon was convicted on two counts for selling liquor to John Murtle, and sentenced as usual. He appealed. Owen's son Joseph, a boy of ten, was arraigned for likewise selling to Murtle, and though convicted, he was ordered to come in on the 20th of September for sentence. It will require pretty good behavior on the part of the boy and the father to save them from the full penalty of the law.—*Lowell News.*

ST. LOUIS, August 21.—A letter in the Republican dated Fort Kearney, 7th inst., says that the fifth and tenth regiments of infantry, and Phelps' Battery has arrived there. Capt. Van Vliet had gone in advance on important business. The troops were much dissatisfied, and the two infantry regiments had lost nearly 500 men by desertions.

CHICAGO, Aug. 20.—S. Bronson, Jr., formerly Cashier of the Merchants and Mechanics Bank, in this city, was arrested at St. Pauls, Minnesota, on Sunday, at the instance of Mr. Woodworth, the President, on the charge of larceny to the amount of $50,000 of the funds of the Bank.

NOT BOUGHT BUT SOLD.—The Buffalo Express tells a good story of a Quaker who was charged the exorbitant sum of seventeen dollars for a horse and buggy for a short drive, and upon being presented with the bill, remarked—"Thou mistakest me. I do not wish to purchase thy establishment, but only to hire it."

☞ The editor of the Wolfborough (N. H.) Pioneer has been presented with a mess of green beans, forty of which measured as many feet. We take it, that the chap who raised them, "knows beans."

SUSPENDED.—It is reported that Blanchard, Sherman & Co., heavy commission merchants and ship owners, have suspended payment, consequent upon the failure of E. C. Bates & Co. Liabilities said to be $500,000, assets about $250,000.—*Boston Ledger.*

☞ Why is it that it is only *Southern* gentlemen who get into fights with colored waiters at hotels and watering places? We never heard of Northern men having any difficulty with them.—*Port. Trans.*

☞ The Concord Statesman of Saturday, says:

Mr. E. H. Rollins, apothecary and druggist, of this city, is made to appear in a position not warranted by facts,—he having been arraigned, on the complaint of Timothy P. Flanders, for the illegal sale of spirituous liquors. Mr. Rollins brought on such conclusive rebutting testimony that Mr. Justice Pillsbury dismissed the complaint. The men in the service of Mr. Rollins testified that their orders, since the passage of the law for the suppression of intemperance, had invariably been to sell no kind of liquor to any person.

A FAITHFUL AGENT and a true friend to the press, is V. B. Palmer, Esq., the great and original Newspaper Advertising Agent—who has been tried through a long series of years, and never found wanting, in promptness or fidelity. Without wishing to say a word in disparagement of any other responsible competitor in this line; we take pleasure, after several years' business with both Mr. Palmer's Boston and New York Agencies, in expressing the most complete approbation of his manner of doing up the Advertising business—in which he was the pioneer in this country. May his success be equal to his merits.

NEW YORK, Aug. 22.—About 1 o'clock this morning, two men named Henry J. Wagstaff and J. S. Nims had an altercation at a public house on Broadway, which terminated by Nims shooting his antagonist with a pistol. The ball entered the mouth of Wagstaff, killing him almost instantly. The quarrel was of long standing, and originated in some business transaction. Nims was some time since Secretary of the Law Library, and recently figured in amateur theatricals. Wagstaff was a lawyer by profession.

MILWAUKIE, WIS., August 22.—A terrible hurricane swept over Woodland, in this state, last evening, destroying every house in the village. The telegraph lines were prostrated, and railroad tracks badly damaged.

Mr. Fox, the Station Agent, was run over and instantly killed by a train of freight cars which the wind had set in motion.

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—The Providence (R. I.) Advertiser says; "Dr. Coggswell's reputation as a physician and chemist is sufficient guarantee of the genuineness of the preparation which he now offers to the afflicted."

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

☞ Among the many preparations now in use for restoring, preserving, and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the United States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer to the innumerable certificates which have been sent by parties who have been benefitted by it, and who feel happy in giving testimony to its wonderful effects produced on them.—[Cincinnati Sun, Nov. 1st., 1854.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

THE COMMODORE'S CLERK.

We have not, for a long time, seen a more pitiful article than one which just now falls under our eye in a neighboring paper, in which a foolish attack is made on the new Commodore, for appointing a clerk on the Navy Yard to suit himself;—on the clerk, who is absent, for being an independent man; and on "the abolition papers of this city," for saying something which really they have not said!

About ten days ago, it was within our knowledge that the post of Commodore's clerk on the Navy Yard at this station, had been offered to Mr. Christie, in the most honorable and proper manner, by the Commandant, Com. Pope, and under the recommendation of other high officers, who know his accuracy, skill, and faithfulness, in the duties of that clerkship which he has filled so long and so well.

We happened to mention it in the hearing of an editor of the Journal, who, in his paper of the 15th, stated the fact, without note or comment.

We stated the same fact on Monday, the 17th, and added:—

His acceptance of the office, and consequent return to become one of our citizens, would be a subject of congratulation to a very large circle of friends and the public generally.

The Ballot of the 20th repeated the statement, and added this remark:—

We should rejoice at the return among us of our friend Christie, than whom Portsmouth never had a more upright and honorable citizen.

These little notes seem to us quite natural, true, and harmless. But the N. H. Gazette of the 22d reads thus:

It is said that John Christie, Esq., has been invited to resume his position at this Navy Yard; and that he has accepted the office and is on his way home from Kansas, where he has been a squatter for a few months; and the *abolition* papers of *this city* speak of the *universal satisfaction* which this appointment will give.

Now we would respectfully inquire what papers have said this? There are in this city only five papers, viz: the Gazette, Journal, Ballot, Chronicle & Phenix, and Daily Chronicle The Gazette only, of all these, has said anything about *universal satisfaction*. *Ergo*, the Gazette is an "abolition paper," or the writer therein tells a lie, or else he makes a dreadful blunder first, and then comments upon the blundering assertion as if somebody else had made it!

The reader will please to look back upon the extracts from the other papers. The editor of the Journal makes no remark at all. The editor of the Ballot says, "*we* should rejoice at his return." And the Chronicle, daily and weekly, said his acceptance and return would be a subject of *congratulation* to a very large circle of *friends*, and the public *generally*. All this is strictly true: nobody will deny it.

We said not one word about *universal* satisfaction, or about *satisfaction* at all.—But if we had, this poor grumbler's bill of exceptions would only prove that there was one man in the universe meaner than anything we had ever thought of.

Mr. Christie has given perfect satisfaction to a long line of Commandants, ending with the late Commodore Newton, who expresses his satisfaction in his letter of dismission, and adds, that *no other consideration* than the desire to have his son with him would have induced the step.

This reason, being now at an end, the son will shortly resign his clerkship, and with the bereaved family return to their former home. Com. Pope writes for a first-rate clerk,—and knowing Mr. C.'s long service and accurate performance of duty, with his high reputation among the officers of the navy, he has offered to reinstate Mr. Christie at his old post. We trust he will accept, and we know, if he does, he will do his duty like a man, and like a workman who need not be ashamed.

The writer of the bill of exceptions says:

Neither have we any desire to interfere in a matter which so exclusively pertains to the Commandant, who is doubtless the best judge of his own duties, and abundantly able to manage his own business.

Exactly so, it is *the Commodore's business*, and the Clerk is strictly the Commodore's appointee. It is as desirable to have the Clerk of the Commodore well versed in the records and routine of the yard, as it is to have one officer in each Custom House, who knows how the business should be done there, or to have a town clerk or Register of Deeds who has some experience, and knows what to do.

The Ballot speaks of Mr. C. as a friend, "than whom Portsmouth never had a more upright and honorable citizen,"—and the writer of the pitiful article in the Gazette, in the midst of his gall and bitterness, says, truly:—

"Against Mr. Christie personally, we have nothing to say. He is a good citizen and a worthy man."

Exactly so, and he is also by a great deal, the best qualified clerk for that place, to be found among us,—literally knowing every rope in the ship.

☞ The Portsmouth Cornet Band gave the first of their series of Public Concerts, on a staging near the centre of Market Square, on Friday evening last, between 8 and 10 o'clock. The audience was large, and apparently appreciative; and the performances of the Band were certainly highly creditable to so new an association, which has labored under such disadvantages.—Their instruments are as good as the best; and they improve in the use of them, every time we hear them.

If we were to make any suggestion, it would be that the tenor instruments "put in a little stiffer," to correspond better with the strong base—which is none *too* strong, though.

Their next concert will take place tomorrow (Tuesday) evening.

THE BAND.—*Messrs. Editors*:—We listened with much pleasure to the music furnished by the Portsmouth Cornet Band, on Friday evening; and were much pleased to notice the feeling manifested by the people gathered on the occasion. It is is well to draw out the masses in a social manner by the best means that can be employed. I have no doubt all of those tax-payers on Market Square on that evening, are perfectly satisfied to pay their proportion towards liquidating the debt of the Band, and thereby encouraging them to blow quite free on that score. But at the same time I would ask, would it not be as well, on future occasions, for the performers to give the people some popular American airs, interspersed with a few of the Negro melodies? in fact, something the citizens can all understand? Opera music answers very well once in a while; but is rather a Dutch language for the people generally. Hail Columbia and Yankee Doodle can be understood by all; while Old Dog Tray and Oh! Susannah will bring down a house at any time—in fact amuse as well as entertain. Yours,

THE FIREMEN.—Niagara Engine Co. No. 1, of Lake Village, Meredith, will visit Portsmouth on Friday next, as the guests of Atlantic Co. No. 6, who will give their friends a Dinner, and a grand complimentary Ball at Congress Hall.

The Sixes never do things by halves; and will doubtless on this, as on all previous occasions, adhere to their motto, "Deeds—not words."

☞ The Gazette—which of course is posted up in the doings of the Fire-(water) Men, states that "Massabesic Engine Co. No. 4, of Manchester, intend making a visit east as far as Portsmouth about the middle of September, and may make Portsmouth one of their stopping places. We certainly hope so, and doubt not that our fire department would greet their visitors, should they come, with the proverbial cordiality. The Massabesic boys sport a fine uniform and are a generous and whole-souled set of fellows, of the reciprocating turn of mind. The Manchester Cornet Band will accompany them."

Continued from the First Page.

Sec. 6. These courts shall not give their opinion on the merits of the case unless specially required, but their proceedings shall be signed by the president and judge-advocate and transmitted to the commander-in-chief.

Sec. 7. They shall have the same powers in relation to the summoning and examination of witnesses, and the preservation of order, as courts martial, and shall be entitled to the same fees for their services, to be allowed and paid in the same manner.

OF VOLUNTEER COMPANIES.

Section 1. Volunteer companies may be raised in each town or city, provided that no town or city shall be entitled to raise more companies than they are entitled to send representatives, and that no company shall consist of less than thirty-two rank and file.

Sec. 2. Such companies must tender their services to the commander-in-chief, who may accept or reject them at his discretion.

Sec. 3. Upon such company's exhibiting to the selectmen of any town or the city council of any city, a certificate that their services have been accepted, it shall be the duty of the selectmen or city council to make application to the proper authorities for arms sufficient for the company, and upon receiving them, shall furnish them to the company, upon security being given to said town or city for their safe keeping.

Sec. 4. Every volunteer company shall be uniformed in the manner prescribed by the field officers of the regiment to which it may be attached; provided such uniform shall not be changed without the consent of a majority of said company.

Sec. 5. Every volunteer company shall parade and drill annually on the third Tuesday of May in each year.

Sec. 6. Any company which shall be reduced below one-half the number of which it should by law consist, may be disbanded by the field officers of the regiment.

Sec. 7. No enlistment of a company shall be valid until a certified copy of the enlistment shall be deposited with the clerks of the towns or cities in which they are organized, nor until such persons enlisting shall be uniformed, armed and equipped to do duty in the company in which they enlist.

Sec. 8. Every person enlisting in any volunteer company shall be liable to perform military duty therein five years, unless he shall be discharged or shall arrive at the age of forty years.

Sec. 9. Every company shall regulary consist of sixty-four.

Sec. 10. Every officer, non-commissioned officer, musician and private, who shall fully and personally perform all the duties required by law, shall receive annually from the selectmen of the town, or the mayor and aldermen of the city in which he resides, the sum of one dollar per day for his services: *Provided*, that in case he is a member of a volunteer company, he shall be entitled to draw no pay for services or active duty from any city or town in this State, unless the city, by a majority vote of its city council, or the town by a majority vote at its annual town meeting or at a meeting duly warned and held for the purpose, shall have approved of the formation of said volunteer company, either before or after such formation; and a certificate of such vote by the clerk of the city, or the town clerk or selectmen, shall be the records of the city or town, shall have accompanied the application to the commander-in-chief for the acceptance of said company, and for his order for the organization of the same

Sec. 11. No person shall be entitled to such payment unless he shall present to the selectmen or mayor and aldermen, satisfactory evidence under oath of the commanding officer of the company, regiment or brigade to which he belongs, that he has so performed his duty.

Sec. 12. Every captain shall annually, after the annual muster, if there be any, make a list of all the persons who have faithfully and properly performed all the duties in his company, and certify under oath that the said list contains names of such persons and no others, and return the same to the selectmen of the towns, or the mayor and aldermen of the cities in which any of such persons may reside.

Sec. 13. Every captain shall, upon request, certify under oath the several times which any person who has enlisted or removed into any other company, shall have faithfully performed his duty under his orders; and if the person has performed all the duties required by law for the preceding year, although said duty may have been performed in different companies, such person shall be entitled to receive one dollar per day for his services

OF REGIMENTS.

Section 1. The commander-in-chief, with advice and consent of the adjutant general and of the major or brigadier general of the brigade and division within which the company is located, may organize, as occasion and the public good requires, regiments, from volunteer companies in each brigade, and attach any company, that may be found thereafter in that brigade, to such regiment as they may see fit.

Sec. 2. Every regiment so organized shall parade or encamp at such time, not exceeding three days, in the month of September or October in each year, as may be ordered by the general of the brigade, and at such place as may be selected by the colonel of the regiment.

Sec. 3. Instead of the divisions, brigades and regiments as now organized, there shall be three divisions, each division to be commanded by a major general as follows, to wit:—

The first division to consist of the counties of Rockingham, Strafford, Belknap and Carroll.

The second division to consist of the counties of Hillsborough and Merrimack.

The third division to consist of the counties of Cheshire, Sullivan, Grafton and Coos.

Sec. 4. Each division shall contain two brigades, each brigade, commanded by a brigadier general, as follows, to wit:—

The first brigade to consist of the county of Rockingham.

The second brigade to consist of the counties of Belknap, Carroll and Strafford.

The third brigade to consist of the county of Hillsborough.

The fourth brigade to consist of the county of Merrimack.

The fifth brigade to consist of the counties of Cheshire and Sullivan.

The sixth brigade to consist of the counties of Grafton and Coos.

OF THE INCORPORATION OF MILITARY COMPANIES.

Section 1. Any company of cavalry, artillery, grenadiers, light infantry or riflemen duly organized according to law, may assume a name and style by which such company may be known and distinguished in law, give notice thereof in writing to the adjutant general, and give public notice thereof by publishing the same in some newspaper if any in the county, otherwise in an adjoining county, and shall then become a body politic and corporate.

Sec. 2. Such incorporated companies shall have the powers and be subject to the liabilities of similiar corporations, and may hold real and personal estate to an amount not exceeding two thousand dollars.

Sec. 3. They may make such by-laws and regulations relative to the establishment, uniform and equipment of the company, consistent with the laws, as they may think proper; but no taxes or assessments shall be raised but by consent of two-thirds of the members.

Sec. 4. The legislature may at any time abolish or modify such corporations, as they may deem the public interest to require.

Sec. 5. All acts, and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Approved, June 27, 1857.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & CO., No. 39 Fayette st., or box No. 45, ja 3 1y Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No ticket cannot unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the brain. Prizes vary from $50 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

H. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered in this or any other place. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*;—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

THE MARCY TESTIMONIAL.—The testimonial gotten up by the merchants of New York, and which it was intended to have presented to the late Wm. L. Marcy, has just been concluded. It consists of a magnificent tea set of silver, and includes every article that goes to furnish a table. Even the dish covers are of silver, and the salver is one of the largest and costliest ever made in this country. The whole set will cost $7000. It will be presented to the family of Mr. Marcy.

SIX HORSES KILLED BY LIGHTNING.—Jonathan Groves, of White Clay Creek, Delaware, lost six valuable horses, worth at least $1000, on Monday last. They were laying under a tree in the field, when it was struck by lightning, and were all instantly killed. Three of them were valued at $200 each. The loss is quite a heavy one to Mr. Groves, who is an industrious and enterprising farmer, and by this accident is left without a horse.

☞ On Wednesday, while Mr. R. Fellows, of East Weare, N. H., was at dinner, a man entered his store through a window, and broke open a trunk containing $500: but being alarmed, rushed out, scattering the money on the floor as he went, and finally escaped with $15.

CHICAGO, Aug. 21.—J. O. Brayman, editor of the Democrat, was arrested this morning for robbing the Post Office drawer of money letters, which were found in his possession. He waived an examination, and was held to bail in $9000.

We understand that Ricketson, who has been in Jail for some time, for complicity in the Miss Post abortion-murder case, was released on bail, Thursday morning, and is now at large, and probably will be far distant at the sitting of the court. His bail was $2,000.—*Newburyport Herald.*

A visitor going into a free school, during the half yearly examination, noticed two fine looking boys, one of whom had taken the first prize, and the other the second.—Said the teacher:—"The boy who took the first prize is the son of the man who saws my wood; the boy who took the second is the son of the Governor of our State.

A letter in the Picayune, dated Choctaw Co., Miss., says that throughout that region there would not be over two-thirds the average cotton crop. Oats and corn were abundant, and of wheat there would be a fine harvest.

Mr. Banks paid his second visit to the U. S. Armory at Springfield on Thursday; the first time he went was to get work there as a mechanic, in which he failed.—He has since worked for the government in a higher capacity.

There are three colored students in the medical school at Pittsfield.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils, as all cases painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York city, can have them sent to their respective addresses by return of mail.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a pannacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit, reduces the exciting disease—wherever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the expensive and injurious use of *Paregoric*, a remedy sure to be followed by a "close of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct dangerous and sour stomachs, relieve pain and give tone, energy and strength to the whole system.
The general line been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

TUESDAY, AUGUST 25. 1857.

A PILOT LOST.

The Newburyport Herald says, We are called to the most melancholy duty of announcing the loss of Capt. Michael Stevens, Jr., the youngest branch pilot of our harbor, who died on Saturday, in the performance of his duties. The pilot boat America, to which he and four other pilots were attached, left the harbor on Friday night, with Michael Stevens, Jr., William J. Lunt, and Robert Rogers—the first two pilots, the last a passenger—and at two o'clock on Saturday afternoon, when she was lying ten miles east of Cape Ann and some twenty-five miles from our bar, Mr. Stevens was called for his watch, while the other two went below for sleep.

What transpired in the interval is not known; but about two hours after, those below were awakened by the position of the boat and the noise of the sails, and hurried upon deck to find that she had been jibed, and Mr. Stevens was gone, and also a spy-glass was missing. How or when he was lost will ever be a matter of conjecture. But it is quite probable that he was standing to look after some sail and suddenly swept overboard by the main boom. He might have been stunned by the blow, or he might not; he might have sunk at once in the water, or, an expert swimmer as he was, he might have floated long upon the surface, only to see the boat going further and further from him, and having no power to alarm his companions to rescue him from a watery grave. All that we know—all that will ever be known, till the ocean shall give up its dead—is that the sturdy man and brave, the useful citizen and valued public officer, had disappeared in the waves.

Capt. Stevens was some thirty-five years of age. For three years he had held a commission, and for eight years previous had been connected with the same pilots as boat-keeper. His character and habits fitted him for his arduous, responsible and dangerous duties. He was in the vigor of manhood, with strong arms, cool mind, clear head, and an eagle and vigilant eye; and when his age is considered, no one of the pilots could have worse been spared by the public. By his associates he was valued, by his friends beloved; and a widow, with four young children, and an extensive family circle will lament his loss, long and bitterly.

The wife of Capt. Stevens was a Miss Card of Newcastle; she was on a visit to her mother at that place, where, on Sunday, a messenger from Newburyport brought the sad intelligence.

The Herald remarks:

We are reminded, by this event of the labors, exposures, and previous disasters of the Newburyport pilots. In about sixty years three pilots have been lost thus on duty. The first was Capt. Joseph Lunt, who perished outside of the bar, with one of his nephews, John Colby, and three other persons, whose names do not occur to us. The second was Capt. Benjamin Lunt, in 1833, whose boat swamped on the bar; and he perished in a few minutes after being rescued from the water and landed on Plum Island. At that time a crew of his, Enoch Small, was drowned. Others of the pilots have had narrow escapes. Their boats have been upset, they have been washed overboard, and in many ways endangered. It is but a few years since Capts. Wm. T. Colby, and Jere. Lunt, the latter since retired, were rescued from their sinking boat, just in time to preserve life; and only last year, Capt. Mayo Gerrish was washed out of his boat in the night upon the bar, and injured so as to disable him for weeks, barely and accidentally catching the last rope that he passed, and which alone could save him.

There is not one of the men now in service, who has not risked his life time and again, and necessarily, in the performance of his labors. When we think that their labors are continuous, night and day, in fair weather and storms, in summer and and winter; that oftentimes it is the most exciting, the most arduous, and the most responsible; that they breast wind and waves till they are as heedless of them as the sea birds: and that in addition to the the perils from the elements, they do not refuse to board and remain by their vessels, when full of contagious diseases—by which means a few years ago, Capt. Tristram Lunt sacrificed his life—we are indeed surprised that anybody, for a mere sustenance afforded, will venture upon such a life. In our whole community there is no class working so hard, risking so much, and so poorly paid, as the pilots. When one of them, therefore, devoted to his calling falls or dies, it is to be regarded as a public calamity, and he leaves behind him claims to be honored in his memory, and to be regarded in the interests of his family.

The Sequel.—Strange as it may seem, the missing man is alive and well. The dead is alive again,—the lost is found.

Capt. Stevens, the lost pilot, passed through this city on Monday forenoon, in the train from Portland to Newburyport. He was in the water a long time, supposed about two hours and a half, when he was picked up by a pleasure boat of Portland, which was providentially passing, and carried to that port,—from which he departed in the earliest train for his home. The deliverance is most remarkable.

Capt. Stevens's return puts us in mind of a similar occurrence which happened about 40 years ago, to another Newburyport sailor, who was on board a vessel trading to the West Indies. He was lost overboard in a gale; and either with him or after him went a hencoop and other articles.—The crew on board did what they could to find him, but gave him up as drowned, and reported his loss at home. His mother, sister, and another young woman, went into mourning for him as dead. When the black clothes had been worn nearly a year, the young man suddenly came home, and the garments of praise went on in their stead. He had found the hencoop, and being drifted by the storm away from his vessel, had landed, after a day or two of suffering, on a little island rock, out of the track of vessels, but where there was fresh water and some tropical fruits and roots on which he subsisted, living, Robinson Crusoe like, until finally taken off by a vessel passing that way.

We do not remember his name; and may not have given every item of the story—but its substance is as above stated.

Why Portland Grows.—Among other enterprises of the Portland people, they are building a new Railroad, the York & Cumberland, which we believe has its terminations in Portland and Great Falls.

Hon. John M. Wood, the great Railroad contractor and Member of Congress, has addressed the citizens of Portland and others, over his own name, in the columns of his paper, the Portland Advertiser, in behalf of this Railroad. He asks the citizens of Portland to unite in a subscription of $100,000 to the Bonds of the company.

In reply, the State of Maine newspaper doubts that this sum will complete the road; but "believes that a *gratuity* of $100,000 would be cheerfully made by the citizens of Portland to secure this result."

The distance from Portland to Great Falls is rising 50 miles. This line is completed to Saco river, some 18 or 20 miles, leaving 30 miles more of the road to be built.

The Great Falls Advertiser says, "some five or six miles of the road is nearly ready for the rails on the westerly section, leaving only about 25 miles of the road to be built, which we hope to see speedily accomplished."

So Portland is to have the country trade from Great Falls and above; which Portsmouth ought to have built a direct road to long ago.

☞ In Coos county, N. H., embracing twenty-six towns and about 10,000 inhabitants, there are six Congregational churches, viz.; one each in Shelburne, Whitefield, Dalton, Lancaster, Colebrook and Stewartson, and only two congregational ministers. In all the six churches are a little short of two hundred members. That at Shelburne is reduced to three females. The number in Whitefield is not known, as no report from that church has been made for years, and for years it has had no preaching. Not a single Congregational church in the country can sustain preaching independently of missionary aid. It would be cause for devout gratitude, says the Christian Mirror, were other evangelical denominations in the county in a healthful, pecuniary and religious state; but they are all weaker than this denomination. A missionary in that region who writes to the Congregational Journal, says that morality is proportionably low. This depressed condition of religion and morality cannot probably be attributed to "political preaching." So says the Traveller.

The Teeth.—At the Dental Convention, in session last week at Boston, some of the dentists asserted that the main, if not the sole cause, of defective teeth was the use of saleratus and cream of tartar in the manufacture of bread, and Dr. Baker fully agreed with the facts which they stated, and gave the results of some experiments which he had made by soaking sound teeth in a solution of saleratus. The teeth were destroyed in fourteen days. Mr. Spaulding, of St. Louis did not believe that alkali injured teeth, but acknowledged that saleratus did. Saleratus in his opinion was not alkali. Dr. Kendrick, of New Orleans, considered the great means of keeping the teeth healthy was to keep them clean.—*Exchange.*

An Apt Comparison.—Rev. James Freeman Clarke, in a letter to the Boston Courier, compares the Union savers of that establishment to the timid old gentleman in Plautus, who cried out—"I am killed, I am dead, I am murdered! Where shall I run? Where shan't I run? Catch him! Hold him! Who will catch? Whom will he catch? I don't know. I see nothing."

☞ On Saturday afternoon, there was an explosion of four of Dupont's Powder Mills, at Wilmington, Del. Wm. Dupont and two others, who were injured by the explosion, died on Sunday. One other person is mortally, and two considerably injured.

Which has the best of it?—One of our female writers says, "though a few American ladies live in idleness, or worse than idleness, the majority work themselves into early graves, giving men an opportunity to try two or three in the course of their own vigorous lives." But the recent census of the State of New York gives 1,706,293 males and 1,714,653 females. The widowers number 35,396; the widows 95,182.—Nearly an equal number of males and females, but sixty thousand more widows than widowers! An exchange paper says—"This great disparity proves most conclusively and strikingly, after the manner of the fable, that, whatever amusement marriage may afford women, it is death to the men!"

Not very clearly proved. Suppose for a moment (what is probably the fact,) that more widowers marry a second time, than widows,—and then the above fact proves nothing of the kind.

Sharp Practice at Niagara Falls.—The Niagara Falls Times says that Mr. Webster, of the American Hotel, at Niagara city, was formerly a resident of her Britannic Majesty's Province of Canada, but moved suddenly into the United States, leaving his creditors to whistle for $12,000. And that wasn't all. He was in the habit of visiting Clifton on the Sabbath day, at which time he could not be arrested. Recently, a reward of $2000 was offered to any person who would place Mr. W. in the hands of the Canadian authorities. On Sunday last, Mr. W. visited Clifton as usual, when Mr. Peck evinced a great interest in that gentleman's welfare, by treating him liberally till he became intoxicated, when it was a very easy matter to get up a dispute with him, which resulted in a fight, and Mr. Webster was arrested for disturbing the peace. Of course, the only object of the whole affair was to have him detained until the following morning, when he was again arrested as an absconding debtor.

☞ A homicide in New York, on Saturday, occurred at the Shaw House on Broadway. Theodore S. Nyms, a young man 25 years of age, and generally considered of peaceable disposition, was requested to drink by Joseph H. Wagstaff, a powerful and quarrelsome man. He declined, when Wagstaff,—who appeared to have a previous grudge—followed him across the room, and struck him several severe blows. Nyms, finding retreat out of the question, drew a revolver, and fired twice, killing his assailant on the spot.—Nyms was shortly after arrested, he making no effort to escape. At the inquest on Saturday, the Coroner charged the jury that the case was clearly one of self-defence, and immediately discharged the prisoner. The Shaw House, we think, is not a temperance house.

Sentenced. — The Richmond Inquirer says:

About 6 o'clock Wednesday afternoon, the trial of the six negro men, Ben, Tom, George, Moore, Edmund and Robert, slaves of Mr. Wm. Boulware, charged with assaulting, with intent to kill, their overseer, Mr. John H. Dodd, on the 27th of July last, was brought to a close before the County Court of Henrico county, after occupying six days. They found the prisoners guilty. Ben and Tom were then sentenced to be hung on the 25th of September next, and George, Robert, Moore and Edmund, because of their youth, were sentenced to transportation beyond the limits of the United States.

Perhaps they will send them to Canada.

St. Nicholas Hotel.—The New York Express says that the entry clerk at the St. Nicholas, named Lawler, has been arrested for stealing, and other parties are suspected. He admits that he has purloined $8,000.

☞ Mr. John Carmichael, one of the brakemen on the Boston and Lowell and Nashua and Lowell Railroads, who keeps hens about the car house in Boston, says that a few days since, when the evening passenger train arrived at Lowell, on examination to see if the wheels, axles, &c., were in order, these hens were found roosting upon the truck frame of one of the cars, having gone to roost in Boston, and maintained their position till they arrived in Lowell.

A Night of Horrors.—The Western bound passenger train on the Terre Haute, Alton and St. Louis Railroad, broke through a bridge on Saturday evening last, near Bunker Hill, Ill., and Edward Warden, the fireman, was instantly killed. Mr. Wilcox, the engineer, and one or two others were badly hurt. The engine exploded and set fire to the train, but the flames were subdued. As if the heavens had conspired to add terror and death to the scene, a little girl, the daughter of Mr. Templer, was struck by lightning just after the explosion of the engine took place, and was immediately killed.

Jacob Boker, aged forty-seven, a native of Germany, but a resident in this country for ten years, all of which period, save a few days, he lived in Illinois, was examined in the Probate Court, Cincinnati, 20th inst., and pronounced insane. The exciting cause of the disease is supposed to be nostalgia or home-sickness. He was ordered to be sent to the Insane Asylum.

New Medical Salt; *A perfect substitute for the Lancet, Leeches and Blisters!*—"We place more confidence in the virtue of this Medicine than we ordinarily do in Patent Medicines, from the consideration of the plain, unvarnished statement of the proprietor, and the character he sustains wherever known."

SPECIAL NOTICES.

Children often suffer weeks from pain, teething, and nervous disease, when 25 cents would buy a bottle of the Carminative and cure it at once.

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. No family should be without these Powders. One, taken in the first stages of the disease will almost invariably check it. They are perfectly safe and effectual. For sale by J. H. Thacher and Wm. R. Preston. aug25 3w

Steamer Anglo-Saxon, Capt. McMasters, arrived at this port, this morning. She left Liverpool at 2 P. M. of the 12th inst.

The Atlantic Telegraph.—The Anglo-Saxon came too far north to fall in with the telegraph fleet, and reports thick weather and constant head winds. Owing to an accident on shore, the telegraph fleet did not sail from Valentia, until Friday evening.

The latest report from Valentia was on the 10th, 4 P. M. The work of laying the cable is going on as satisfactorily as its best friends could wish. About 300 miles have been laid, and the depth at which the cable is now being submerged is two miles. The signals from on board the Niagara are all that an electrician could desire. The steamers are heading west, with a moderately fair breeze, and the cable is running out at the rate of five miles an hour. Messages are being constantly received on shore.

Latest from the Niagara.—All well on board—moderately westerly wind. All are more and more trustful of complete success.

A spirited debate took place in Parliament in regard to Indian affairs. Lord Lord Palmerston stated that 30,000 troops were to be sent, and active recruiting was going on. Disraeli said that the campaign this year was lost.

The Emperor and Empress of France have returned to Paris.

John Bright has been returned to Parliament from Birmingham, without opposition

Lord John Russell, from the Parliamentary Select Committee, reported that Jews could be admitted as members of Parliament under the existing act for modification of oaths.

The schooner Jupiter, under American colors, was seized in the Bight of Benin, on the 15th of June, and condemned. She had 70 slaves on board, and many more were awaiting shipment on the beach.

Liverpool Cotton Market, firmer, but without material change in prices. The sales of the three days amount to 17,000 bales, the market closing with an upward tendency.

Liverpool Breadstuffs Market.—Breadstuffs are generally dull. Flour—The market is weak, but quotations remain unchanged. Wheat—Inferior has declined 2d. and 3d. per bushel, the market closing with a downward tendency. Corn—Quotations are barely maintained, and the market is dull. Wheat is quoted at 8s. a 8s. 4d. for red, 9s. 2d. a 9s. 8d. for white. Corn, yellow and mixed, 36s. 9d. a 37s.; white is nominally 45s.

The Liverpool Provision Market is unchanged.

LOCAL.

ACCIDENTS.—On Saturday last, a lad 16 years of age, residing in this city, in attempting to get on a large wagon, (which was going at the rate of eight miles an hour,) his hand slipped, and he fell beneath the cart, one wheel passing over his foot, injuring it considerably.

A week or two since, a young man while driving an ox-team through a field, by some means was knocked down, and the wheels passed over his legs, "using him up" for a few days.

Such instances are too common. They are generally the result of carelessness; although we don't know as this will apply in the above cases, but if persons would use a little more caution, many such accidents might be prevented, and many lives saved.

☞ The demolition of the buildings on the site of the new Post Office was concluded on Saturday by the destruction of the old stable formerly known as "Madam Knight's stable," but for many years attached to the Piscataqua House. Probably a more jolly time was had at the "raising" of the stable than at the "razeing" of it. At the former the liquor went down as the building went up, and at the latter, the building came down as they—we won't say "liquored up," for that expression might be at variance with truth, however prettily it would fill out the sentence.

☞ William T. Frye has been appointed Inspector at our Custom House, vice Jonathan C. Clement removed.

☞ Mr. Enoch Bartlett has been appointed Messenger of the Custom House in this city. Glad of it.

LYCEUMS.—The enquiry is often made, are there to be any Lyceums the next season. Can the Committees of the Mechanics' or the Mercantile Association answer the question? We hope one of the above Institutions will favor us with a good course of lectures the coming season.

ENQUIRER.

SUNDAY SCHOOL BOOK.—Messrs. J. Munroe & Co., Boston, have just published, and Mr. Shores of this city has received a neatly printed and bound "Hymn Book with Devotional Services—by A. P. Peabody."

The book contains a careful selection of 224 Hymns from authors of high repute, and 21 chapters of Devotional Service, compiled from the scriptures.

It is a reprint of a book used since 1840, in the large and well managed Sunday School of the South Parish.

☞ A meeting was held in the Park, New York, Friday evening, to raise more money for the returned fillibusters, and about $11 collected.

☞ The noted house, No. 31 Bond st., New York—the late residence of Mrs. Cunningham and her daughters, is now unoccupied. The furniture has been removed by the tradesmen who supplied it.

ESSEX COUNTY, MASS.—A Mrs. Flynn, an Irish woman, of Georgetown, whose husband is in the House of Correction for liquor selling, was arraigned in the Newburyport Police Court on Friday, pleaded guilty to two counts, for violation of the liquor law, and sentenced to the County House for fifty days.

The Haverhill Banner says the sale of rum in Newburyport is the greatest obstacle in the way of temperance in that town. They purchase here by the barrel, (says the Newburyport Herald,) and sell it in Haverhill from private houses.

We suppose very little of this house retailing is done by American citizens.

"BLACK REPUBLICANS" IN LOUISIANA.—Louisiana voted for Polk in 1844, (via Plaquemines,) for Pierce in 1852, and for Buchanan in 1856; and if these facts do not establish her democracy, and her attachment for the Union, what can do so? Yet, in spite of her democracy, she actually has a nest of "*Black* Republicans" in her bosom, and her democrats contend that those same "*Black* Republicans" are citizens of the United States; and is is well known that they *have* voted, and that not even a Northern custom house officer can be filled with a sterner attachment to the Union than these same dark visaged gentlemen! What is to become of our institutions? Colonel Hunter, the Buchanan candidate for State Treasurer of Louisiana actually contends that free negroes, in Rapides, have the *right* to vote; and when certain patriotic dolts, of the true Know Nothing stamp, undertook to prevent them from voting on a certain occasion, Sheriff Wise contended against it, and said that Col. Hunter and the *Democratic* Executive Committee of New Orleans had the right to arm them! It was not enough to allow them to vote—they must be allowed the inestimable privilege of fighting!

We see how it is. The Dred Scott decision must be revised, and made to read that negroes have no right to vote unless they shall vote the Democratic ticket, which is the only right they have which *men* are bound to respect.—*Traveller.*

E. H. Rollins' Apothecary store at Concord was searched on Saturday, for liquor, on complaint of Timothy P. Flanders, by Deputy Sheriff Colley and James Eastman, and a quantity of wine found. Mr. Rollins was then arrested on another complaint, charging him with selling intoxicating liquor to Timothy P. Flanders, on the 1st day of July, and his trial before the Police Court was to take place on Monday morning. Mr. Rollins is Speaker of the House.—*Nashua Gas.*

We learn that eight gallons of sherry and the same quantity of port, and one and a half barrels of alcohol, were found by Mr. Colley.—*Concord Democratic Standard, 22d.*

We have already mentioned Mr. Rollins' *discharge* from one of these complaints.—Alcohol may be found in large cabinet and shoe shops, and apothecaries' laboratories, for use—and the same thing in the above case, was probably true of the wines. We have some curiosity now, to know who Mr. Flanders is.

FILLIBUSTERS BUST.—An English paper says:

It is not so well known on this side the water how that marauding warrior came to come to fail in his Central American designs. A well-informed gentleman, in a letter now before me, and written ere Walker's embarkation was heard of, states, "Liquor has not only been the great curse of the natives, but has about ruined Walker's army and his prospects. He has lost more men by intemperance than by all his wars and other disasters. Men drink and die like dogs. I have some of his officers lie so drunk on the public Plaza, that they could neither get up nor get out of the way. Some of the soldiers got so drunk on the battle-field after the victory that they were murdered by pillaging revengeful natives. Lieut. E——was shot for killing, while drunk, an officer, and confessed to five murders, all committed while he was drunk. Lieut. W——, a graduate of West Point, fell overboard and was drowned while drunk. An army surgeon fell out of a second story window and broke his back while drunk. General Walker is temperate, but will never succeed while intemperance is allowed among his troops."

Strong drink, to which fillibusters have a fatal attachment, is itself the greatest fillibuster on the earth—fillibuster and buccaneer in one. As the fillibuster gives himself out to be the friend of those whom he invades and intends (as did Walker) to reduce to slavery, the intoxicating fluid beguiles that it may enslave, and enslaves that it may destroy. The liquor-traffic is therefore one huge fillibustering machine which law should have more respect for itself than to authorise or allow.

AYER'S Cathartic Pills,

(SUGAR COATED,)
ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians, Philanthropists, and their Effects, and Judge of their Virtues,
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, EZ. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than any thing else. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1853.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to clean the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been very grievously afflicted with blotches and pimples on her skin and in her hair. After one child was cured, she tried your Pills, and they have cured her, too. ASA MORGHINO.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church.

PULASKI HOTEL, SAVANNAH, GA., Jan. 4, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which could be relieved by opiates. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering to the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1854.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT FLIDDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as **a Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that seeks upon them unprepared. We have abundant proofs to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, for no perfect then until no human skill can master the incurable canker that fastened on the vitals, eats your life away. All know the dreadful fatality of lung diseases, and so they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who put on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100'000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the order received to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The subscribers upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SAMUEL SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st., oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that more **SUCCESS IS HERE SECURED AT THE PATENT OFFICE** than the subscriber; and as **SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY**, he would add that he has abundant reason to believe, and can prove, that no other agency of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I was employed in the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office as he had, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot confer a personal favor upon a deserving and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ascot 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged by the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless the regular course of nature, whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these ills. All cases of Spinal Affection, Lumbago, nervous and spinal affections in the back and limbs, Whiteness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any thing injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Price, one dollar a box. Where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. G. L. CHEESEMAN, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: suppurative INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of an awl dipped into a solution of it, to affect the entire system.

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The *Carminative* is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a dose of physic.

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

THE RECOVERY.

Man Picked up at Sea.—Capt. Dudley B. Davis, of the schooner Bloomer, which arrived at Portland, Sunday morning, from Salem, reports to us a remarkable incident of his voyage. On Saturday afternoon, while off the Isle of Shoals, about half way between Thatcher's Island and Boon Island, he passed a pilot boat, with her sails flapping in the wind, and no person appearing on board of her. Running close to her bows, he hailed her, but received no answer. Thinking the crew might be temporarily below, Capt. Davis continued on his course, and after running about a mile and a half, had his attention arrested by a call from some unseen source; and upon the call being repeated, he discovered a man in the water, apparently just able to keep his head above the surface. A rope was immediately thrown to him, a boat got over to his assistance, and he was taken on board the Bloomer in a completely exhausted condition. The drowning man proved to be Mr. Michael Stevens, of the pilot boat America, of Newburyport.

An hour and a half previous, while standing upon the stern of his pilot boat, with a spy glass in his hand, the other persons of the crew being at the time asleep below deck, a sudden movement of the boom had knocked him overboard, and unknown to his sleeping comrades, he was left struggling in the water. Being a good swimmer, he had been able to keep himself from drowning for an extraordinary length of time, but had little strength remaining when the Bloomer approached him. Being to the leeward, his feeble cries providentially reached Capt. Davis; but had he been to windward, he would have been unable to have made himself heard. While his strength lasted, he had used his exertions to swim after his boat, but finding the task a hopeless one, and his strength waning, he directed his energies to save himself from drowning. Every attention which his condition required was bestowed upon him by Capt. Davis, and when he reached Portland, he had completely recovered from the effects of his perilous adventure.—*Adv.*

The Newburyport Herald, of Tuesday morning, under the head of "the Pilot Recovered," tells the story and makes the comment as follows: The day of miracles is past—so it has, and let it go; but so long as Michael Stevens, Jr. shall live, we shall look upon him as one risen from the dead.

While we were all lamenting that the worthy man was gone, and the flags had drooped in mourning for the dead; while people were stopping each other at the corners of the streets, to talk over the matter, and some were raising a subscription for the benefit of his family—after we had published his obituary, and already had another paragraph written, calling for a material testimonial to aid the widow and orphans—as suddenly as though he had fallen from the heavens above, Capt. Stevens, yesterday at noon, appeared in the streets of Newburyport. Wildly the story goes about town; speedily he is rushed home to a family mourning his demise; instantly the flags from half mast are run hard up, and gladness is upon all faces, for the lost is found, and the dead is alive again.

With the tide of men moving to the southend, we go to greet him and learn his story. Almost immediately after his companions had retired below, as he was standing in the quarter, with the spy-glass to his eye, the main boom jibed over, striking him in the back of the neck and sweeping him into the sea. Instantly the boat filled away, and sailed off with a six knot breeze. He turned in pursuit; but one hundred yards swimming satisfied him that that was useless. He ballooed; but the noise of the sails, the rushing of the waters, and the intervening decks, shut off all communication.—There he was in the midst of the ocean; the boat receding, and no friendly sail in sight; it is not desirable to die, and he lay for some time upon the surface, when, by and by, five miles away, a sail appears standing towards him—it is his only hope; a faint hope, but the last. He did not swim to her, but reserved his strength, and when she was within two miles it was evident that she was going a long way to the windward. He then coolly—oh, how can a man be cool with the deep water below and nought but the deeper heavens above—coolly struck out to head her off. For three quarters of a mile or more, he swam for dear life; but now he begins to fail.

His legs are already cold and stiff, and he hangs down deep, the waves breaking to his mouth. Tis the last chance; he raises his head and shouts; and a woman—a woman's ears are always open to the cry of distress; God bless her—says, "I hear a voice." All hands look round. It is now or never; and as a last effort, he stretches himself above the waves and says "I am drowning!" They hear—they see; "ease off sheets! Man the boat!!" It is done as quick as said—quicker than written! "I shall drown," calls the brave, struggling, but sinking man, "before the boat can row!" The captain turns the craft full upon him, and minus of help gives the helm to his wife, while with a coil of rope, he stands in the bows. The rowers pull strong, but many yards are yet between them and the sinking man, when the vessel's prow nears the spot, and with the captain's call—"catch hold," the rope falls upon his head and is turned around the wrist. The rope is paid out, the sails shake in the wind; and in two minutes more—after he had been in the water *an hour and a half*—the captain and his wife pull him over the side, helpless, and for a long time, clouded and wandering of mind.

This yacht proved to be the Bloomer from Salem, Capt. Dudley Davis, who was taking his family on a trip to Portland, Me. He rendered Capt. Stevens all the assistance needed; landed him in Portland, on Sunday; and with the first train, that reached Newburyport, at noon on Monday, he was returned to his family—returned to startle, to gladden, to change! Great God, what a change! The father with three score and ten years upon him—the young wife stricken to the soul; the little children to whom home was gloomy—they can tell; we can't.

Swimming.—The Newburyport Herald truly remarks, that the benefits of swimming will be seen by the case of Michael Stevens, Jr., given elsewhere, and should be an argument in favor of a swimming school. There is not one person in ten thousand that would have been able to keep upon the water, and been saved, in the open sea. We recalled another instance, Capt. Joseph Small, who was lost overboard in a gale of wind, and was not only able to support himself for an hour, but to strip himself entirely of his clothes. All cannot learn to walk in the water like the Pacific Islanders, as securely as they could on the land, but if early accustomed to swimming they would have great pleasure, great profit, and great safety therefrom; and so every child should receive instruction in swimming.

We remember also the case of a boy, a schoolmate of ours, named Warner, who had a sail-boat fill and sink under him half way from Fort Point to the Shoals, leaving him alone in the sea. He pulled off his boots, and jacket and vest; took off his hat, and putting about a quart of water in it, let it float away. The spreet, or sprit, of the sail rose to the top of the water, and went up into the air and fell near him, being probably jarred out of the sail when the boat struck the bottom. He got the spreet, and kept himself on the water several hours, till a coaster from Boston saw his hat and then found him, just as the sun was setting.

He was considered the best swimmer in Portsmouth at that time, among hundreds; and the boys used to call him "Cunner Warner," fancying he swam like the fish called Cunners.

Humors of the Alabama Election.—Mr. Dowdell, one of the Democratic candidates for Congress in Alabama, told on the stump the following story:—

"Pat Mahoney bought a sheep's head in market and got from the seller a recipe for cooking it. As he went home, with his head under his arm, he came to a retail grocery and stopped to take a drink.—Putting his sheep's head down in a corner, he stepped to the counter and ordered his liquor. While mixing the sperrits, Tom Pearson exclaimed—'Pat, by jux, look at that bull fice running off with your sheep's head! Why don't you catch him?' Pat looked at the dog as he trotted off with the head, and putting his hand in his pocket, drew out a paper, exclaiming as he did so: 'Faix! what do I care if the nasty craythur has the sheep's head, haven' I the *resate* for cooking it?"

Tom Judge, the opposing candidate, in his speeches, said that

"Pat Mahoney represents the Southern Democracy, and that Kansas is the sheep's head. While the Southern Democracy, like Pat, stopped to take a drink with Jimmy Buchanan, (who keeps bar at Washington), a bench legged bull fice called Robert J. Walker, came into the grocery where he was free to do as he chose, and snapped up the sheep's head, (Kansas), and ran off with it to a place they call Free Soil. Then says Pat Mahoney (the Southern Democracy), 'what do I care? Havn't I the resate for cooking it, in the shape of the Kansas Nebraska Bill!' Every one admits that the 'resate' is very good in parts, but *without the sheep's head* it is not very *available*.

FROM EUROPE.

New York, Aug. 24.—The steamship City of Washington, from Liverpool 12th, arrived at this port this afternoon, with 125 passengers.

The steamer North Star, from Southampton 12th, arrived to-night. She brings a large number of passengers and London papers of the 12th.

There is nothing additional concerning the Atlantic Telegraph Expedition, and the material portion of the political news has been received via Quebec.

The shares in the Atlantic Telegraph Company had improved from £120 discount to £30 discount.

The Post says it is generally understood that Queen Victoria has accepted the invitation of the Emperor to accompany the Duke of Cambridge in his projected visit to the French camp at Chalons.

The steamers City of Manchester, Queen of the South, and the clipper ship Lightning have been chartered to convey troops to India.

The ships James Baines and Champion of the Seas, with over 1000 troops each, left Spithead on the 8th.

Letters from Oporto mention that little or no wine will be produced there this season, and prices had again gone up considerably.

The King of Naples had decided that none of the prisoners condemned for the late revolutionary attempts at Sapri are to be executed.

The Sussex county cup, at Lewes, was won by "Tournament." It appears that Priorous ran for the Sussex County cup, on the 11th, and came in fourth. Five horses ran. Charulton, the fortunate rider of "Blink Bonny," has been retained by Mr. Ten Broeck.

The Times city article of Tuesday evening says the funds show increasing heaviness. The possibility of a loan of £10,000,000 being required to be raised by the Home Government for the India Company, was the chief apprehension today. The question, however, is not of such imminent character as to justify a serious depression for the moment.

Second Trial of an Important Railroad Case.—Some years since, a woman named Shaw, residing in Needleham, recovered of the Boston and Worcester Railroad, in a suit tried in the Supreme Court, damages to the amount of about $13,000, for injuries, in the consequence of the Newton special train coming in contact with a sleigh which was crossing the track near the Newton Lower Falls depot. The sleigh contained Mr. and Mrs. Shaw and a young lady. Mr. Shaw died soon after the accident, of his injuries. Mrs. Shaw was terribly mangled, but eventually recovered with the loss of one arm and a portion of the other, while the young lady, in a wonderful manner, escaped injury. The case was carried before the full bench on questions of law, which resulted in the ordering of a new trial. The trial will probably take place in a few weeks, unless an offer of the railroad company, to submit the matters to referees, should be accepted.

Fitchburg, Mass.—We have received from a reliable source a record of the liquor cases which have been tried thus far at the Court of Common Pleas now in session at Fitchburg, Judge Briggs on the bench. We give them below:

Augustus Seaver, Worcester; fined $10 and costs, with 20 days in the House of Correction, and 30 days longer if the fine and costs are not paid.

R. W. Shattuck, Worcester, two cases; same sentence as above on the first. On the second, imprisonment of 20 days, to commence after the expiration of imprisonment on the first.

John Richards, Worcester; $10 and costs, with 20 days' imprisonment.

James Z. Vibbert, Worcester, two cases; same sentence as above.

A. W. Seaver, Worcester, two cases;—same sentence.

David Shattuck, Worcester; fined $10 and costs, with twenty days in the House of Correction.

Elizabeth O'Neil, Fitchburg, two cases; same sentence, except imprisonment in Fitchburg Poor House.

John Navins, Fitchburg; $10 and costs, with twenty days' imprisonment in the House of Correction.

Cornelius Murphy, Fitchburg; same sentence.

Geo. W. Skiff, Paxton, common seller; fined $50 and costs, with three months in the House of Correction.

David Leach, Westborough, common seller; same sentence.

We are informed that these prosecutions are doing much good. There is now very much caution on the part of the liquor sellers of Fitchburg. The places where liquor is sold are generally under ground and of the lowest sort.—*Boston Journal.*

The late Dr. Blomfield, Bishop of London, was permitted to retire last year, on a pension of £6000 a year, in company with the Bishop of Durham. Their demand made a great commotion at the time, but was acceded to. Dr. Blomfield was 71 years old. He was more than a respectable scholar, and won, by his editions of "Æschylus," and by his articles in the Museum Criticum, a distinction to which as a theologian he seems never to have aspired. His successor, Dr. Tait, who was elevated to the Episcopal throne from the Deanery of Carlisle, is one of the youngest, most liberal and useful of English Bishops. He has already distinguished himself by his discreet and decisive activity in his diocese, and in the recent debates on the Divorce Bill in the House of Lords, he made himself honorably remarkable by the bold and energetic stand which he took against the majority of his brethren, and in favor of a wholesome legislative reform of the British laws in relation to marriage.

Sad Accident in Manchester (Mass.) Harbor.—As three young men, Isaac Allen, Samuel Crowell and Alonzo Moulton, the first two of Manchester, and the last of Beverly, were sailing in the harbor on Saturday last, a heavy sea filled the boat, and she immediately sunk. Moulton clung to the boat, and went down with her. Allen and Crowell swam together a short distance, when Crowell cried "Save me!" and sunk. Allen swam for a considerable length of time, but his strength failing, he shouted to the extent of his voice, and was heard on board a small schooner, which rescued him. The schooner searched for, but could not find, the others, and they were given up for lost. They were about 17 years of age, and highly respected.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspeptic trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

THE "POTATO ROT."—We are sorry to learn that the potato disease is prevailing to a considerable extent in this vicinity.—We learn from a reliable source that the rot is more severe and extensive this season, than it has been for the past two or three years. Some farmers in this section entertain the opinion that part of the crop can be saved by digging them up, and are acting in accordance with this idea; while others prefer letting them remain in the ground and rot all they will.

We think it hardly pays to raise potatoes, when (as is often the case,) the whole crop is lost, and with it, labor, manure, land, &c.; and in view of this fact, we presume farmers will give up this branch of agriculture, and try something by which they will be sure of a greater remuneration.

☞ At 7 o'clock on Thursday morning, a special train will leave the P. & C. Railroad Depot for Candia, where a Picnic is to come off. Tickets 40 cents; to be had at the stores of Richard Hilton, J. Hodgdon, and J. P. Morse.

☞ Harper's Magazine for September is received by A. Williams & Co., Boston; and by C. C. Harvey, Portsmouth. It contains 20 Articles, the first three being fully illustrated:—The leading article being A Winter in the South.

NEW MUSIC.—We have received from Messrs. Russell & Richardson, Boston, "Twenty Years Ago," a song composed and dedicated to John M. Wood, Esq., of Portland, by F. Nicholls Crouch. Also, Howe's Piano Forte School without a Master. For sale by Chas. C. Harvey, at his bookstore, Exchange Buildings.

THE CROPS.—The Knoxville Whig is confident that East Tennessee will be able to sell two millions of bushels of wheat the present season. A letter from Fairwater, Wis., reports the wheat crop to be a large one this year. It is about half gathered, in good condition. The wheat crop in North Carolina was never as good before, and farmers are wide awake on the subject of raising it for exportation as well as for home use. Heavy rains have injured the cotton crop in Louisiana, and greatly benefitted the corn crop in Arkansas. The weather in South Carolina is highly favorable for its chief staples—corn, cotton and rice.

The Lancaster (Pa.) Times reports the appearance of the potato rot in the low grounds in that vicinity. It has also shown itself to a considerable extent near Frederick, Md. The Providence Journal states the rot is spreading in that vicinity; also in the Narragansett country and in other parts of Rhode Island.

ASSAULT.—Elbridge Campbell, on complaint of Shelburne Dearborn, keeper of the Half-way House on the Amherst road, was tried yesterday afternoon and this morning, before B. B. Bunker, Esq., at Dearborn's house—J. T. Moore, Esq., for complainant, J. L. Fitch, Esq., for defendant. The respondent, in company with Isaiah Campbell, called at the tavern of the complainant, at about half past one, on *Sunday morning* last. A row ensued, when the respondent struck Dearborn, and threw a glass of liquor in his face. Having been arrested and brought to trial, as above stated, a question of jurisdiction, involving the justice's right to try the case, arose, which was submitted to Judge Bell, who sustained the positions of the counsel for the prosecution, Mr. Moore. The matter was finally compromised by the respondent paying $5 and costs, $11.

We have two or three remarks to make on the above item. *First*, is to jurisdiction. Judge Bell is probably right. The Police Justices, or City Judges, of the several cities, have jurisdiction exactly equal to other justices; and some of the best lawyers in the State are of the opinion that such cases as the above may be tried as legally before other justices, as before the police justice.

Next, as to the *house*, where glasses of liquor were sold after midnight to a couple of roaming scoundrels who *called* at that beautiful house to begin to keep the Sabbath. We would give a trifle to know what ideas the keeper and his guests have, on morals, politics, and law. We dare say there is not a fanatic or a Maine law hypocrite among them. We dare say they are mostly for the union and the constitution, and especially solicitous for the welfare of the church which is so perilled just now by political preaching.

NEW YORK, Aug. 25.—Mortimer Livingston, the eminent merchant of this city, died at Staten Island yesterday.

The liabilities of the Ohio Life and Trust Company are estimated at about $7,000,000. About $700,000 of checks paid out by the New York Agency on Saturday and Monday, are unpaid. Brown, Bros. & Co. and others placed an attachment upon the assets of the company here, as a foreign corporation, and the Sheriff and his deputies are in charge of the office and property.

NATIONAL AGRICULTURAL FAIR.—*Louisvill, Ky., Aug. 24.*—The arrangements for the National Agricultural Fair, next week, are nearly completed. Contributors of stock, and all kinds of agricultural implements, are coming in from all sections of the Union. Ex-President Pierce, Vice President Breckinridge, Hon. John A. King, Hon. Robert C. Wyckcliffe, Lord Napier, and others, have accepted invitations and will be present.

SUSPENSION.—*New York, Aug. 24.*—The Ohio Life and Trust Company suspended this afternoon. The street is full of rumors and there is great excitement. It is stated that the suspension is in consequence of parties to whom it has loaned largely in railroad stocks, being unable to respond.

Mrs. Cunningham.—The Surrogate today decided against Mrs. Cunningham's claim to the Burdell estate, and gives it to the blood relations of the deceased.

FAILURE.—*Rochester, Aug. 24.*—Messrs. Browster & Co., private bankers, of this city, closed their doors this morning.—Their failure is caused by advances to the Messrs. Elys, who failed some days since. Their liabilities are not definitely known, but they are not large.

ALKALIES.—The burden of argument, at the late Convention of American dentists, upon the question, as to the effect of soda and saleratus upon the teeth, seemed to be decidedly against the alkaline theory.—It seemed to be admitted to some extent that the constant use of alkalies might prove injurious, to the general health, and thus occasion a deterioration of the whole bony structure; but is was urged that saleratus or soda was only used in conjunction with acids, for the purpose of generating a volatile gas, which by penetrating the bread should render it porous! and that the union of the alkali and acid destroyes or nutralizes both. Prof. Harris, of Baltimore, covered the whole ground when he stated that the tooth structure possesses little affinity for alkalies, but was readily disurbed by acids, being of a lliny formation, and thus possessing a great affinity for the latter agent.

In the published reports of this discussion we discover very few exceptions to the well established theory, that acid, either contained in the fluids of the body or generated by the decomposition of food around the teeth is the great destroying agent, the enemy to be combatted, and that a rigid system of cleanliness is essentially necessary for the preservation of the teeth.—*Journal.*

☞ On Sunday, at South Danvers, Mass., an Irishman named Barrigan, stabbed and killed another Irishman, named Fitzgibbon. They had been to a christening the night before, and had a drunken time. This fatal affray grew out of some quarrel there. Barrigan was a quarrelsome fellow.

☞ On Friday, as a horse with a loaded wagon was passing the river, in Gorham, N. H., the bridge gave way, and all went down into the stream, twenty-five feet below, but neither horse nor rider was injured.

ATLANTIC HOUSE, Wells Beach, Me.

AS THE season for summer travel and recreation has arrived, I feel at liberty to suggest this locality as one which for boldness, extent and variety of scenery, is unrivalled on the New England Coast.

This House, located on its most prominent and picturesque part, has been thoroughly refitted and furnished, and is now open for the reception of Visitors. Rare inducements are offered for GUNNING and SEA FISHING, and the best of Horses, Carriages and Boats are subject to order. Visitors may be assured that nothing shall be wanting on our part to make their stay agreeable and satisfactory.

A Coach running from the House will connect at Wells Depot, with the trains on the Portsmouth, Saco and Portland Railroad. Rooms can be engaged for any length of time by letter addressed to either of us at *Wells Depot Post Office.*

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE SUITE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURGH, PA., May 1, 1855.

DR. J. C. AYER. *Sir:* I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do with others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the *liver* is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious *dis*ease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had pronounced incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her of her complaint.

AZA MONGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which baffled all medical treatment. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Pits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, many in your own families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the fatal double and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the compositions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the incipient canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not dwelt more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100'00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. These are to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, and the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next after their receipt. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $60,000; every one being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to R. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it persons have secured patents for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that NOTHING WORK SUCCEEDS AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law and official practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

A NEW CORRESPONDENT. — We have some droll correspondence;—and are sometimes, when burning a heap of inadmissables, much amused at the wit or humor that twinkles in a single line, where all else is dull and flat.

The following is not of that character—but humor runs through it, though the man is all unused to writing.

EXETER, August 24, 1857.

Messrs. Editors;—I will send you a few lines in regard to Exeter. There is no better place in the world for a poor man to live than in this town. I have a wife and four children, and there never was a happier man than I am. I am a mechanic, and earn $1.75 per day. I am surrounded by the best of schools, (where I am educating my children); also high schools and an academy; churches in abundance, to suit your own tastes; and what is best of all, I have no taxes to pay, and the town gives me a salary beside; or rather I belong to the Engine Company, and they give me $5 per year,—and take out $1.72.

Now where will you find a man that can live easier than I do; nothing to trouble me, and a salary from the town besides.—My money never troubles me, for I never have any to spare. I spend it freely for my family use, and it costs me all I can get to live;—I am always just as happy without a dollar as with it. I never borrow trouble, but let the morrow take care of itself.—Perhaps you have got just such people in Portsmouth as I am. Now why talk of going West, when we can have all these blessings at home? Most people who are in search of happiness, will find it like hunting after a *flea*,* when you put your hand where it was, it is not there. The only office I ever held was a teacher in a Sunday School, and made a poor hand at that. What makes all the trouble in this world, is a misunderstanding, both politically and religiously, but I never trouble my mind about such things. I hold that every man should enjoy his own opinion, whether it is Catholic, or Hard Shell Baptist.

A HAPPY MAN.

*We preserve the orthography of this word, *flea* instead of flea, and put it in italic. It is the only mis-spelled word in the letter,—and is a change worthy of Mrs. Partington herself.

A NEW EXPLANATION OF THE HOG MALADY.—The Zanesville (Ohio) Times, of August 8, states that in the distillery of Mr. Crane, in the town of Dresden, in that county, $100 worth of hogs die each day. The disease runs its course in twenty-four hours, and is almost always fatal. Of the nature of the disease the Times says:

The cause of it, our informant says, is no longer attributed to distillery slops by those who have observed closely its operations in Dresden. The disease resembled the measles, and it is the opinion of a good many that it is measles in a malignant form. The hogs that die through the night are hauled off in the morning to the margin of the creek, cut up, and the lard rendered from them in large kettles kept ready for the purpose; the carcasses are afterwards thrown into a shallow hole dug on the margin of the creek, and slightly covered with sand.

Here's a gem from 'Dombey' that will never grow dim:

"She died," said Polly, "and was never seen again for she was buried in the ground where the trees grow."

"The cold ground," said the child, shuddering again.

"No, the warm ground," replied Polly, "where the ugly little seeds are turned into beautiful flowers, and where good people are turned into angels and fly away to heaven.

PERSONAL.—Mr. P. T. Barnum has taken passage in the Arabia, which leaves for Europe the 2d of September. His family are now in London, and Mr. B. has determined to make that city his permanent place of business.—*Bee.*

☞ It has just come out that Dr. Samuel H. Catlin—Lady Cunningham Burdell's physician, is an old practitioner in the sham baby business. The Herald gives a history of his medical career and the particulars of two other attempts to furnish counterfeit heirs.

A new novel entitled 'Mabel Vaughan,' is announced from the pen of Miss Cummings, author of the "Lamp Lighter."

☞ The dead body of a man named Thomas Tilley, was found a few days since, among the rocks at the base of a precipice at Little Nahant. The inference is that he fell from the bank forty feet above, while intoxicated, as a jug of rum was found near the spot.

☞ The Gardiner Bridge Company has paid $500 to the heirs of Thomas Quinnam, whose death was caused by falling through the bridge into the river.

Virto, the boot and shoe trader, who was assaulted by his partner, in New York, with a shoe hammer, died on Sunday.

We are glad to learn that the illness of Rev. Dr. Chapin, who is at Rockport is but temporary.—*Bee.*

GETTING CHEAPER.—Prices for flour commenced a retiring movement yesterday, that must be gratifying to consumers. On all brands there was a decline of twenty-five cents per barrel, and on some there was a decline of fifty cents from our quotations of the previous day. This decline is considered not only permanent for the season, but also as a reliable promise of much lower prices.—*Albany Trans., 21st.*

☞ A constable named Waitman, attempting to arrest a drunken Irishman, in North Bridgewater, Massachusetts, on Saturday, was stabbed a half dozen times, but each time, except once, the knife entered a wallet in his coat pocket, and that saved his life. Once a deep gash was cut in his arm

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDOUS INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discovery, must be the judge.*

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their uniarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

THURSDAY, AUGUST 27, 1857.

DELAWARE AS A SLAVE STATE.—The Independent has investigated the history and statistics of slavery in Delaware. It is found that the per centage of slaves in the population of that State, not half that of the other Southern States at any period, has steadily diminished at every census, from 15 per cent. in 1790, to *two and a half per cent.* in 1850. The whole number of slaveholders in the State is now only 809, and of these only twenty possess from ten to twenty slaves, and 672 have less than five! The pro-slavery attitude of the state, and the existence of slavery there at all, are due solely to the corrupt combination of political parties.

DECLINE AND FALL.—Samuel H. Batchelder, of Boxford, was sentenced in the Municipal Court of Boston, on Tuesday, to three years in the State Prison, for forging a note on his brother. The Newburyport Herald adds this note:

Batchelder was a likely man, till a few years ago he was elected a representative to General Court, and that ruined him. He was not able to withstand the temptations of the city, associated with a woman whose ways lay hold on death, leased a home for bad purposes for his mistress, and then forged a note to pay the rent. The end is prison.

☞ The New York papers say that Dr. Catlin, the pretended accoucher of Mrs. Cunningham, is worse than she is. They show pretty conclusively that this is not the first fraud of the kind, by a number, and that he has been the seducer of a half dozen married and unmarried women. In the course of time, the world will come to have an idea of what is going on in New York, a city that already has the name of equalling in wickedness any other in the world.

CONVICTED.—Mrs. Lucy Robinson, a notorious woman who formerly lived in Charlestown, Mass., says the Advertiser, has been committed to the House of Correction in Suffolk county for the term of five years. She, with a male accomplice named Holman, attempted to extort money from an East Boston citizen, named McDonald, by accusing him of criminal conduct with her at a house in Billerica street, Boston. He put the police upon their track, and they are both caged, Holman five years in the State Prison, and she the same period in the House of Correction.—About two years ago she was tried for robbing an old man, a stranger, of $1900 in Charlestown, but escaped conviction.

HAVERHILL, MASS.—The Banner says that on Sunday, 16th inst., James M. Osgood, under the influence of liquor, commenced abusing his family most shamefully, and especially a little son, whom he undertook to drown by throwing water upon him. He then commenced whipping him in such a manner that the neighbors came to the child's rescue. Sheriff Davis was sent for, and on his arrival Osgood, a powerful man, greeted him in a friendly manner by knocking him down two or three times before Davis could get the irons on, after which he was taken to the Tombs to wait further orders.

DEATH OF A VENERABLE LADY.—Mrs. Elizabeth Kimball, a well known lady of Waltham, Mass., the oldest person in the town, died on the 18th inst., at the advanced age of 94 years. She lived, says the Sentinel, through four generations, and retained to the last her mental and physical powers in an eminent degree.—She saw the battle of Bunker Hill, from a housetop in Charlestown, and also witnessed the battle of Lexington. She was wont to relate with accuracy many of the stirring incidents of the Revolution, of which she was personally cognizant.

A man in Cincinnati, named Schrem, who has a black wife, found her with a colored barber. The barber leaped out of a window, leaving a new suit of clothes behind. Schrem appropriated the clothes, for which the barber had him arrested, and lodged in a station-house.

This shows a remarkably mean as well as wicked barber,—and some magistrate no less mean.

☞ Hon. Mr. North, who is about to marry Miss Crockett, the Earl of Eglington's step-daughter, has an unincumbered estate, the annual income of which is $200,000 a year! That is quite as comfortable as if he were rich.

LOWELL, MASS.—On Monday, in the Police Court, Hugh O'Neil was convicted on three counts for violation of the liquor law—appealed.

THE HORRORS IN INDIA.—Details of the horrid massacre committed by the mutinous native troops in India continue to be received:—

As soon as the mutineers entered Delhi a great many Englishmen and English women and children escaped, but numbers could not do so, and those who did not escape were subjected to outrages worse than death. The daughter of an English clergyman was driven through the streets of Delhi naked, then subjected to unspeakable outrages by an infuriated soldiery, and afterwards cut to pieces with swords. An English lady in the same city was suspended by the feet naked and hacked to pieces. The European officers and soldiers are exasperated to madness by these atrocities, and most terrible punishment will be inflicted by the European soldiers on the mutinous sepoys when Delhi is taken. These sepoys have acted more like fiends than human creatures. It is with the greatest difficulty that the English soldiers can be prevented from laying violent hands on every native they meet. A Highland regiment landed at Calcutta, and one of the soldiers was seen immediately to rush straight to a native and fell him to the earth with his fist in an instant. Whoever lives to tell the tale of Delhi, and of the scenes witnessed in the city during the siege, will be able to relate undreamt of horrors.

At Allahabad, many of the poor residents had left the fort, on account of the intense heat and the apparent security of everything. The mob and cut-throats rose with the soldiery. They burnt one whole family from grandfather to grandchildren alive! Others they killed by inches, cutting off the nose, then the ears, then the fingers, then toes, &c.; the children they killed—little innocent babies—before the mother's eyes, and then killed her.

The punishment of each of the mutineers as were taken by English troops were hardly less horrible. At Terrozepore, after hanging twelve of the prisoners, ten others were fastened to the muzzles of ten guns, which were charged with blank catridges. The commanding officer directed port fires to be lit. "Ready"! "Fire"! and the drama is played out. The scene and stench were overpowering. I felt myself convulsed and could observe that the numerous native spectators were awe sticken—that they not only trembled like aspen leaves, but also changed into unnatural hues. The lesson, I trust, will not be lost upon them. Precaution was not taken to remove the "sponge and load men," from near the muzzles of the guns; the consequence was, that they were greatly bespattered with blood, and one man in particular received a stunning blow from a shivered arm.

☞ The New York Post has come to the conclusion that a famine is very much needed in the United States to teach people economy in the preparation of food. It says it will require some Providential lesson like this to supply what this country needs now as much as anything else—a race of capable cooks. In this sense the breadth and prodigious fruitfulness of our country is a calamity. A person who has examined the matter says that of all the food raised in this country, one-third is wasted. In France the waste amounts to less than two per cent.

MASSACHUSETTS.—By a statement in the Boston Courier, it appears that there are 331 towns in the Commonwealth, including 14 cities. The whole population is 1,132,169, and the whole number of legal voters 211,309. The number of colored persons in the State is 9906, of whom 139 are Indians or half-breeds. Of the white population 244,685 are foreign born—181,304 of these, very nearly three-fourths, being Irish.

The increase of population throughout the State, in the five years from 1850 to 1855, was 16 per cent.

☞ The corn and wheat crops in Virginia are abundant, as appears from the papers in several parts of that State.

The clipper ships James Baines and Champion of the Seas (both American built) were at Portsmouth, Eng., taking in troops for India. No ships that ever entered Portsmouth harbor created so much curiosity among men-of-war's-men as these great merchantmen. They were visited by the Queen, who was pleased to say, that "She had no idea she had such ships in her merchant service."

☞ In Ischia, Cattaraugus Co., N. Y., there is a family named Farwell, unsurpassed in numbers and harmony. Not long since, there was a school in their district composed of twenty-six scholars, all cousins—and the school was taught by an own aunt to all the children.

The man who published the doggerel about "My Tailor" has not made much out of the operation, if we may judge from the following specimen extracted from the reply:

"Who talks of cabbage with a sneer,
And raises one betwixt each ear,
That's ever green throughout the year?
My Customer."

NEWBURYPORT.—The Installation of Rev. A. B. Muzzey will take place on Thursday, the 3d of September. Sermon by Rev. Dr. Peabody of this city.

MERRIMACK COUNTY.—The following report of cases, in the S. J. Court at Concord, is from the N. H. Patriot.

The Grand Jury were discharged on Friday morning, having found 21 indictments—13 of which were for violations of the law for the 'suppression of intemperance,' 2 for adultery, 1 for fornication, 1 for assault with intent to kill, 2 for breaking and entering stores and stealing goods, 1 for breaking and entering the warehouse of the Concord Railroad, with intent to steal, and 1 for a defective highway.

Edwin E. Goodale, arraigned on an indictment for adulltery, pl.ad *not guilty*, and the case was continued.

Wm. Randal pleed guilty to an indictment for breaking and entering the store of James Jones of Concord, and stealing a pistol.

Amasa Arlin pleed not guilty to an indictment for breaking and entering the store of Peabody & Hill in Northfield, and stealing therefrom.

Lucy A. Warner pleed not guilty to an indictment for fornication.

John W. Withen plead not guilty to an indictment for breaking and entering the warehouse of the Concord Railroad.

The following persons plead not guilty to indictments for violations of the Liquor Law, viz.; Robert Ordway, Dudley F. Folsom, Wm. Holt, Tim. P. Flanders, (1) Marcus Ayer.

Betsey Haines, Jonathan Fellows and Chas. C. Hartford were each fined $50 and costs for violations of the Liquor Law. Hartford paid up.(2)

On Saturday, George Wasson plead guilty of a violation of the Liquor law, and was fined $50 and costs, $26.71, which was paid.(3.)

On Monday, Rufus Spaulding was arraigned and plead not guilty to an indictment for an assault upon Isaac Hunt with intent to kill.

NOTES BY THE CHRONICLE.

1. Now we begin to know who Timothy P. Flanders is, and why he complained of Mr. Rollins.

2. Mrs. Haines and Jonathan Fellows went to jail. They were convicted at the February term of Court, and their cases were carried up to the full bench, which sustained the verdict of the S. J. Court.

3. Wasson plead Not Guilty on Friday; but seeing how matters went, he caved in, retracted, and paid up.

☞ W. H. Sneed, member of the last Congress from Tennessee, publishes a card in the Knoxville Whig, indignantly disavowing any participation in the passage of a resolution at a public meeting in Knoxville, complimentary to Edward Everett. Mr. Sneed bases his ill will towards Mr. Everett on this statement:

"I understand Mr. Everett to have publicly and voluntarily endorsed and lauded the course of Senator Sumner, and especially the speech which disgraced the American Senate, and which brought down upon him the merited chastisement by Brooks."

Boo-hoo! Boo-hoo!

☞ Timothy Collins, sixteen years old, applied for employment, a few days since, to a Mr. Gilson, glass manufacturer, in Boston, saying that he was destitute and fatherless. He was taken into the office, but had been there but a short time when he repaid his employer by stealing a pocket book containing $1000 and notes of hand worth $300.

SCIENTIFIC AMERICAN.—This valuable journal commences its 13th volume Sept. 12th, offering a fine opportunity to commence a subscription. The publishers offer $1500, in fifteen cash premiums, to those who furnish the largest lists. Its character is too well known to need any laudation; suffice it to say, that to those interested in Arts, Manufactures, Agriculture, or any practical Science, it will be found an able auxiliary. Terms $2 per annum. Munn & Co., publishers, 120 Fulton street, New York.

THE ILLUSTRATED FAMILY GYMNASIUM:—Containing the most improved methods of applying Gymnastic, Calisthenic, Kinesipathic, and Vocal Exercises to the development of the bodily organs, the invigoration of the functions, the preservation of health, and the cure of diseases and deformities. With numerous engraved illustrations. By R. T. Trall, M. D. In two parts. Price of the work, complete, $1.25. Address Fowler & Wells, 308 Broadway, New York.

We have received the first part of this valuable work from the publishers. It fills a vacuum which has long existed, and will be conducive of much good to those who heed the instruction therein contained.

☞ French papers notice the discovery at Plombieres, Louis Napoleon's residence, of an old Roman bath room, with its bronze tap and pipe in such perfect preservation, that when the cock was turned the water came in immediately. It is supposed to be 1400 years old.

☞ A little daughter of Abner E. Newhall, of West Danvers, Mass., is suffering so severely from a kick on the knee by one of the scholars at school, that the limb has been amputated as the only means of saving her life.

☞ It was recently decided in Buffalo, before Justice Davis, that Railroad Companies are bound to keep ticket offices open at places where they are established, one hour before the departure of passenger trains; and a passenger who had paid five cents extra in the cars, not having a ticket, and the ticket office not having been open to enable him to purchase one, recovered the five cents and fifty dollars in addition.

SECOND MARRIAGE.—"Where a woman," says Mrs. Partington, "has once married with a congealing heart, and one that beats responsible to her own, she will never want to enter the maritime state again."

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—The Old Colony (Mass.) Memorial says,—"It is for the public to see that no ancient and long honored theories crush out a *truth* in its infancy."

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

THE OXYGENATED BITTERS have no equal as a tonic medicine, and as it contains no alcohol, is especially adapted to the delicate constitutions of females suffering from any derangement of the natural functions, weakness or irregularity, nervous debility, &c.

SPECIAL NOTICES.

Some people spend more for rum than it would cost to keep half the infants in Portsmouth in health by the use of the Carminative.

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. No family should be without these Powders. One, taken in the first stages of the disease will almost invariably check it. They are perfectly safe and effectual. For sale by J. H. Thacher and Wm. R. Preston. aug25 3w

☞ Among the many preparations now in use for re-toring, preserving, and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the United States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer to the innumerable certificates which have been sent by parties who have been benefitted by it, and who feel happy in giving testimony to its wonderful effects produced on them.—[Cincinnati Sun, Nov. 1st., 1854.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases name able, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

POLICE COURT.

WEDNESDAY, August 26.

John I. Sullivan was accused of assaulting, beating, and otherwise ill-treating one Mary Hurley. Sentenced to imprisonment in the common jail for 30 days, and pay costs of prosecution; $7,45; from which decision he appealed; whereupon he was recognized in the sum of $100 to keep the peace till the Court of Common Pleas.

The same Sullivan made a complaint against several persons for assault and battery upon his wife Bridget. Considered not guilty, and discharged.

☞ We notice that many of the farmers of Rye are busily securing their second crop of clover. The fine weather of a few days past has been very propitious, and should it continue, a large amount, perhaps hundreds of tons, of the best of hay will be secured in Rye alone, as it is very heavy in some places, and far above the usual average in all.

☞ See advertisement of sale of P. & C. Railroad Bonds, by H. F. Wendell, Esq., this day, at 12 o'clock.

☞ James O. Brayman, one of the editors of the Chicago Democrat, has been discovered on two occasions taking letters from other people's boxes at the Post Office. On the second occasion, he was arrested. Mr. Brayman was for many years connected with the Buffalo press, and has always borne an irreproachable character. About four years ago, he went to Chicago, and became the associate editor of the Democrat, being intrusted with the management of that journal in the absence of its chief editor, Mayor Wentworth. He is a deacon of the First Baptist Church in Chicago, and has borne a leading part in the advancement and success of Sabbath schools, and at the time of his arrest, the key of the church was found upon his person. He was held to bail in $5,000, Mayor Wentworth becoming one of his sureties.

TEXAS.—The Galveston News says that the majority for Runnels, the democratic candidate for Governor, will not be less than 11,000.

The Civilian says that great excitement is existing in Houston, owing to the discovery of a plot, got up by a gang of thieves, to kill the City Marshal. The ringleader in the affair, and another were captured.

The accounts of the cotton crop, from the interior of Texas, were encouraging. Picking had fairly commenced.

The effects of the drought on the frontier were deplorable.

The Pacific Railway was being graded at the rate of two miles per week, and 500 hands were engaged on the work.

ST. HELENA.—The New York Courier learns by private advices from St. Helena, that the Emperor Louis Napoleon has purchased the site of the tomb of his uncle, the great Napoleon, for $3000; and Longwood, the farm on which the conquered conqueror's last years passed, for $18,000. A commission is expected soon to arrive for purpose of putting Longwood in complete order and decorating the grounds. A fine monument is also to be erected over the tomb.

PORTLAND, ME.—In the Municipal Court, Aug. 25, Wm. H. Hudson, for selling liquor, was fined $5 and costs. Hudson keeps a groggery in Washington street, and sold liquor to a boy of 13, until he became intoxicated, and was taken to the watch-house.

THREE DAYS LATER FROM EUROPE.

ARRIVAL OF THE AMERICA.

Serious Accident to the Atlantic Telegraph Cable!

The Royal Mail steamship America, Capt. Ryrie, from Liverpool on Saturday, 15th inst., arrived here this morning on route for Boston.

Her intelligence is three days later than by previous arrivals.

The Indian mail had arrived with intelligence of the greatest moment.

Contrary to general expectation in England, Delhi had not fallen, up to the 29th of June, the date of the latest advices.

Further mutinies had occurred among the native troops.

The Atlantic Telegraph is, we regret to say a failure.

On the morning of the 11th inst., when 335 miles W. from the Irish coast, the cable broke.

The vessels were returning to England with the remainder of the Cable, still over 2000 miles in length and perhaps sufficient to unite the two continents.

The Directors of the Company were sanguine of ultimate success.

A conference was to be held in London on the 15th inst., for the purpose of determining whether to go on again immediately with the balance of the cable, or to wait until another summer.

The Liverpool breadstuffs market exhibited an upward tendency. Corn was dull and slightly lower.

Provision Market was generally quiet. Sugar had declined considerably.

THE OHIO TRUST CO.'S FAILURE.—*New York, Aug.* 25.—The suspension of the Ohio Life and Trust Company has been followed to-day by that of John Thompson, who has for so many years done the leading business in uncurrent money, and acted as the agent of various banks. This suspension has been wholly unexpected, and will cause an inconvenience, the extent of which cannot now be estimated. The assets of Mr. Thompson are largely in bank notes not available at present, and in other securities alike of small value in the present excited state of the market.

Other Stock houses have also suspended; among them De Launey, Iselin & Clark, and E. S. Munroe. The embarrassment of the former, thus far extends only to their Stock business; the house, however, are understood to have purchased some exchange on short time.

The affairs of the Ohio Life and Trust Company are freely discussed in the street. It is stated that the Pittsburg and Cleveland Road owes it $500,000, for which its bonds are pledged. The Bank of Norwalk has its account with the company, and report says its funds, as well as its collection paper, have been used by the Trust Company in common with the collection paper of other houses. The funds of many western travellers are also made unavailable, causing much personal inconvenience. No statement has been made of the affairs of the Company, but it is understood that within a few days a full exposition will be made.

The Boston Advertiser remarks that "the failure of the Ohio Life and Trust Company is one of the heaviest financial calamities that has ever stained the commercial annals of the country. The liabilities probably exceed six millions of dollars. It is said that the assets are sufficient to protect depositors, but we know of no law which will secure priority to their claims. The failure is likely to carry embarrassment and distress into many unsuspecting families."

NEW YORK, Aug. 26.—The following Banks are reported in the streets as having failed:

Rhode Island Central Bank, East Greenwich, R. I.
Tiverton Bank, Tiverton, R. I.
Farmers' Bank, Wickford.
Warren Bank, Pennsylvania.
Bank of Kanawha, Virginia.
Hancock Bank, Maine.
A bank in Hartford is also reported failed.

NEW BANK.—*Hartford, Ct., Aug.* 25.—Books for subscription to the capital stock of the new Ætna Bank, were opened today. The capital is $500,000. The books were opened at 10 A. M., and closed at 7 P. M., and during that time, $2,346,500 were subscribed and ten per cent paid in.

AYER'S Cathartic Pills,

(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURGH, PA., May 1, 1855.
DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.
Yours with great respect, REV. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.
SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their prompt lasting action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.
Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.
DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and ailing away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery, and of our neighbors had it, and had my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as for years, which is actually good and honest, will be prized here.
GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.
DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in Boston. To regulate the organs of digestion and purify the blood they are the best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.
DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her blood, which your Pills have cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.
PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my left side and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.
SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.
DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,
and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, are not the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the fearful dable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable tanker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100'000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after the drawing.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore, also, the National Intelligencer and Union, of Washington, D.C.
Address T. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity of adventuring, knowing that parties at a distance being as well projected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta, Mobile Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m18ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond questions, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved Inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
ABGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S
DYSENTERY POWDER,
Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.
This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purpose they are recommended, and in nine cases out of ten
ONE POWDER WILL CURE THE WORST CASE,
when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;*—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.
These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.
Please try them; if they do not give *perfect satisfaction*, return them and take your money

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make themselves at home on the premises, promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.
While acknowledging the liberal patronage with which we have been so long favored, in our old quarters, we would solicit a continuance, as we trust our accommodations are as much increased and improved. WM. S. HADLEY.
Portsmouth, June 15, 1857.

Piscataqua House,

No. 5 Pleasant Street, Portsmouth, N. H.,
By GRANT & LEWIS.
THE Subscribers having leased this well-known and popular establishment, long occupied by Col. Wm. S. Hadley, as an
EATING HOUSE AND HOTEL,
would invite the patronage of the public, whether citizens or visitors from abroad.
The House has been refitted and newly furnished, and will be conducted as heretofore—Permanent Boarders or transient visitors accommodated

That Favorite Summer Resort and Watering Place

The Gerrish House,

KITTERY POINT, ME., NEAR PORTSMOUTH,
HAS recently been put in thorough order, and newly furnished throughout; and the subscriber having taken a lease of the same for several years, will hereafter have it open to the public *all seasons of the year.*
Coaches leave this House *twice daily*, for the cars at Portsmouth and Kittery Depots.
July 17 2m ANDREW AMEE, Kittery, Me.

SAGAMORE HOUSE,

FROST'S POINT, RYE, N.H.,
IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders accommodated on reasonable terms.
Persons desirous of visiting this splendid retreat, and coming by Railroad, will stop at the Depot in Portsmouth—where MR WILLIAM D. PERKINS' COACH will be in readiness to convey them to the House.
The SCHOONER SIBYL, commanded by CAPT. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.
The Sibyl has a magnificent cabin, water closets, ranges, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. 122 THOMAS B. LAIGHTON.

HIGHLAND COTTAGE,

STRATHAM, N. H.,

MEDIUMS.—The Banner of Light recently quoted La Roy Sunderland in favor of the reliability of Mrs. Hayden as a spiritual medium. Mr. Sunderland was reported to have said that he had seen all the mediums from Maine to Utica, N. Y., but never seen one through whom so many test questions are answered correctly, at one sitting. Mr. Sunderland sent to the Banner of Light, a correction or qualification of this statement over his own signature. The editor of the spiritual paper, however, took an unwarrantable liberty with this letter, by omitting the following very material portion:

"The next day after the sitting referred to in my previous article, I attended a sitting with her, when all that was uttered through her proved to be false. *She carried on the conversation for me, and got responses from what purported to be my mother, who is still living; and from a brother, that I never had!"* Every word was false! And thus I have found it with all mediums; the poorest do sometimes succeed, and the best can but fail when the tests are put, as they always should be, to witnesses who *cannot be cross examined at all.*

☞ Speaking of Hon. Stephen A. Douglas and his wife, whom he saw travelling on an Illinois railroad, the editor of the Newburyport Herald says, Mrs. Douglas "is a bright eyed young woman of twenty-five or thirty summers—very neat and affable, who would grace any society; very fine looking, but though the brightest star in the galaxy of beauties in Washington, —being to fashion, there, what her husband was to politics,—we discover no comliness that is not equalled or surpassed in scores of factory girls in Newburyport."

SUPPOSED MURDER IN BANGOR.—Mr. Benjamin Hurd of Bangor, a house carpenter, was found dead in the Dock, on Monday morning last. His skull was fractured in three places. A post mortem examination by two physicians was had, and they came to a conclusion, that the man was dead before he was in the water. The last that was seen of Mr. Hurd, alive, was about six o'clock, on Sunday evening. It is thought that the deceased might have got into an altercation at a drinking place in the vicinity, as he is known to have been drinking during the day. It is also surmised that he had incurred a grudge from persons whom he prosecuted before the Police Court, on a charge of stealing a valuable chest of tools from him, last winter.

A coroner's inquest is being held, and the jury will probably probe the affair to the bottom.—*Portland Argus.*

VALUE OF A WIFE.—We learn from the African Repository that the price of a wife among the Kru people is usually three cows, a goat or a sheep, and a few articles of crockery ware, or rods, the whole of which would scarcely exceed twenty dollars. The woman is always bargained away for life, and at the decease of her husband passes to his brother or some other connection, being deemed transferable property. It, however, she is ill-treated, she may return to her family, though to guard against this provision being abused, they are required to restore twice as much as they received for her. Each woman is the mistress of her own household, and is not liable to be interfered with by any of her co wives. On the whole the situation of these Kru wives appears quite as favorable to domestic happiness, as the condition of things in Brigham Young's dominion, or even under the rule of the peculiar institution."

Mr. Irving, in reply to my inquiry, (whether he had yet "arrived at that happy age when a man can be idle with impunity,") said "no"—that he had sometimes worked even fourteen hours a day, but that he usually sits in his study, occupied from breakfast till dinner; (both of us agreeing that, in literary vegetation, the "tide" is on the morning,) and that he should be sorry to have much more leisure. He thought, indeed, he should die in barness." He never had a headache—that is, his workshop never gave him any trouble—but, among the changes which time has wrought, one, he says, is very decided; the desire of travel is dead within him. The days are past when he could sleep or eat anywhere with equal pleasure; and he goes to town as seldom as possible.—*N. P. Willis.*

The liquor agent in Lawrence has taken $1073.23 for ardent spirits sold in the last quarter. All for "medicinal and mechanical" purposes, of course!—*Exchange.*

Very likely: why not? Lawrence contains, in round numbers, 16,000 people; and in three months, they have bought 1000 dollars' worth of medical and mechanical spirits. That is 6¼ cents each! Prodigious!! as Dominie Sampson says.

BERKSHIRE COUNTY, MASS.—The following is a record of the liquor cases that have recently been tried at Lenox, in Berkshire county, before the Common Pleas Court, Judge Sanger on the bench:

David O'Hern, Mary O'Hern and Mary Kelly, of Adams, all guilty.

Pierce O'Connell of Adams. Six cases. Guilty on two.

Michael Hogan of Adams. Two cases. Guilty on both.

Morgan Farrell of Adams. Four cases. Convicted upon one—plead guilty to the other three.

Thomas Barrett, two cases; Michael Fitzgerald, one case; Henry Olds, two cases; John O'Connell, one case; Elisha Smart, one case; all of Adams, and all guilty.

Catharine Smeedy of Williamstown, one case. Guilty.

There were eleven more cases tried from various parts of the county, and a verdict of guilty rendered in seven.—*Boston Jour.*

DON'T BACK THE BABIES.—It is wisely remarked that when babies are taken out riding in their little carts, it is little less than cruelty to push them along backwards. A child, like a grown person, must, in order to render a ride healthful, be drawn behind the mother or servant, as the case may be, not pushed before. Proprietors of babies and baby carts will please make a note and save their little ones from sickness.

A fireman on the New York Central Railroad asked the superintendent for a pass, which he declined to give, saying, "The company employ you and pay you so much for your services, and there our trade ends. If you were to work for a farmer for a dollar a day, and wanted to go to Saratoga, would you expect him to hitch up his team and take you there for nothing?" The fireman answered—"No, sir; but if he had his team hitched up, and was going directly to Saratoga, I should think he was a hog if he didn't let me ride."

The article used by the mowers to sharpen their scythes with, is called a "rifle," and Mrs. Partington says she is determined to procure one for Ike to shoot with, as it is evidently a peaceful rifle and one that is not any way harmonious. "They seem very tenderly disposed towards their grain here," said the Brahmin Poo-Poo as he heard the farmers speak of cradling it. "Yes," said old Roger, "but they do not let it spoil from over indulgence; and come fully up to the Solomon rule afterwards, by thrashing it soundly."

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit, SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

FRIDAY, AUGUST 28, 1857.

PORTLAND.

A great place is Portland—only fifty miles down east of us; a most beautiful city—a pleasant place to visit—a live place to do business in. We know of no city equal to it, in all its attractions. The beauties of nature combine with the luxuries of art and the necessary adjuncts of active life. From the time we first visited Portland, six or eight years ago, we have cherished the most satisfactory memories of it; and a day or two spent there this week confirms our first opinion. The only drawback on our enjoyment of the enterprise and consequent prosperity everywhere visible there, is the comparison which is constantly suggested in our mind, between the business and prospects of Portland and Portsmouth.

A drive through the streets of Portland, a little removed from the business portion of the city, reminds one of Brookline, Roxbury, and other towns adjacent to Boston; while the suburbs of that city (Portland) are not to be compared to those of Portsmouth. Portland is built on two of "the everlasting hills," with the business men in the valley between—the whole most eligibly and beautifully situated. The harbor is large, and sheltered almost "from every stormy wind that blows;" affording one of the most picturesque and safe sailing grounds that can be found. We can hardly conceive a more beautiful sight than a view of Casco Bay from Portland hills;—with the numerous islands and the signs of life on its surface, in the shape of craft of all sizes—Cape Elizabeth stretching out in a bold headland opposite the city, not unlike Boar's Head, or the Nubble at Cape Neddick.

While it is our opinion that the greatest enjoyment is not to be had where there is too much business going on—for which reason we should decline living in a new country, where of course there is nothing *but* business; still we do not object to trade or manufactures, or better yet, agriculture, sufficient to keep the wheels in motion.—Fifteen years ago, or so, Portland was not one whit better off than Portsmouth or Newburyport, in business, except that it was somewhat larger; whereas now Portland is about as far ahead of us, as Portsmouth is ahead of Newington, in this respect. And there is no miracle about it, either; "the gods help those who help themselves"—and those *only*.

Portland is said to have a population of upwards of 25,000; and we doubt not the census of 1860 will show at least 30,000. And the people are wide awake, too;—ready to build a railroad to Canada or the White Mountains, or "make land" for a wharf and railroad track round the city, or establish a line of steamers to Liverpool, or do anything else that "their hands find to do."

Prominent among, and perhaps at the head of the business men of Portland, stands Hon. John M. Wood, now serving his second term as Republican Representative to Congress from Maine. His residence is, we think, the finest in the city; and is almost in the heart of the place. Opposite this, Mr. Wood is building a splendid and very extensive six-story hotel, with white marble front, and in style not equalled this side New York. The "Great Eastern" steamer is expected to fill it next summer. May she not follow the Great Western! High expectations are formed in Portland, of the influence of the arrival there of this leviathan of the deep; and all may be realized—we hope they will be.

We found several Portsmouth people engaged in business in Portland, and not a few others visiting there. Mr. Ira Winn, whose efforts to establish a first class machine shop in Portsmouth were worthy of material aid and better success, has now a fine establishment in Portland, and we were glad to see is doing well. Mr. Augustine Dunyon also has a handsome watch and jewelry store, and is flourishing. Messrs. Allen & Hiram Freeman are fitting up a new and extensive oyster saloon. Mr. James Freeman has been located here for several years, in the bivalve business; and Mr. Daniel Senter in the watch trade.

Rev. H. D. Moore we never saw looking so well. His popularity is as great with his new people as ever it was elsewhere.—The Union Church is a splendid edifice and is filled to overflowing by regular attendants. The experiment of congregational singing, under the guidance of a leader who stands near the organ, is in every way successful and satisfactory.

The newspapers of Portland are three large dailies—two Republican, the Advertiser and State of Maine, and one Democratic, the Argus; and three weeklies—the Mirror, Transcript and Journal. Each of the dailies also prints semi and tri-weeklies; making twelve different papers issued each week—which is not near so large a supply, relatively to the population and business, as Portsmouth has.

We saw little or no building or repairing of houses or stores in Portland. Portsmouth is having more done in this line, this year.

The train from Portland, Wednesday morning, as well as the trains we met, were crowded with passengers to the Camp Meeting at Kennebunk. The old and the young,—very old and very young, the grave and the gay, the halt and the almost blind, were there, in hundreds, perhaps thousands. May they all "get great good."

AN IRISH "SALUTE."—While Rev. Mr. Bacon, the Catholic Bishop of Portland, with Rev. Mr. Wheeler, of New York, and a party of Irish citizens were on an excursion in Portland harbor, Wednesday, an accident of a very serious nature occurred. As the clergymen and their friends were landing at the Island, those who were previously on the shore, gave them a salute with fire-arms; and in the firing, a gentleman from Boston, not being careful of his aim, and having a loaded pistol, lodged a ball in the shoulder of the Rev. Mr. Wheeler. The wounded man was immediately carried to Portland, where surgical attendance was procured; and on complaint of some of his friends, two officers were despatched to the Island, to arrest the stranger.—On obtaining an interview, and learning the facts, the officers were satisfied that the shooting was wholly accidental; yet as the gentleman courted an investigation of the affair, he was brought up in custody, for examination.

On the wharf where they landed the excitement was very great—a large crowd of Catholics having gathered there—and the officers were obliged to send for a carriage to convey the man to Marshal's Office. The excitement among the crowd was so great, Wednesday night, that the City Marshal thought the safest place for the man would be the lock-up, and he was placed there.

EXPLOSION OF DUPONT'S POWDER MILL. A terrible explosion occurred at Wilmington, Del. on Saturday. Alexis I. Dupont, assisted by seven workmen, was removing a large and heavy box from a building which had been used since 1812, as a powder house. The box coming in contact with the wall caused friction, producing fire, and an explosion followed, burning all hands in a shocking manner. Mr. Dupont leaped into a race near by; and while the others made efforts to extinguish the fire on their clothes, hastened to see if the press root had caught fire. As he approached, a terrible explosion took place, shattering the building to atoms. By the flying fragments, Mr. Dupont had his right thigh fractured, three of his ribs broken, and one of his lungs perforated. He was found among the ruins, and when taken up, gave directions to the persons present, to hasten and extinguish the flames.

On Sunday, at five o'clock, Mr. Dupont, Anthony Dougherty, and Edward Hurst, the foreman of the mill, were dead.

Louis Vache was mortally wounded, and John McClafferty and George Fisher were injured, but not fatally. The others escaped unhurt.

WORK STOPPED ON THE HOOSAC TUNNEL. The North Adams Transcript says that labor upon the Hoosac Tunnel has been suspended since the 12th inst., owing to the contractors not having received from the Troy and Greenfield Railroad the aid agreed upon, and being unwilling to use their private means in carrying on the work to any further extent, having already expended nearly $250,000. They have penetrated the mountain 1030 feet—720 feet from the eastern end, and 310 from the western end—besides having completed a heavy amount of open rock cutting in both approaches, and nearly prepared the road for receiving the rails to the State line. The report that gold had been found in the tunnel is a hoax.

☞ A Mr. French has brought an action against a man named Cloutman, in Dover, in which the plf. alleges that deft. sold him a vicious horse, representing him to be kind, whereby he suffered damage to we don't know what amount, but a pretty large one—sundry accidents having occurred by his evil propensities, in one of which, deft's wife was severely injured. There are a multitude of witnesses to examine, and the case will probably occupy several days.

At a baptismal ceremony in Portsmouth, Va., on Sunday week, a dozen spectators were immersed against their will, by the breaking down of a bridge.

THE ROCKINGHAM ASSOCIATION OF UNIVERSALISTS met at the Stone Church in New Market, on Wednesday morning.

Sermon in the morning by Rev. B. Lincoln of Abington, Mass.; in the afternoon by Rev. Mr. Colby of Amesbury, Mass.; in the evening by Rev. Mr. Shepard of Centre Harbor. A conference took place after the evening sermon, which was fully attended.

On Thursday at 6 A. M., there was a prayer meeting, fully attended. Sermon by Rev. Mr. Barrow, State Missionary.

On Thursday afternoon the sermon was by Rev. Mr. Cobb of Boston.

It was voted to hold the next Annual Meeting at Kingston, August, 1858.

It was voted to hold quarterly conferences—the next to be held at Atkinson, on the third Wednesday in October, and the following Thursday.

It was also voted to recommend the keeping up of public worship regularly on the Lord's Day, by churches and societies which have no preachers.

The audience at the public services was large and attentive.

There were a good number of ministers present, including the several pastors in Newmarket.

Henry Potter, U. S. District Judge in North Carolina, has filled that office for fifty-five years, and is now 91 years old.

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of Vocal and Instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.
Price, $1,50. For sale by
CHAS. C. HARVEY, Exchange Buildings.

The Franklin Democrat says that Widow Burns, who was recently tried in that county for selling liquor, made some pertinent remarks to the justice, at the conclusion of which she fervently prayed that his "Honor might never live to see his wife a poor widow, and obliged to sell rum to support the childer."

STOPPAGE OF MANUFACTORIES IN NEW HAMPSHIRE.—The cotton factories at Newmarket have suspended operations on account of the pressure of the times. ☞ Among the many preparations now in use for restoring, preserving, and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the United States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer to the innumerable certificates which have been sent by parties who have been benefitted by it, and who feel happy in giving testimony to its wonderful effects produced on them.—[Cincinnati Sun, Nov. 1st., 1854.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

SALE OF NEW PISCATAQUA SHIPS.—We understand that the new ship building by Samuel Badger, Esq., has been sold to Messrs. James N. Tarlton, Samuel Billings and others, and is to be commanded by Capt. T. M. Weeks, who also is a part owner.

The new ship at the yard of Messrs. Toby & Littlefield has been purchased by Messrs. Tucker and Stone of Wiscasset, Me.

☞ We learn that the Corner Stone of the new Custom House and Post Office Building in this city, is to be laid this (Friday) afternoon, between 4 and 5 o'clock.

MUNICIPAL.—*Thursday Evening, Aug. 27.*—In the Board of Aldermen an application was made by Samuel Treat for a brick sidewalk on Deer st. Granted.

Samuel G. Folsom asked leave to encumber Warren st. Granted.

Benj. W. Curtis applied for a crossing in front of his residence on State st. Referred to Committee on Streets.

Several citizens requested that the stone or stones at the corner of the pavement near the North Church, be removed, or the sidewalk be so graded as to remedy the obstruction. Referred to Committee on Streets, Roads and Bridges.

The Board of Aldermen accepted an invitation to be present at the laying of the corner stone of the new Custom House and Post Office, which takes place this (Friday) afternoon.

H. F. Wendell applied to hire the room now occupied by the City Missionary. Referred to His Honor the Mayor. Adjourned.

☞ The dancers should not forget that the first Firemen's Ball ever given in Portsmouth, comes off at Congress Hall this evening. No. 6 has charge of the affair, and all will be done up brown.

☞ Rev. Austin Damon is to preach at Hanover street Chapel on Sunday next.

ELOQUENT DISCOURSE.—Rev. Mr. Whiting of Portsmouth, preached yesterday morning at the Hammond st. Church, a discourse which, in brevity, cogency, power, elegant diction and eloquent speech, left a marked impression upon the audience of the abilities of the speaker. His theme was "the power of endless life" as it exists in Christ.—*Bangor Daily Union, Aug. 24.*

WASHINGTON, Aug. 26.—Gen. Scott arrived here this morning. He has been busy with the general Superintendent in making out a programme for the troops for Utah. They have decided that the Utah expedition shall proceed. It is not decided whether Gen. Harney or Col. Johnson will command the expedition. Gov. Walker is anxious to retain Harney in Kansas.

Dr. Forney of Tenn. was to-day appointed Superintendent of Indian Affairs for Utah.

The "Tableaux Vivans" given at the Fillmore House on Saturday evening (says the News) were very successful. The ladies' parlor was crowded with spectators. Among the illustrations was "Nothing to Wear." Another series of these "living pictures" is to be given this week.—Charming "pictures" those.

INTERESTING FOREIGN NEWS.

THE ATLANTIC TELEGRAPH CABLE is broken, and operations for the present suspended.

Her Majesty's steamer Leopard arrived at Portsmouth, on Friday morning, 14th, and reports that Atlantic cable was lost at quarter before four o'clock, on Tuesday morning, 11th inst., after having paid out successfully, 335 nautical miles of cable, and the last hundred miles of it in water over two miles in depth, and the greater part of this, at the rate of rather more than five knots an hour. At the time of the accident, there was a heavy swell on, the Niagara going at the rate of four knots per hour, and as the engineer found that the cable was running out in too great a proportion to the speed of the ship, he considered it necessary to direct the brakes to be applied more firmly, when, unfortunately, the cable parted at some distance from the stern of the ship.

The Agamemnon, Niagara and Susquehanna are to remain a short time where the cable parted, to try some experiments in the deep water of that part of the Atlantic (about 2000 fathoms), which it is considered will be of great value to the Telegraph Company, and then all go to Plymouth, England.

Although this unfortunate accident will postpone the completion of this great undertaking for a short time, the result of the experiment has been to convince all who took any part in it, of the entire practicability of the enterprise, for with some slight alterations in the paying out machinery, there appears to be no great difficulty in laying down the cable; and it has been clearly proved that you can successfully telegraph through twenty-five hundred miles of cable, and know that its submersion at a great depth had no perceptible influence on the electric current.

There is no obstacle, in laying down the cable at the rate of five miles an hour, in the greatest depth of water on the plateau between Ireland and Newfoundland. The experience now obtained, must be of great value to the Company, and it is understood the Directors will decide whether it is best to have more cable made and try again immediately after the equinoctial gales are over, or wait until another summer.

In Liverpool, an impression prevails that another trial will take place in October.

GREAT BRITAIN.—The House of Commons were engaged in protracted debates on the Divorce Bill, its opponents fighting against it, step by step, and the government equally determined in pressing it forward.

The subject of a railway to India, attracted attention, but the government refused to mix itself up in those projects.

The East India Company have despatched, or are on the eve of despatching to India, in all, seventy-two vessels, carrying about 27,000 troops.

INDIA.—Delhi had not fallen up to the 27th of June. The rebels had made several desperate sorties, but each time were repulsed with great slaughter. The city was reported full of sick and wounded, and the cholera prevalent.

Reinforcements had commenced reaching the British camp. The British force before Delhi is stated to be from seven to eight thousand Europeans and 5000 natives. The native portion of the force is proved trustworthy. The rebels have been dispersed at Alahabad, and the fort saved. The barracks at Cawnpore were closely besieged by the insurgents, but held out bravely, and reinforcements were marching to its relief. The whole of Oude had risen, but Sir Henry Lawrence with a small force, kept the enemy in check.

ST. LOUIS, Aug. 26.—The mail party met Col Sumner at Fort Atchison, en route for Bent's Fort. A few days previous Col. Sumner was attacked by 400 Cheyennes.—Col. S. routed and killed 9 of them, destroying their property and taking their animals. Gov. Robinson of Kansas has been tried and acquitted.

MOTHERS! MOTHERS!! MOTHERS!!! AN OLD NURSE FOR CHILDREN.

DON'T fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of Mrs. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians
Philanthropists, read their Effects,
and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.
Dr. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do this as they do the fact is worth knowing.
Yours with great respect, RS. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1855.
Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.
Fraternally yours, A. ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.
Dr. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with your Pills. Some of your Pills, which others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.
GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.
Dr. AYER: I have used your Pills with extraordinary success in my family and among those I have called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Physician of Merit in St. Louis, Feb. 4, 1856.
Dr. AYER: Your Pills are the paragon of all, that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her neck was also much swollen, and by afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ADA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Bloss of the Methodist Episc. Church
PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my right side and shoulder, and produced neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, for three months, I was a confirmed agent in Baltimore, Dr. Mackenzie. I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SEVERE CHEMICAL WOUNDS, Burns, La., 5 Dec., 1855.
Dr. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are a novel and sure remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, even **Deafness and Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in the hands of a physician, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,
and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of the severe pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its powers, or that of their neighbors and acquaintances, or some one among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. Where is the at least powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, if is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral administered from the first symptoms it prevents than those it cures. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the incurable tenant that fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and so they know too the virtues of this remedy, we need not depreciate to secure sale, it still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to perform and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland Lotteries are legitimate by special law in that state. A lottery is drawn every day of the month. If no particular class is named in orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received at the office. Theoretical tips are upon the principle of one number on each ticket (after the Havana plan), and Tertiary combination. Prizes are in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore. Also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day in the month, and no orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme, tickets range in price from one dollar upwards. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to puzzle the buyer. Schemes vary from $20 to $30,000; every prize being drawn, and a result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of prize to each entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Daily Register*, Louisville *Courier*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full, the percentage deducted from prizes as in other lotteries.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, Small Papers and Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of a Patent, and generally all legal and other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages not possessed elsewhere. The superior skill, patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered. Inventors will find Mr. Eddy has now given proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is the best PROOF of ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for the services rendered so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions, relative to patents. He has also an extensive library of legal and mechanical works, and full accounts of patents granted in the United States for upwards of fifty years, so that no question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to secure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure to them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ancor 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Lawrence's Carminative,
FOR
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

as it is the *only* Child's Medicine in this country; it enables to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often affect young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due care has been taken to have the price of the Carminative so low as to be within the reach of all. PRICE *only* 25 cents

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and will generally cure in two or three days. They are unusually mild in their effect, perfectly harmless, and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they regulate the Bowels, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and receive the money.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the United States and British Provinces abound in all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are these Pills recommended for the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they always produce miscarriage, but are warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

Female Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box 4,531, Post Office, New York City, will receive the box sent to their respective addresses by return of mail.

Morning Chronicle.

A NON-COMMITTAL CAPTAIN.—The Salem Register tells the following good story of a citizen by the name of Capt. Ward, who flourished in the municipality in days of yore:—

"Capt Ward was an eccentric of the first water, and one of his peculiarites was that he never gave the desired answer to a direct question. An amusing instance of this evasive habit is related. One morning, four of his friends, who were aware of this trait in his character, observed the Captain going to market, and after some bantering, entered into a bet, as to the practicability of learning from him the price he paid for his purchase. They accordingly settled the preliminaries, and stationed themselves at different points along Essex street, which he must pass on his way home, awaited his coming. Very soon the bluff old gentleman made his appearance with a bunch of pigeons in his hand. As he approached, the first questioner accosted him with: "Good morning Captain! What did you give for pigeons, this morning?" "*Money*," said the Captain bluntly, as he moved up the street. The second gentleman a little further on, addressed him and asked: "How go pigeons, this morning Captain?"—"*They don't go at all—I carry em!*" was the equally unsatisfactory reply. Shortly after he met the third, who passed the time of day and inquired: "How much are pigeons a dozen, Captain?" "*Didn't get a dozen—only bought half a dozen!*" said the old gentleman, gruffly, still plodding on his way. Finally the fourth and last of the conspirators cottoned to the wary old salt by observing, in the blandest of tones; "A fine lot of pigeons you have there, Captain! what did you get them for?"—"*To eat*," was the pertinent and emphatic rejoinder, and the Captain reached home without further molestation. If the pigeons did not take wing, the joke did, and has been handed down by tradition to the present day."

EDINBURG.—The Old Houses in Edinburg, Scotland, are thus described by a late letter writer to the Portland Journal.

From Holyrood, we passed at once to the Canongate, and explored some of the narrowest, darkest and vilest closes and wynds. It is almost inconceivable that human beings can inhabit such places.—Civilization in them, I think, is impossible. Long, crooked alleys—four, five or six feet wide—lined on both sides with tall houses, sometimes projecting as they ascend—and these houses packed with creatures in the shape of men, women and children, from the attic to the cellar, with no air nor light except the little that can find their way from the line of the sky which may in some places be seen at the risk of dislocating the neck in looking up.

Small doors open upon these filthy alleys, upon either hand, with narrow stone steps winding up, up to the very top. I boldly pushed into one of these, followed by my friends, one of them an Edinburg gentleman; and up we went, amid almost Stygian darkness and infernal smells; doors of numerous lodges opening from the stairs, right and left, as we went up. My friends recoiled in disgust unutterable, and almost in terror; but, refreshed by a breath of air from a broken pane in a small, murky window, I kept on, up, up, until there were no more stairs to mount.

In all heathendom, I think, there is nothing worse than that. In that beautiful city, the finest in all England or Scotland, a state of things is suffered to exist, which is incompatible with a Christian life, or with anything except barbarism.—When it is considered that none of these places have sinks, drains or sewers of any kind, except upon the surface of the stone pavement, some idea may be had of their condition.

All this beastly life is directly connected with the drinking habits of the people, for all their means are so entirely wasted in strong drink, that they are unable to make any effort to change their condition.

Everywhere among these wynds, closes, and narrow streets, are to be seen hordes of dirty, barefoot women and children, lounging around in groups, sitting upon the curb stone or upon steps, with nothing to do but watch for some mode of getting a penny with which to procure more of that cursed fire which destroys them, body and soul.

THE MINISTER'S CHOICE.—The unmarried and unengaged ladies were suprised at the minister's choice. It, however "made no difference to them, for they would not have had him." I could not help thinking that our minister showed great judgment in selecting at once the only one in the parish who would have had him; and I should have thought so still, had he not spoilt it all by telling my husband that it was with great fear and trembling that he made any advances, for he would have had more hope in proposing to any other unengaged lady in the parish. I saw, therefore, that it could not be any good judgment of his, but a wonderful providence leading him to the only one who would have had him.—*Congregational Journal.*

SCENE IN A GROG SHOP.—A well-known colporteur in a southern city, who labors faithfully among all classes, thus graphically sketches a scene in which he was an actor:—

"Went into a drinking house where were thirteen men.

"Well, gentlemen, any books for you, this morning?"

"No," was the reply; "I'll buy no books from a man that won't drink with us."

"Why, gentlemen," said I, "there is not a man here but would be as sorry to see me drink, as to see me rode on a rail."

"That's a fact, old gentleman; I would not sell you a glass of liquor for five dollars, no, not for ten dollars, for I believe you are trying to do good; and if you have any good book there, that you think I need, I'll buy it. Come men," said he, "come up, and let's buy the whole lot, and help along."

Here in the grog-shop, among decanters and demijohns and barrels, I sold an armful of books, gave each man a temperance tract, and left all in good-humor."

Touching hay caps, which are used by some of our farmers, the Maine Rural Intelligencer has the following remarks:

Hay caps are excellent protectors in short rains; but when the half-made hay has to stand several days in the cock, it will heat even worse under the caps than without them. Caps, therefore, have saved no hay that has been out a week.

Some people never cock their hay, they only *heap it up*. We are always vexed when we notice this method of doing the work. The rain runs directly into and soaks such "heaps." If hay is well cocked—that is, if it is put into sharp cones and raked down so that all the straws will lay like shingles on a roof, the rain will not penetrate the cock at all, and without a cap the air circulates through it, and cures it even without much sun. In England they have no sun; they cure it in the cock, and always have good hay.

The Manchester American says the Chinese Sugar Cane, or Sorghum, small patches of which have been planted all through New Hampshire, proves to be an entire failure so far as regards the production of sugar. In size it compares favorably with the common Indian corn, and will probably be superb for fall and winter use.—The season has been unfavorable by its unusually cool temperature. At the South and West the experiment is said to be more successful.

A collision occurred on one of the roads terminating in Boston, some time ago.—The road in question is celebrated for curvatures. The engineer was thought to be to blame, and accordingly, he was taken to task by the superintendent. "Yes," replied the engineer, "I saw the light, *but I thought that it was the other end of my train.*"

Morning Chronicle.

SATURDAY, AUGUST 29, 1857.

A COMPLIMENT.

A mean writer made a pitiful and unjust attack on the new Commodore, on his appointment of a clerk, and on ourselves, through a newspaper. This attack we criticized a little in last Monday's Chronicle.

And now the same writer, we perceive, in the words following, begins to see that he made his terrible barking up the wrong tree. He says:

That column in the Chronicle of last Monday is entirely satisfactory. We learn from it the important fact that the word *generally* does not mean *universally*!—*N.H. Gazette*, 29th.

Exactly so: it is a very important difference! And for want of making such a distinction, the mean writer, while he charged falsehood on others, really convicted himself of that great fault.

The difference may be clearly apprehended by an illustration.

The Reverend and venerable Lyman Beecher, well known as an orthodox preacher, several years ago wrote and published a statement something like this, viz:—That in his belief by far the greater portion of the human race would be saved;—so that the number of those incorrigible sinners who should be finally lost and shut up in the prison of hell forever, would not be larger in proportion to the whole—than the number of convicts in our State Prisons are, when compared with the whole number of inhabitants in our populous country.

Dr. Beecher may therefore be fairly set down as believing in the *general* salvation of men; because it is a fact that our people *generally* do not go to the State Prison.

The Reverend and venerable Hosea Ballou, now deceased, equally well known as a universalist preacher, maintained, in preaching and writing for half a century, and to his death, the doctrine that the final issue would be the reconciliation and salvation of all men—in other words, that men *universally* would be saved.

To those who have heard both the men preach, or read their writings, the distinction is sufficiently broad; and in our view it would not be quite fair or true to call Dr. Beecher a *universalist*, but perfectly fair to give Dr. Ballou that appellation.

So, when we said, in view of the new Commodore's offer to reinstate the old and well qualified clerk, that his acceptance and consequent return "would be a subject of congratulation to a very large circle of friends and the public generally,"—we only uttered a general sentiment and literal truth. The *exceptions* of the mean writer and those like him, would hardly be more numerous in proportion, than are the convicts in our State Prison, or in Dr. Beecher's estimate.

☞ Gov. Robinson, of Kansas, has at last had his trial for usurpation in the matter of the Topeka government: but, though the jury was made up of the "border-ruffian" party, they were unable to convict him. The judge charged heavily against him, and the jury were at first divided, but the case not being proved, they finally brought in an acquittal.

☞ Mr. Wheeler, the Catholic Priest who was shot while at the Islands, in Portland Harbor, on Wednesday, is in a very comfortable condition. The ball has not yet been extracted from his shoulder. He is satisfied that the affair was an accidental one.

A trotting match came off, Wednesday afternoon, on Ling's course at Scarboro', between the black mare "Rats" and grey horse, "Wake up Jake." The match was for $500 a side, best three in five mile heats. It was won by Rats in three straight heats. Time, 2.51; 2.46; 2.51.

☞ Rev. Lothrop Taylor has been dismissed at his own request, from the Congregational Church in Francestown, and has removed to Bloomington, Illinois, to be a pastor there.

A Paris correspondent states some new facts in relation to M. Charles Thurnyssen, whose failure and flight took place in May last, and who has been thus far screened from capture. It appears that his debts amount to £640,000, while his assets at the best will not exceed £60,000. For ten years he had been insolvent, and for seven he had been regularly plundering his clients.

☞ The New York Independent contains a list of 46 failures, several of them large, —they are mostly in New York and the West.

☞ J. G. Blaine, of the Kennebec (Augusta) Journal, has taken the editorial charge of the Portland Advertiser.

☞ Mrs. Gardner, mother of the late Hosea Gardner, Postmaster of Hingham, (who died from poison, for the administration of which his wife was arrested,) died at Hingham, on Monday last. She has been in failing health ever since the tragical death of her son. Mrs. Gardner was in attendance upon her son in his last sickness, and was the first person to suspect that he had been poisoned, and soon after the utterance of her suspicion, she was ordered from the bedside of her son, and otherwise harshly treated. She was an important witness for Government in the case against her daughter-in-law, whose trial is about to take place at Plymouth. The testimony of the doctor in attendance, will, however, in part supply the deficiency in the evidence, caused by her death.

Ever since the death of her son, Mrs. Gardner has had apprehensions that she might have imbibed poison in tasting the drinks of her son, but her physician was unable to detect any symptoms which would lead him to suppose that she was suffering from poison.

The trial of Mrs. Gardner, Junior, has been assigned for the 8th of September, when there will be a special session of the Supreme Court, at Plymouth.

LOWELL ITEMS.—The Lowell News of the 27th, says: Yesterday the body of a man was found resting against the flash boards of Richmond's dam on Concord river.—Coroner Shed decided an inquest to be unnecessary, as it appeared that the deceased was Jeremiah Edds, who fell into the river, on Saturday night, while laboring under insanity, supposed to be produced by intemperance. The deceased, who has received a part of his support from the city, left a wife and three children, and was 54 years of age.

In the Lowell Police Court, Josephine Miller, for passing a counterfeit $5 bill on the Lee (Mass.) Bank to a millinery store on Merrimack street, was ordered in $500 to the C. C. P.

One evening last week, some $60 in these Lee bills were passed in Lawrence, and a part of it by a female, though not this prisoner. Josephine Miller bails from Endicott street, Boston.

Patrick Boyle was charged with maintaining a nuisance, to wit, a liquor shop; held in $200 to appear on Saturday.

☞ The Nashua Oasis of this week says there are twenty-nine inmates of the Poor Farm of that city, of whom nine are confined there for a term as a penalty for drunkenness and vagrancy—that the hoop fashion among the ladies of that city is subsiding—that the ridiculous fashion of pert girls walking the streets with great flaring straw hats, and dresses showing any amount of spindle legs, ought to ashame their mothers—that once a fortnight is often enough for young men to go a courting—that to make the times easy, every family in moderate circumstances must dispense with furbelows on the part of the women, and beer, tobacco, &c., among the men and boys. Let a barrel of flour be saved which now goes to the swill tub, or is made into "sweet cake" and other bad bread—make expenses come down to the measure of real necessities, and most people now complaining can bid defiance to hard times and heartless speculators.

For at your time of life
The heyday in the blood is cool.

Captain Thomas Hill of Gouldsdoro', Me., in his 77th year, has worked at haying this season. At mowing, raking, &c., he kept up with the other men in the field, and was paid the usual wages of haymakers.—Mr. John Preble of Sullivan, Me., 90 years old, has secured the quarter part of his hay unaided by any other man. He is so infirm that when mowing, at each step he is obliged to rest his snaith upon the ground to support himself to step by.—Mr. Aaron Eaton, of South Hampton, N. H., 89 years of age, visited the Salt Marsh on Friday and raked up two tons of hay.

"The *hay*-day in *their* blood" don't seem to cool off very fast, at any rate.

☞ A correspondent of the Boston Journal says, that for several Sundays past, there has been an effort, unusually vigorous, made to close the liquor shops and bars, in New York, and with considerable success. Even before this movement, the great hotels were not in the habit of keeping bars open on Sundays, [?] but guests were, and still are, furnished in their rooms, with the means of potatory fortification.

A CONVERTED JEW.—The conversion of a Jew and his public baptism, are events of rare occurrence. At the Camp Meeting at Wesleyan Grove, on Monday, a Jew made a public profession of his faith in Christ, and was baptised.

EXETERIANA.

EXETER, Aug. 28.

Dear Chronicle:—Whether newspapers are always faithful representatives of the localities in which they are published, is a difficult question to answer; but it is quite certain that street-posters occasionally shoot beyond facts in their eagerness to give the public information. Big type and a broad area of paper, at the corners of our streets, conspire to announce that somebody has a lot of clothing to dispose of; and "tremendous excitement" stares each passer-by in the face. For the honor of Exeter it may be stated that, in hot weather especially, our people are not in the habit of getting tremendously excited in regard to such trivial affairs as clothing; and when, too, "Nothing to Wear" is all the rage.

A Chinese-looking poster, which must be the first specimen of some devil's (excuse us—the printer's imp, we meant,) handiwork, informs the world at large that "G. G. G. G." (Goodwin's Grand Glittering Globules) are round! Wonderful, that globules should happen to be of such a shape. Perhaps it means that the Gs are used around town; if so, of course they must prove efficacious in all troubles, from the toothache to the small pox.

For the last month there has been a great deal of travel from here to Rye and Hampton Beaches. A stage coach which runs regularly to the latter, is almost always crowded with passengers; and private carriages without number are to be met with daily on the Hampton road. Several parties from here have gone 'down to the sea,' not in ships, but in great four-horse teams. On Wednesday one of our town schools passed a pleasant day at Hampton Beach.

The ladies of Exeter, who are always ready to lend a helping hand to those who need it—rather a broad statement for an old bachelor to make, but we hope it will not be misconstrued—gave a second Promenade Concert at the Town Hall, on Wednesday evening, for the benefit of the Cornet Band. The Band have lately procured a new uniform, of neat appearance—gray coats with red facings, and blue pantaloons. The Concert was quite an *impromptu* affair, yet everything passed off well, and $100 was netted.

About half after eleven o'clock, the same night, (Wednesday,) an alarm of fire was raised, and men and boys began to run with the "mashees" to the scene of action. It proved to be a barn, belonging to Mr. John Haley, a mile and a half from the village. It was totally consumed, together with several tons of hay, a lot of ploughs, and other articles. Loss nearly $1000, on which there was no insurance. It may be said of the engines of the town that they are prompt when duty calls, which is generally about once in two years. A young man, over sixteen years of age, was arrested on suspicion of having fired the building; but nothing being proved against him, he was released.

The new jail to be built here is located a few rods from the railroad, about half a mile northerly from the depot. It is to be well built of brick, and is expected to be completed by December next.

The Band contemplate making a visit to the Lake this season. The Happy Man was in Exeter last week. He is delighted with the place. That flea he mentioned in his letter to you, must be related to the "wicked flea," or the "widow's mite," spoken of in the good book. Yours, P.O.

It is rumored that Dr. Catlin has made some important disclosures in relation to the first husband of Mrs. Cunningham.

A painter named Noyes got drunk in New Bedford, on Wednesday, while drawing a child in a baby carriage, and upset the vehicle. The police sent the child home and took the man to the watch-house, where he was taken with convulsions, and his wife was allowed to help him home.

The Southern portion of the New School Presbyterian Church, dissatisfied with the action of the General Assembly recently held at Cleveland, Ohio, are to hold a Convention in Richmond, Va., to consider the course most proper to be pursued by them, under the circumstances. There is no doubt but they will disconnect themselves entirely from the above named Assembly.

Mrs. Cunningham is preparing her petition for an appeal from the Surrogate's decision to the General Term of the Supreme Court—for which she is allowed to Sept. 23. She complains that her confinement in the Tombs is wearing her health away—that she begins to suffer from dropsy.

On Sunday evening, Mrs. Mary Parker, residing on Pond Road, Staten Island, was burned to death by the explosion of a fluid lamp, which she was imprudently filling while lighted.

Two colored men, named Washington Good and Edward Collins, were so shockingly burned in a canal boat at Harrisburg, Pa., on the 23rd, that they died soon after they were taken from the boat. It is supposed that the boat was set on fire.

John Poole, the sheriff and jailor of Cecil County, Maryland, has been arrested on the charge of kidnapping and selling at Richmond, a colored boy named Talbot.

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. No family should be without these Powders. One, taken in the first stages of the disease will almost invariably check it. They are perfectly safe and effectual. For sale by J. H. Thacher and Wm. R. Preston. aug25 3w

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

☞ The unpleasant weather of Friday put rather a damper on the parade of the Firemen; but the programme was gone through with as well as circumstances would allow. No. 6 Company, Atlantic, was out, with the Band, and made a day of it; but were obliged to get along without their intended guests, the Meredith and Dover Firemen, who did not arrive until half past 6 o'clock in the evening.—The schooner in which they started from Dover on Friday morning, could not well get down against head wind and tide; and therefore they returned to Dover and landed the passengers: from thence they came to Portsmouth by railroad, and were received by the Atlantic boys. The capital Supper at the City Hotel—which came off about 8 o'clock— was enjoyed by the Sixes and their guests; and the Ball passed off well. We may have a word to say of both, hereafter.

The Manchester Cornet Band, one of the best in New England, accompanied the Lake Village Company; and gave our citizens another "touch of their quality."

☞ There was current, at one time, among the rumors about town, a story that the new Custom House Building could not be located on the site designed, (and now made sure,) on account of the difficulty of reaching a 'foundation.' We are now told by the contractors that the foundation is excellent—better even than that of the Capitol at Washington; and the wall is laid on clay, only a couple of feet or so below the cellars of the old Piscataqua House—say ten feet from the surface.

☞ The Corner Stone (or first stone of the foundation) of the New Custom House, was laid on Friday afternoon.—The Mayor, Aldermen, and City Marshal, of the city of Portsmouth, were present, and a large number of men and boys, as spectators.

Engine Co. No. 6 was in attendance, with the Band, and a portion of Engine Companies No. 4 and 5.

Remarks were made by His Honor the Mayor, and Albert R. Hatch, Esq., president of the City Council, who is also U. S. District Attorney, and Disbursing Agent.

Copies of the City papers, with other documents, were deposited in an aperture in the stone, as usual.

Refreshments were furnished by the contractors, to their friends, after the ceremony.

PORTSMOUTH CORNET BAND.—"Our new Band" is getting to be immensely popular even "in their own country." Their outdoor evening Concerts, on Market Square, attract and gratify a large crowd; and probably as many more listeners enjoy the music while staying at home. That they play admirably,—astonishingly well, considering the short time they have had for practice, is the remark of all who hear them.

Their instruments are as good as can be had, and are much nicer than most bands are furnished with. We heard an outdoor concert in Portland, a few evenings since, by Chandler's Brass Band, which enjoys a wide celebrity, and has visited Portsmouth on several occasions—for six of which concerts they receive $700.—Though this band plays finely, yet we could not see that they have improved a whit since we first heard them—several years ago; and the difference between the quality of their instruments and those of the Portsmouth Band, was very apparent.

As one of our city papers has found some fault with the manner in which the Band have been enabled to pay for their instruments, it may be worth while to state that it was the intention of the projector of the enterprise, to have the instruments owned by the City or by a corporation formed for the purpose; so as to render the band a reliable, permanent organization, as it could not be if the instruments were the property of those who play them. The original subscription for this object, and all subsequent funds, have been gathered with this understanding.

We think our citizens and the city government have treated the Band liberally; and have no doubt both will continue to do so, so long as they shall continue to merit favor, as richly as they have thus far. The Portsmouth Cornet Band must henceforth be one of our "institutions."

☞ Don't forget to attend H. F. Wendell's sale of Furniture, Glass and China Ware, at the Auction Store, State street, this day, at 10 o'clock. Sale positive.

Also, sale of Furniture, &c., at City Sales Rooms, Congress Block, at 10 o'cl'k.

☞ The Portsmouth Association of Baptists will meet at Brentwood, Sept. 2.

☞ B. P. Shillaber, Esq., writing from the banks of the Piscataqua, in the columns of the Boston Gazette, says—"the river I regard as sort of wet nurse of my childhood, whose broad breast has borne me for many an hour in the early days of my life."

☞ Dr. Hazen, "the real medicine man," an Indian student from the Flatbot tribes, is here at the City Hotel, where he will tarry for three weeks. He describes to the sick their true feelings, and warrants his medicines to effect speedy cures, where all others have failed, and where all hope has departed;—save in certain degrees of, vital extinction which is rarely met with. Invalids, call and see him. a28 1w

NEW YORK, Aug. 27.—It is rumored that the passenger boats of the Michigan Southern Railroad line, on Lake Erie, were attached at Buffalo this afternoon by the sheriff, for $160,000.

The failure of Miller & Curtis, the publishers of Putnam's Magazine, has led to the consolidation of that popular Monthly with Emerson's Magazine, and the joint concern will hereafter be issued under the title of Emerson's United States Magazine, and Putnam's Monthly. The new issue starts in October, with upwards of 40,000 subscribers.

The steamer Constitution of the Belgian line, and the City of Washington, of the Liverpool line, the latter now in this city, have been chartered by the British Government to carry troops to India.

Financial matters to-day are more tranquil. Jacob Little took his seat again at the Board of Brokers. It is rumored Chambers & Heiser have suspended; they are largely engaged in the California and India trade.

WASHINGTON, August 27.—A deputy U. S. Marshal, of Alabama, having taken nearly $5000 from Lovelace, who robbed the mail in 1855, and refusing to restore the money to the several owners, on the ground that they had not sufficiently identified it, the subject was refered to the Attorney General, who, has, after reviewing all the facts, decided that the Marshal must deliver it to the Postmaster General, who, by law, is the trustee for losses in all similar cases.

The President has appointed Beverly Tucker, of Va., consul at Liverpool, vice Nathaniel Hawthorne resigned; Henry W. Spencer, consul at Paris, vice Mr. Rao, resigned; and John Endlich, of Pennsylvania, consul at Basle, vice Lee, deceased; Chas. J. Fox, of Michigan, consul at Aspinwall, vice Thornton, resigned; Ernest Volger, of Virginia, consul at Barcelona, vice Pablo Anguera, the present incumbent; and Jacob Forney, of Pennsylvania, Superintendent of Indian affairs for Utah.

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of Vocal and Instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

A TEMPERANCE MELODY.

BY R. B. U.

I will not drink! I will not drink!
I'd have you all to know
That brandy blossoms on my nose
Shall not have leave to grow.
The youths are drinking all around
Of julips, wine and sling;
But not a drop shall touch my lips,
I will not drink, no, no.

I will not drink! I will not drink!
I'm now past twenty-one,
And though I'm fond of freaks and sports,
I do not like such fun.
Some boys are drunkards past reform,
Before they're seventeen,
But I have never yet been drunk,
I am not quite so green.

I will not drink! I will not drink!
It makes a man act queer,
And though the world may smile at him,
'Tis always with a sneer.
I'm not the dullest man in town
If laughing's any sign;
For few are merrier than I,
Although I drink no wine.

I will not drink! I will not drink!
I know the reason why,
Because the folks who drink the most
Insist they still are dry.
I've tasted brandy, gin and rum,
Champagne and Port wine too,
And tried by them to drive off care,
But only felt more blue.

I will not drink! I will not drink!
I'll never learn to swill;
Those youths who drink with ease a quart,
First learned to drink a gill.
"Tall oaks from little acorns grow,"
So little drams grow big,
The boy who now can only sip
Will soon know how to swig.

Some musical publisher or teacher once wrote or said "that the art of playing on the violin required the nicest perception, and the most delicate sensibility of any art of the known world." Some country editor, in commenting on it, says—"The art of publishing a country newspaper and making it pay, beats the art of fiddling, higher than a kite."

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control *over* but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SEROUS INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires means to effect adhesion to the point of a quill dipped into a solution of it, to affect the entire system.

"Of its virtues I relate, the enlightened community, and not the discoverer, must be the judge."

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fawsett & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $1, halves, $2; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and there is single than quarter tickets to accommodate them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000, the prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

☞ Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, England, France, Belgium, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed in the most careful, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Inventions, Improvements,—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded in Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for connecting business, or ascertaining the patentability of inventions, improvements, that not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given are from those who have BEEN PERSONALLY AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ABILITY, the following, I think, will be found add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The extensive practice of his subscriber for the twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, which have, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond all question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, saving the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, E. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and few were one who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in recommending to inventors that cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ancoer 17, 1855.—During the time I have held the Office of Commissioner of Patents, R.H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

MARRIAGE GUIDE,

YOUNG'S GREAT PHYSIOLOGICAL WORK, The POCKET ESCULAPIUS, *or Every One His Own Doctor*, by WM. YOUNG, M.D. It is written in plain language for the general reader and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr WM. YOUNG, No. 152 SPRUCE street, below Fourth, Philadelphia.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is composed, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incidental to teaming and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

One regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents*

Parents who raise rest should not fail to buy a bottle, as they may depend upon its giving relief to worrisome children.

Sold by country traders and all Apothecaries throughout the United States and Canada.

The Medicine THAT NEVER FAILS!

IN DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharge.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere. There is no other one offered to the world as a PERFECTLY SAFE AND EFFEDITAL MEDICINE, for the purpose they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the wasting of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils, as all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted *perfectly safe*, and free from all injurious or injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4 631, Post Office, New York City, can have them sent to their residence addressed by return of mail.

ELEGANT MONUMENTS.—A letter writer for the Bee, thus describes some elegant monuments in the Greenwood Cemetery, Long Island, N. Y.

Among them is the elegantly wrought pile that contains the ashes of Miss Canda, (the daughter of a French gentleman of N. Y.) the story of whose sudden death may not be familiar to our readers. This young lady, at the age of 17, was riding in company with her father, when the horses attached to the carriage took fright and ran some distance with her, throwing her out of the vehicle, at last, upon the pavement, and killing her instantly. She had conceived, while at school, the idea of a magnificent sepulchral monument, the design of which she originated and eventually perfected the drawings of—intending it for the grave of a deceased relative to whom, in life, she had been strongly attached. The drawings were found in her portfolio, after the accident which caused her death, and her parent caused the magnificent work which his child had conceived for another, to be carried out to completion, (at a cost of $36,000); and, in the vault beneath its superbly sculptured walls, he placed the remains of his cherished daughter, who projected this exquisitely beautiful pile—*par excellence* the admiration of every visitor to these consecrated grounds.

A short distance beyond this splendid monument, there stands upon a graceful pedestal the sculptured figure of a man—the size of life—holding in his hands a quadrant, and in the act of taking a nautical observation." The head is surmounted by a round sea-weathered cap, and the figure is a very perfect representation of a well-worn mariner. I learned that this enclosure contained the family vault of one Capt. Carreje, a Portuguese by birth, a man of wealth long since retired from active life, who caused this figure, which is an exact counterpart of his own person, to be sculptured and placed upon this tomb, to mark the spot where he will lie, hereafter, (for the captain "still lives,") and which at this time he visits regularly every week.

While we tarried at this beautiful spot, a man over eighty years of age came up the path, and our guide immediately pointed him out to us as Capt. Carreje himself. His step was firm and elastic, and he appeared perfectly hale and hearty. He opened the gate, walked to the door of the tomb, passed into the vault, lighted a cigar, and sat down there to enjoy it as coolly as any gentleman would a siesta upon his own piazza, of a quiet afternoon! This eccentric being has no family or relatives in this country, we understand—except a wife—and he has erected this statue of himself over what is to be his tomb, and visits the place every few days to enjoy his cigar, as calmly and quietly as one could possibly pursue any amusement or diversion in life. Death has no terrors for him. He converses upon the subject of his age, his purpose in erecting this monument, his prospect of remaining in this sphere (at best) but a short period—for he is now 81 years old—and of the past and future, without affectation, and affirms that he is ready to depart whenever the summons shall come, for that bourne from which no traveller returns.

Love, the plague, and the small-pox, are often communicated by the clothing. That's a fact.

Miss Spalding's Classes.
MISS SPALDING proposes receiving a CLASS OF YOUNG LADIES for the study of the FRENCH and ITALIAN languages, and of a thorough course of HISTORY, to commence in September, and continue two terms, of four months each, two recitations per week,—$15 per term.
A French Class of very young pupils will be received on the afternoons of Wednesday and Saturday; they will be carefully taught a correct pronunciation, without much study being required. $5 per term.
Lessons will also be given in general ENGLISH STUDIES, either to classes or individuals.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which they are attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

MONDAY, AUGUST 31, 1857.

INDIA.

An intelligent missionary, Mrs. Crawford, writes from Balasore, India, May 30, to the Morning Star newspaper. She gives a little insight into the causes and progress of the rebellion.

She says:—"Many of the most wealthy and best educated natives have had meetings in Calcutta, at which they declared their attachment to the government in strong terms, and their readiness to aid in maintaining its power. At some places some of the sepoys have even given up their mutinous comrades to justice. Such ones are rewarded and honored by government. Who knows where all these disturbances will end, or what is their true cause? The Santal insurrection was nothing compared to the present trials.

It is said to be just now a hundred years since the British gained a footing in this country, and some say that a prophecy has been uttered that now their reign shall cease. Others say a prophecy to this effect has gone abroad: 'that when Oude and some other territories have been annexed, India will become Christian;' hence the natives fear their religion will go unless they conquer the English. Some time ago a new kind of paper was given the sepoys for cartridges. A while after a man wished to borrow a botah of one of the sepoys. He refused to lend it, saying, 'I know not what caste you are.' The man tauntingly replied, 'Of what caste are you? You bite off paper every time you load which contains beef tallow.' Soon after this it was reported that government was trying to deprive all the natives in the army of caste. The Hindoos found their cartridges contained tallow, and the Musulmen learned that theirs contained lead! 'What a great matter a little fire kindleth!'

You may ask if your missionary brethren and sisters are suffering from fear. I will answer for one, and she is not afraid. Though I know the natives might with the greatest ease make every white face black in death, I do not suffer from fear. If the Lord is not going to give up this country again into the hands of the heathen, the insurrection, no doubt, will soon be put down; but if in his eternity-deep wisdom he sees fit to let the heathen again rule, many lives which we consider valuable will be destroyed. Even if the British maintain their sway, much precious blood may be shed. I pray that He in whose hands my life is, will prepare me to die when he calls, and until then, and *then too*, save me from tormenting fears."

An English missionary woman in Calcutta writes thus:—"The report has spread among the common people that government is about to make Christians of all. The idea of the way in which it is to be done is supremely ridiculous. They say that government is to compel all the people to sell to it whatever rice they have.—When it has thus got possession of the rice, it will open its own shops and sell the rice at the rate of four seers to the rupee to the Europeans, and two seers to the natives.—The natives will not be able to buy at this rate, and therefore will be forced to eat of the leavings of our tables, and so they will become Christians!! Our government has, I think, been blameably indifferent to the conversion of the people, and yet this idea has become firmly rooted in the minds of the natives. Is it not odd?"

The London Times lays much of the blame for this rebellion upon the shoulders of Col. Wheeler, of the regiment where the insurrection broke out first. Col. Wheeler constantly endeavored to convert the heathen sepoys under his command to his views of christianity; and the Times considers this the leading *occasion* of the outbreak, while the true *cause* of it is the superstition of the natives and their hatred to all "outside barbarian" religions.

THE EMANCIPATION CONVENTION AT CLEVELAND.—At the second day's session, according to the New York Herald, a series of resolutions were introduced, the principal of which was one proposing to make the general government the agent for the people in emancipating the slaves, and that each State should pay $150 for each slave; and further that each State should pay the slaveholders $75 for each slave emancipated—the latter sum to be raised by a land tax, and the former by government bonds.

The convention adjourned on the 29th. A National Compensation Emancipation Society was organized, and the following officers chosen:—President, Prof. B. Silliman; Corresponding Secretary, Elihu Burritt; Treasurer, Robert Lindley Murray.

KIDNAPPING.—A colored woman named Anna Brown, was convicted at Lancaster, Pa., last week, of abducting a mulatto girl named Mary Adelaide Jane Bailey, from her home in Philadelphia, to Lancaster, and attempting to sell her.

This border-ruffianess was only making a practical application of the Dred Scott decision, *as she understood it!* If Slavery is a blessing she was doing the girl a kindness; if it isn't, what depraved rascals those must be who think it ought to have a chance to extend itself into Kansas.—*Lowell News.*

A MINISTERIAL MISHAP.—We hear of an incident in connection with ministerial exchanges that occurred on Sunday week, of a rather unusual character. A minister from New York was engaged to supply the pulpit of the Park Street Church, and had prepared beforehand a manuscript copy of his sermon. Upon his arrival in the city, late on Saturday last, he discovered to his dismay, that his sermon was missing, having, probably, been lost in some way on the road. Being unwilling to preach before such a congregation extemporaneously, he notified the deacons of his mishap, and they, with some difficulty were enabled to obtain in season, a substitute, who, probably, was able without trouble, to draw upon his home supply for a sermon.—*Boston Paper.*

In training this man for his profession, he should have been taught to speak without paper, so as never to be non-plussed in this fashion.—And *such an audience* as that at Park street, would listen as patiently as any in the land, to a good off hand talk of half an hour. The young man was too easily frightened.

THE SOUTH DANVERS MURDER CASE.—Nicholas Barrigan, who committed the murder in South Danvers, on Sunday morning, was taken before the Police Court in Salem, Tuesday forenoon, but waived an examination. Barrigan was re-committed to jail, and the witnesses, of whom there was a large number present, were ordered to recognize, to appear in Lawrence on the second Tuesday in October, at the session of the C. C. Pleas, when the Grand Jury will examine the case.

The name of the murdered man was Fitzgibbon—not Givens as he was commonly called—and he was a cousin of the person at whose house the Christening took place. His sister, a young and fine looking girl—dressed in mourning—was present in the Court, and was terribly excited when she saw Barrigan. "There you be, you divil," she exclaimed several times; "take your eyes off of me!" "Oh, if I had a knife," she cried, stretching out her clenched hand, "I would stick it in your heart!" It was with considerable difficulty that she could be quieted. Barrigan looked pale, but answered firmly, and maintained quite a stoical demeanor.

THE CASE OF INCEST.—A correspondent of the Salem Gazette says that Mrs. Goodrich, wife of the man who is in Newburyport jail for incest, states that her daughter has run away with a young man to be married, and that the complaint against the father was made in order to prevent his interference with their marriage. The young man was the complainant in the case.

BEWARE OF QUACKERY.—The Clinton Courant denounces the advertisers of Cannabis Indica or Indian hemp, as a cure for consumption, on account of the seductiveness of the drug as an intoxicator. "It is a trap to draw the unwary into a habit that will enslave them to a deadly drug and quench their life, both of body and mind, in a most miserable and debasing self-indulgence."

N. H. STATE AGRICULTURAL FAIR.—The 8th Annual Fair will be held in Concord, Oct. 7th, 8th, and 9th. The address will be delivered by Gen. H. K. Oliver, of Lawrence, Mass. We learn from the Statesman that the citizens of Concord, will make unusual preparations, and should the weather be favorable, the display of vegetables, grains and stock will surpass that of any previous exhibition.

☞ A correspondent of the Salem Gazette says that Mr. Henry Long of Topsfield, Mass., beats all in the hen line. He gave his old hen (all the fowl he keeps) twelve eggs, and she brought out fourteen chicks, and left two bad eggs; and what is strange, there were six cocks and six pullets, and they are all doing well.

☞ A five mile trot for $200 a side over the Union Course, in Lynn, came off on Tuesday, proving one of the most exciting ever witnessed in that locality. The white mare "Caddie" of Salem won against Sydney B. Pratt's roan horse "Frank"—time 14m. 48s. The roan was about one-third of a length behind when passing the pole. The best time made was 2.51 a mile.

☞ The Washington Union says that Messrs. Chapman & Co., of New Hampshire, have leased the National Hotel establishment, and are now engaged in overhauling and thoroughly renovating it, with the view of soon opening it to the public.

☞ Major Ward Marston has taken charge of the Marine Barracks at Portsmouth, Virginia, vice Major James Edelin, who has been transferred to the command of the Marine Barracks, at Washington.

☞ Gov. Gardner of Massachusetts has come out in a speech against the nomination of Mr. Banks to succeed him; and expresses himself ready to make the sacrifice of being nominated for re-election.

☞ The City Marshal of Nashua has put a stop to the peddling of pigs in droves on Railroad Square, in that city. We think our Market Square has been used as a piggery long enough.

☞ A block is being taken from the marble quarry in Brunswick, Me., for a monument to Rev. Hosea Ballou, about to be erected in Mount Auburn.

☞ New Catholic churches are to be built forthwith, in Nashua and Great Falls, N. H.

LYNN.—The News relates a singular adventure of a horse belonging to a Mr. Leary in Woodend, which, on Saturday last, while feeding about the premises of the owner, stepped on the covering of an old well, and the boards being decayed, his hind feet broke through. He was left hanging by his fore feet, with which he clung to *terra firma*, while his owner ran for assistance; but gradually slipped, till he fell, a distance of *thirty feet*, to the bottom of the well! There was but little water; and there he sat, occasionally looking up, as if wondering whether the recent performances were "in the bill." At length a man ventured to go down to his assistance, tied his feet together to prevent his struggling, and fastened a rope around his body. The horse sat very patiently through all these preparations, and was finally drawn up safely, and released, when he resumed his feeding, as if nothing unusual had happened. He is a valuable animal, and the owner overjoyed that it was so *well* with him, manifested his satisfaction by treating the crowd which had assembled.

Late Saturday night, 22d inst., a servant girl in the Woodruff House, Watertown, seriously frightened another girl who was passing through a dark alley, by suddenly springing upon her. The frightened girl fell senseless, and it was at first feared she would never recover, or, if she did, only to become an idiot, but prompt medical aid averted the calamity, though she is now confined to her bed.

The spurious wines of Oporto, recently seized by the Portuguese government, were made of molasses, alcohol, and some coloring substance. Thousands of pipes of this mixture have heretofore been sent to England, to the Continent, and elsewhere.—The wine lately confiscated in Paris was made of water, alum, and elderberries.

SUGAR.—Immense quantities of this article are stored in Cuba by the planters, who are holding on with the hope that an early frost will destroy the Louisiana crop and keep up the price in our market. If the frost keeps off to an average date, these creoles will meet with tremendous losses—they will lose their sugar, and upset their coffee, too.

"Much remains unsung," as the tomcat remarked to the brick-bat when it abruptly cut short his serenade.

PARTIAL DEAFNESS

AND DISCHARGES FROM THE EAR.

Dr. Hartley begs to announce to those of his patients with whom he has been in communication, that he has, in compliance with their special requests, made arrangements to establish his Ear Institution in New York:—and he generously offers to attend all persons suffering from affections of the Ear, without charge, until cured—thereby proving his success unequalled, and protecting the deaf from being swindled, by paying self-styled Aurists exorbitant fees in advance, and the infliction of still more serious evils, by permitting the application of dangerous remedies by inexperienced and unskillful hands.

Dr. H. may here state that he has no connection whatever with any person advertising to cure deafness; neither did he give permission for the publication of a certificate, purporting to emanate from him; and cannot, therefore, be responsible for any alarming consequences resulting from rashness and deception. The loss of money may not be material to some persons, but the deprivation of one of the most important senses, ought to be regarded and treated with more than ordinary solicitude.

Deafness, noise in the head, and all discharges from the Ear, speedily and permanently removed, without causing the least pain or inconvenience. A cure in all cases guaranteed where malformation does not exist.

Thirteen years' close and almost undivided attention to this branch of special practice, has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed.

The destruction, by fire, of the Philadelphia Ear Infirmary—of which Dr. Hartley was the head—having released him from his duties in that city, he has established permanently his Institution, for the exclusive treatment of Ear Diseases, at 760 Broadway, New York.

Consultation and Examination each morning.

AN ODD SHIP.—The Philadelphia North American traces the history of the ship Rebecca Sims, lately sold to Messrs. Tunney and Tripp, of Fairhaven, as far back as the war of 1812, when she was captured by Sir James Lucas Yohe, of the British frigate Southampton. She was built by Joseph Sims of Philadelphia, and named for his wife. After her capture she lay at Jamaica a long while, but afterwards got back to Philadelphia, and was in the Liverpool trade until 1823, when she went into the whaling business.

In the Catholic church, at Putnam, Indiana, on Sunday, a collection was being taken up, and when the priest came round, an Irishman handed him a quarter. The priest threw it in his face, and demanded a dollar. The Irishman made no reply, but knocked him down, and the services of the day concluded in confusion.

Mr. G. R. Gourd, agent of the Anglo-American Mills, was drowned at Sanbornton Bridge, N. H., on Tuesday. He attempted to cross the river in a boat, in company with another individual, and both being ignorant of its management, it went over the dam. Mr. Gourd leaves a wife and child.

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—"When we recollect the virulent opposition to the introduction of vaccination, and the fatuous manner in which even the most eminent medical men shut their eyes to its wonderful life-saving operations, we ought to be careful how we reject Dr. C.'s New Discovery without a fair trial."—*Kingston Advertiser*, (*Canada.*)

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. No family should be without these Powders. One, taken in the first stages of the disease will almost invariably check it. They are perfectly safe and effectual. For sale by J. H. Thacher and Wm. R. Preston. aug25 3w

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

WASHINGTON, August 27.—The Secretary of War received intelligence that a desperate engagement recently took place between the U. S. troops commanded by Col. Sumner, and a large band of Cheyenne Indians, in which two officers and one or two privates were killed. The slaughter among the Indians was terrible. Full particulars are expected in a few days.—Col. Sumner was sent out on this expedition to chastise the Indians for depredations committed last year.

The Presbyterian Express notices a letter from Norloik, in which allusion is made to a colored female servant, named Hessy Keliam, who had grown very melancholy on account of the refusal of her master to permit her to marry. The reason assigned for that refusal was that she had already led to the altar eleven husbands, all of whom she had seen to the grave.

At Harrodsburg, Pa., on Aug. 23d, a young man named Henry Nessler, about eighteen years of age, was found dead at a place near there called Sugar Run. He had hanged himself on a tree, and being a teamster, had used the lines by which he drove his team. The cause of act is said to have been unrequited love.

The Albany Knickerbocker says that Lawler, accused of embezzling at the St. Nicholas Hotel, New York, has sued Treadwell & Co., proprietors, for false imprisonment.

Of the five liquor cases tried before the last term of the criminal court at Greenfield, Mass., three were found guilty, of whom two took exceptions.

LOCAL.

☞ The Firemen's turn-out here, on Friday, was a complete success, all but the weather. Atlantic No. 6, were out with full ranks, and drilled well. The rain kept their guests from them, till sun down, but one hundred and forty-two, all told, sat down to the delayed dinner at the City Hotel, at 8 o'clock. The visitors doubtless lost nothing of their appetites by the delay, especially as some of them were seasick on their attempted voyage down river. Well, we have known bigger salt water sailors than they to be stirred up by the chop which a sow-wester kicks up in the bend of the old Piscataqua, just below Dover Point.

The Ball, Friday evening, was well attended, notwithstanding the rain. Congress Hall was full, and everything passed off pleasantly. The excellent music of Messrs. Lamprey & Haines' Quadrille Band, gave great satisfaction, and was highly spoken of by the dancers,—some [illegible] more not slow in the same line themselves.

After the Ball, the Manchester Cornet Band serenaded several citizens who had contributed to the pleasure of the Firemen's visit, and discoursed most delicious, melting music.

☞ The *impromptu* laying of the Corner Stone of the new Custom House, on Friday afternoon, took everybody by surprise. More imposing ceremonies might have been gotten up, doubtless, with a little longer notice. The contractors, who are from Alexandria, Va., state that the first stone of the *foundation* is termed the "corner stone" in that section of the country; and not the first laid *on* the foundation, as with us. Some people say that the first payment, of $18,000, was to be made at the laying of the corner stone; hence the hurry.

The Universalist Trumpet, in this city, republishes certain letters that passed between Dr. Buckminster, of Portsmouth, N. H., and the father of Universalism, Rev. Hosea Ballou. The correspondence took place in 1810. Mr. Ballou invited the Doctor to a public disputation on the subject of Universalism. Dr. Buckminster respectfully declined, assigning as a cause a reason, the soundness of which we believe, all experience has proved, that 'public disputes, however temperately conducted, are rarely productive of any good.'—*Boston Courier.*

The above paragraph is very widely away from the truth. Mr. Ballou did *not* "invite the Doctor," but the Doctor attacked Mr. Ballou in a letter condemning Universalism, and warning Mr. Ballou not to preach a doctrine so dangerous;—and then declined to go into any further discussion of the subject.

The Courier's last sentence is truly remarkable, when we consider the zeal and learning with which it has *disputed* with the Spiritualists.

If the editor of the Courier, or the person who makes up the Religious Summary, will be at the trouble to look into the correspondence of Buckminster and Ballou, he will see that the boot is on the other leg.

Errors of the pen and type are very common. In our account of laying the Corner Stone, we gave Mr. Hatch some offices which he does not hold. He is not president of the Common Council this year, though he was last; he is not District Attorney, but he is District Clerk. So also we gave the late Rev. Hosea Ballou the title of Doctor, which did not belong to him. The Universalist State Missionary for New Hampshire is named Barron, and not Barrow. These, some one may say are small matters, and so they are—but it is well to correct them, so as to give every man his proper name and true title.

☞ Among the new Music which is being received daily at the Book and Music Store of Mr. Charles C. Harvey, we have received from the publishers, Messrs. Russell & Richardson, "The Light Guard Polka and Schottische," dedicated to the Chicago Light Guard; and "Near, a Swedish Song," translated from the German. Mr. Harvey has a large stock of music and musical instruments, and will fill all orders.

☞ A gentleman, in crossing Congress street, on Saturday, dropped his pocket book containing $140. A boy who saw it fall, picked it up and made off; but he in turn was seen by another gentleman—and the money finally recovered.

All the Cotton Mills, in Peterbororough, N. H., except the Union, have stopped; and the Mills in Mason and New Ipswich, N. H., will also probably be closed.

☞ New Market, with a population of 2000, has an Irish population of 750.

Look Out.—*Messrs. Editors*:—Could not you give your readers a short dissertation on Carelessness? I think if it would have the effect desired, 'twould be a capital thing. For instances, I need not go go beyond the limits of our own city. A few days since, one of our pilot boats, full of people, came near being run down by a schooner which was commanded by one, careless enough, or neglectful enough, to fail in appointing a look-out.—I noticed in our Post-Office, the other day, a letter sealed and postage paid, but lacking an important thing, the direction!——One of our public houses came near being destroyed by fire a few nights ago, in consequence of a lodger's leaving his light in a chair by his bedside when he went to sleep, by which carelessness his bed was destroyed; and himself not awakened until a considerable pounding was made on his door,——Last, but not least, on Saturday morning, at the scene of operations for the building of our new Post Office, the order of things was reversed; a cart drew a horse backward into the cellar of the old stable, about 6 or 8 feet perpendicular descent, but only stiffened him a little. Careful.

Washington, August 28.—*Kansas.*—Despatches were received to-day from Gov. Walker in Kansas. He reports everything quiet in the Territory. He is, however, apprehensive that difficulties may arise at the October election, and that it will still be necessary to have a military force stationed in some localities, in case any riot or outbreak should occur.

Mr. Perrin, private secretary to Gov. Walker, has arrived here. He left Walker's camp at Lawrence ten days ago, and reports matters in Kansas tranquil.—Walker was using the army as a posse comitatus, when the civil authorities were unable to make arrests.

The 1500 troops now in Kansas will remain there until after the October election. A daily mail has been established between Kansas City and Lecompton, and a tri weekly between Lecompton and Marysville.

Rev. Ethan Osborne of Fairfield, N. J., is a native of Litchfield, Ct., and on Friday, Aug. 21, entered the one hundredth year of his age. He was a soldier of the Revolution; graduated at Dartmouth College in 1784; and was for fifty-four years pastor of the Congregational church in Fairfield.

On the 11th inst., Captain Anthony Christy, keeper of the lighthouse at the mouth of the Christiana river, Delaware, celebrated his one hundredth birthday by a public dinner, which was attended by all his children, grand-children, and great grand-children, to the number of forty, with their husbands and wives. About one hundred and fifty persons sat down to the table.

Glorious Results of Speculation.—The best mode of speculating is that where you need not invest beyond your immediate ability. Lotteries when well managed, as in the case of the Georgia ones, are the best institutions to deal with, because you may stop them when you please, and save a vast amount of time and anxiety. Messrs. Swan & Co., draw a lottery every Saturday, under the supervision of the State authorities, at Augusta, Georgia, where they may be addressed. Enclose ten, five, or two dollars and half to them, for a whole, half, or quarter of a ticket, and they will open a correspondence with you which will prove satisfactory, sending your tickets punctually to you, and the results of the drawings, which have proved glorious speculations to thousands.—For the information of the public, S. Swan & Co. publish their drawings each week in the following papers, viz: New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book.—*Adv.*

A Sermon that did not Suit.—Mrs. H——was a very religious woman, and perhaps came as near worshipping Mr. N——, her favorite minister, as other ladies are rather too apt to do; but be that as it may, she was continually hammering Aaron, a shrewd lad of sixteen years of age, who, to pester the old lady, and hear her scold, would occasionally speak rather lightly of Mr. N——, her minister.

Happening in at the house of Mrs. H——one day, the old lady began as usual to chastise him, and Aaron, thinking she put it on rather too hard, after hearing her through, said—

"I am as good as Mr. N——, and can preach as well."

"Preach!" said the old lady; "you don't know one single word in the Bible."

"Well, give me a text," said Aaron, "and see if I can't preach."

"You don't know anything about the Bible," said Mrs. H——; "if you do, you may take any text you please."

"Well," said Aaron; "'A virtuous woman is without price.' Ain't that in your Bible?"

"Yes," said Mrs. H——; "and it shows that women are better than men, for the Bible don't say that a virtuous man is without price."

"Well, we will see about that," said Aaron; and after dividing his subject into two or three heads, he commenced as follows:—

"The scarcity of an article in all cases governs the price; but when an article cannot be found, it cannot be had at any price, and for that reason it is 'without price.' Now, if there were any virtuous women, there would be a price, and a high one, too, by reason of their scarcity; but as there are none"——

At this stage of the discourse the old lady seized the broom.

"Aaron," said she, "you are an impudent brat, and if you don't clear out I will pelt you with the broom-handle."

Aaron made tracks into the road, finishing his sentence, "they are without price," as he went through the door, which the old lady closed after him with considerable force.

Aaron now started for home, saying to himself as he went along—"I guess the old woman will not chastise me again very soon"—and, as it proved, he was not mistaken in his prediction.—*Contoocook Transcript.*

Fatal Railroad Accident.—As the 11 o'clock train of Thursday from Boston for Fitchburg was leaving the station at Waltham, an intoxicated Irishman of Boston, by the name of John Falvea, attempted to get on, but falling under the car wheels, they passed over his legs below the knee, and nearly severed both from his body. He was taken to the Central House, where amputation was performed by Drs. Adams, Warren and Kittredge of Waltham, but the man expired about half-past 4 o'clock. He was about 30 years of age.

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duets, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of Vocal and Instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but one AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is administered, and is *self-simply* by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Faunce & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the public should pay attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are so published that any number can each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $30,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries are legalized by a law, and authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received before the day of the drawing need to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Sunday Dispatch*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes. Address as above.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents.

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Advice upon the Patentability of American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice upon matters touching Patent Rights given. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given speak for themselves. MY SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he can refer to numerous persons who can prove, that at no other office of the kind are the charges for professional services so moderate.—The humble practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business in the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

ABOUT 17, 1855.—During the time I have held the Office of Commissioner of Patents, R.H.Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most competent and faithful practitioners with whom I have had official intercourse. Commissioner of Patents.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent Medical Practitioners in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; it sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents*.

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*;—and unlike all other preparations, which, if they check the disease, leave the person in a condition that renders it liable after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; it they do not give *perfect satisfaction*, return them and take your money.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to the proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptives among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warrant, signed by the proprietor, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, can receive One Dollar in a letter *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return mail.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. They are arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being furnished with two banks of keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction*.

Music-Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following:

Piano Forte Manufacturers of Boston, who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallet & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
J. Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the Manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct or the manufactory, accompanied by cash, or satisfactory reference, will be promptly attended to, and as faithfully executed, as if the parties were present, or employed an agent to select, and on as reasonable terms.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes

ARE well known in the United States, and are in conspicuous use from their regularity and finish, their unvarying uniformity of quality, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are generally considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

TUESDAY, SEPTEMBER 1, 1857.

THE SEARCHING OPERATION.—We have already made some mention of one Timothy P. Flanders, of Concord, who complained of Hon. E. H. Rollins, speaker of the N. H. House of Representatives, and an apothecary at Concord, on the charge of selling a pint of rum. We wished to know who Flanders was. We begin to find out.—The (Concord) Congregational Journal says:

Timothy P. Flanders, of this city, was recently brought before the Police Court, on a complaint of keeping liquor for sale, and was convicted and bound over for trial.—Soon after, he and others procured a search warrant, with which they entered and searched the Apothecary store of the Hon. E. H. Rollins, but they found nothing but a few gallons of port and sherry wine, and a small quantity of alcohol.

This operation of the search clause is admirable. The enemies of order, law, and good morals, had whispered that Mr. Rollins sold contrary to law.—And now, Flanders, in his rage, makes oath to the suspicion. The search takes place, and discloses exactly such stores as the Apothecary needs for use in his medical compounds, and no others.

Flanders, being a rum seller himself, was one of the best searchers, especially as he was determined and angry. We may believe he found all that was there.

The Cong. Journal adds:

Flanders next brought a complaint against Mr. Rollins, before the Police Court, for selling him a pint of new rum in June last. Several witnesses were examined, the result of whose testimony was, that there had been no new rum in the store since Mr. Rollins' license was revoked in 1855, and that the liquor bought by Flanders was probably camphor in solution. The complaint not being sustained, Mr. Rollins was discharged.

The Democrat states that this fellow's complaint was evidently a malicious one, and that Mr. Rollins was triumphantly acquitted. Flanders and a confederate named Webster both swore that they bought rum of Mr. Cone in Rollins' store in June last, and both of them afterwards admitted that they could not swear it was not tincture of camphor.

But Mr. Cone and another clerk of Mr. Rollins testified that they had not seen Flanders in the store since the first of June; that they had sold him no spirit of any kind within that time; that they had instructions, on the passage of the liquor law, to sell no liquor to any person, and that these orders had not been countermanded.

We think we can discover a remarkable family likeness between this couple of liars, and about half a dozen whom we have seen figuring in another county, and possibly may see again.

A BAG OF GOLD LOST AND FOUND.—A man from New Bedford, who was bound for New York, on Thursday, left a bag of gold in the cars at Mansfield, where the cars were changed, and did not discover his loss until his gold had left in the cars for Boston. It was discovered by one of the hands upon the train, and is now safe, in the possession of its owner.

The New Bedford Standard of Friday gives the following explanation of the gold story:

A Mr. Laraby, who recently arrived here as mate of one of our whalers, on Wednesday took his departure for Boston in the afternoon train, having with him the proceeds of his voyage, $1600, in gold. The money was in a small bag and consisted of eighty $20 pieces. From some unexplained cause, Mr. Laraby and his bag became separated, and he found himself in Boston without his money. He returned to this city on Thursday morning and made known his loss to City Marshal Cobb, who took the mid-day train to Mansfield, and there learned that the money was all safe, having been picked up by small lad and deposited with the telegraph operator. The boy was rewarded by a present of $50 for his honesty, and $10 was presented to the telegraph man for his agency in the matter, and Mr. Cobb returned home with $1540, to the joy of Mr. Laraby, who supposed the bag had been stolen and he should see no more of it.

THE YACHT EDITH.—The new iron yacht Edith, Capt. R. B. Forbes, which left Boston on Thursday for a cruise, arrived at Provincetown Friday. Capt. Forbes reports that his yacht performed admirably. She was built to test the relative qualities of wood and iron in the construction of sailing vessels.

☞ Eugene Sue, the novelist, who recently died in France, on being convinced that he was near his end, said, "I wish to die as I have lived, a free thinker,"—signifying that he desired to see no clergyman.

PRO-SLAVERY PRESBYTERIANS.

This new sect of Christians commenced a Convention at Richmond, Virginia, August 28.

The Committee on Resolutions reported in effect, that whereas the relation of master and *servant* does not properly belong to church judicatories as a subject of discussion or inquiry, therefore the General Assembly of the Church has no power to pronounce a sentence of condemnation on a lower judicatory or individuals for any course, unless they have been before the Assembly in the way prescribed by the constitution; that the Convention recommends all Presbyterians opposed to the *agitation* of slavery, to appoint delegates to the Assembly, to meet at Knoxville on the third Tuesday in May next, for the purpose of organizing a General Synod, under the name of the United Synod of the Presbyterian Church of America.

The next day, the Convention perfected and passed three resolutions of the series reported from the Committee, declaring in substance as follows, viz., that the Presbyterians sympathizing with the objects of this Convention, be invited to withdraw from their present ecclesiastical relations; that nothing can be made a basis for discipline in the Presbyterian Church, which is not specifically referred to in the constitution as crime or heresy; and that a new Synod, purely pro-slavery, or anti-agitation, be organized.

The proposition to organize a General Synod led to an exciting debate, but the proceedings, thus far, were very harmonious. The Convention adjourned till Monday.

A NOBLE BOY.—Passing across Boston Common the other day, we saw a group of juveniles standing under a tree talking as fast as their little tongues would let them, and having a curiosity to hear what was going on in these days of tea and treason, among Boston specimens of young America, we walked forward, and was one of them in half the time we have been telling it. We soon found that the difficulty was of quite a serious character, two of the youngest boys having fallen out while playing at ball, and one of them being bent upon settling the affair *a la mode*.. There he stood with clinched fists ready to pitch into his fellow playmate whenever he should manifest a desire to reciprocate the compliment. But there stood the other, silent, calm and collected as was ever a philosopher, while Master Pugnacious raved like a mad puppy. We could not help looking at and admiring the boy. Indeed, he was a noticeable child, of a slender mould, in whose mild blue eye there was a world of expressive meaning, whose gentle bearing bespoke the man, and whose pale face won the heart at once.—There he stood, patiently submitting to the insults of Sir, "I Want To Fight Ye," and when one of the bigger boys, who was evidently anxious for a fight said, "Charlie, pitch into him, I would't stand his tongue," the little hero slowly raised his eyes from the ground, and speaking for the first time since we had stood there, said, "I'll not do it; mother told me never to fight," and turning on his heels amid the derisive shouts of his late playmate, wended his way homewards.

What an answer thought we, as we musingly resumed our walking; what a child, what a mother. "I'll not do it; mother told me never to fight." For a long time that answer rang upon our ears and settled deep down to our heart. Noble boy, a stranger's benediction upon thee.—Ever be thus obedient to thy mother, "Charlie," and the future shall be hopeful and blessed.—*Fall River Monitor.*

MELANCHOLY SUICIDE IN WEBSTER.—We have heard the particulars of a melancholy case of suicide which occurred in Webster, Wednesday morning. It appears that some time ago a young man named Moore fixed his affections upon a young lady who did not reciprocate them, and rejected his suit. Recovering from his disappointment, he paid his attentions to another, and was accepted. His first love, however, dissatisfied with the course of affairs, endeavored to reinstate herself in his affections and probably succeeded too well. For in the agony of this conflict between love and honor, he went, on Wednesday morning, into a garret and hung himself. He was a likely young man, and is said to have been worth ten thousand dollars.—*Worcester Transcript, 27th.*

FIRE IN EXETER.—On Tuesday night of last week, (25th inst.) a fire broke out, about 11 o'clock, from the barn of Mr. J. T. G. Haley. The barn contained 30 tons of hay, a quantity of grain, and various farming implements, all of which were destroyed. Mr. H.'s cattle, which were in a yard adjoining the barn, were let out and saved by himself. The fire is supposed to be the work of an incendiary. A young man was arrested on suspicion of having done the deed, but for want of proof, he was discharged. The loss to Mr. Haley is said to be about $1000. There was no insurance. His policy had expired a short time before the occurrence of the fire.—*News Letter.*

FOUR DAYS LATER FROM EUROPE.

NEW YORK, Aug. 30.

The Collins steamship Atlantic, Capt. Eldridge, from Liverpool at 10 o'clock A. M., Aug. 19, arrived at this port this morning.

THE TELEGRAPH CABLE.—The Telegraph squadron was at Plymouth. Future movements were to be determined upon at a meeting of the Directors of the Telegraph Company, on the day the Atlantic left.—The general opinion of those most qualified to form a judgment, appears to be that we have learned enough in the first essay to render the success of the second attempt to lay the cable morally certain. Two important questions have been decisively set at rest by what has already been achieved.—The unparalleled length of the cable, and the vast depth to which it was sunk, have presented no obstacles to its telegraphic working. Until the final disaster occurred, messages were flashed along the 2500 miles of wire, a portion of which was submerged to the depth of very nearly two miles in the ocean. The principal troubles appear to be in the paying-out gear, and the great force of the under current. In the next venture everything of that kind will be taken into calculation. The mechanism for passing the cable into the water will receive all those improvements of which it is susceptible, and if the time be so fortunately chosen as to secure three weeks of favorable weather, there can be no reason for despairing of ultimate success. So says the London News.

The London Star says it is estimated that the outside loss the Company will sustain by the failure will be £25,000. It is fully expected that at least one half of the sunken cable will be recovered. All that is within 400 fathoms will be got up, but that portion in deep sea will, in all probability, not be recovered. The cable will, it is understood, be forthwith hauled up.

GREAT BRITAIN.—The Parliamentary proceedings since the last advices have been wholly unimportant.

The recent storms and floods have done considerable damage to the crops, etc., in various parts of England, but dry weather had prevailed during the three days preceding the Atlantic's departure, and it was hoped that the effect of the rains would be much alleviated.

The London Times says a merchant recently deceased in Liverpool is said to have left liabilities reaching £300,000, of which £100,000 are thought to be forged acceptances to bills of exchange.

The Liverpool Post pronounces the above a hoax.

The mail steamer for India, to sail Aug. 19, would take out about a million pounds sterling in silver.

FRANCE.—The Fetes Napoleon, on the 15th of August, passed off well, although the out-door amusements were marred by wet weather. The Emperor granted pardons, commutations or reductions of punishment to 1142 peisoners.

A Paris letter says the government will demand of England the extradition of Ledru Rollin, and that communications on the subject have already passed between Count Walewski and Lord Crowley.

Is is believed that the conviction of Ledru Rollin would bring him within the provisions of the extradition treaty.

It is added that Ledru Rollin has already left, or intends to leave, for the United States.

The Daily News protests against the sacrifice of a political exile.

The Paris correspondent of the Daily News mentions the departure for Marseilles of Gen. D. Orgoni, and predicts that he will be at the head of the insurgents of Delhi before November. It was he who stirred up the last Burmese war.

The Emperor and Empress had gone to Beirritz.

PRUSSIA.—Great anxiety was felt at the continued fires that were taking place in Prussia, believed to have been the result of an incendiary spirit, altho' it was thought they might have been caused by the heat of the sun's rays. In the town of Bojanuvo, Province of Boyen, 350 out of 420 houses were burnt, rendering 2000 persons houseless.

RUSSIA.—It has been resolved to make a reduction of 30,000 in the Rusian Imperial Guards.

The government was engaged in equipping a flotilla, destined for the China Seas.

Corn was rapidly advancing in price at Galatz.

LIVERPOOL BREADSTUFFS MARKET, Aug. 19—A. M.—Breadstuffs, under the influence of the recent severe storms and floods, had an advancing tendency, notwithstanding the weather had become dry, and favorable for the harvests. Flour was in good demand at an advance of 6d for Western Canal. Wheat firm, and holders demanding an advance of 1 a 2d per bushel, which was not generally paid.

Corn, very dull. Richardson, Spence & Co. quote: Flour—Western Canal 31s a 31s 6d; Wheat—red 8s 4d a 8s 9d, white 9s 4d, a 9s 10d; Corn—mixed and yellow 36 a 37s.

"THE WAR OF 1812."—An article copied from the Historical Magazine, on "the Cause of the War of 1812," makes a very good story, but lacks the essential element of truth. It states that the declaration of war passed the Senate of the United States by a majority of *one*—and that one was by a Rhode Island Senator, who was also elected by the same majority. The fact is the vote in the Senate for the war was 19 yeas to 13 nays; and what is more, both the Rhode Island Senators voted *against* it.

The War Bill in the House, was passed by a vote of 79 to 49.

New Flour was sold in Cincinnati on Saturday for $5.50.

A NEW FLOWER.—The National Intelligencer, says of the new description of white lily, of African origin, that "it has the delightful peculiarity of a high degree of fragrancy, particularly in the morning, the odor being something like vanilla. The botanists here are puzzled, though very much pleased with it."

☞ The English papers state that the Venerable John Hickling, the last of the race of Methodist preachers sent into the work by Mr. John Wesley, and who is in the 62d year of this ministry and the 92d of his age, preached in Liverpool at the recent session of the Wesleyan Conference in that city.

☞ N. H. Wolfe, a large flour dealer in New York city, came to a commercial pause last week. The mere furnishing of his house in the Fifth Avenue cost over $100,000! His liabilities are over a million.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

We observe that some of the newspapers in this city, have been trying to impress upon Commodore Pope the urgent necessity of Mr. Christie's appointment, whether on national or personal grounds, we are not aware.—*N. H. Gaz.*

Most impertinent and groundless assumption!

The Commodore had already done *his own business* in his own way, without any outside pressure whatsoever; by offering the clerkship to the old clerk, who knew the duties and who he was sure would perform them faithfully as he ever had done. "Some newspapers" thereupon congratulated —— whom?—Not the Commodore, who needed nothing of the kind—but immediate friends and the public generally—that by this appointment, a worthy man and good citizen might be induced to stay among us, though otherwise he would probably leave us to seek a livelihood elsewhere.

Thereupon, the mean man *interferes* with the commodore's business, and pitches, in a most pitiful blundering way, into the clerk and the newspapers.

Whereupon, Uncle Toby takes the donkey by the long ears, and holds him up to the public gaze, that they may see what a beautiful creature he is, and what an "urgent necessity" there was for somebody to take him in hand. Is not this also, "entirely satisfactory."

NIGHT BIRDS.—A gentleman mentions to us, as a fact worthy of notice, that a large number of Night Hawks were seen hovering over Market Square, a few evenings since. Had the gentleman looked lower, he would probably have seen night birds of a different feather. They are on exhibition in our most frequented streets, from seven until ten in the evening, snapping up any bait which may happen in their way, with the greatest avidity. As if we had not, already, a quantum sufficit of this full some bird, another brood, five in number, arrived here last Saturday night. "Bats" were never thicker, and though not the real Vampyre, their sting is more deadly. Perhaps we had better call them "brickbats," as each participator on such an occasion usually goes home with a specimen of that indispensable building material in his hat. Young men, beware! avoid communication with birds that fly by night; no good, but much evil, may result from such intercourse.

☞ A genuine Irish row came off near the corner of Congress and Fleet streets about 12 o'clock, last Saturday evening, which was kept up about two hours.—The cause of the muss was liquor, and a difficulty respecting a woman, whose name we did not learn.

It seems strange that this noise and confusion should continue so long, without any interference by the police. As we were not there, personally, we cannot say that they did not interfere, but if they did, they were a long time in quelling the disturbance. "Watchmen! what of the night!"

☞ There was a drunken fight, on Monday evening, a little after sunset, in the groggery of Messrs. Whally & Leaver, the place where Davison was killed two or three months ago, in Hanover street, near Bridge street.

It seems Whally had been off during the day, on a drunk, and returning at sundown, to Leaver, who had borne the heat and burden of the day, aimed for the bar room, perhaps to take further refreshment. Leaver resisted, but Whally assaulted and beat him; Whally, bruised and bloody, retreated up stairs, and locked his castle. A third man came on the stage, and fought with Whally; when finally two neighbors, sober men, went in and separated the combatants.

This groggery is a great nuisance to the neighborhood. Our city authorities should break it up without delay.

AMUSEMENTS.—After a great dearth of in-door entertainments of any sort, we announce in our advertising columns, two evenings' performances of a creditable character. Signor Blitz, the old wizard and cheat—who, despite his deceptions, manages to keep up a character for integrity and gentlemanly dealing, and to remain a general favorite everywhere—is to "show his hand" (to those who are quick enough) on Thursday and Friday evenings of this week, at the Temple.

☞ Last Saturday morning, the 7 o'clock train on the Eastern Railroad, ran over and killed a cow, near the Plains.—She was worth about $50, and belonged to Andrew Sherburne, Esq.

An exchange characterizes a little negro baby as a perfect specimen of "great cry and little wool."

BRAZIL INDIANS.—The Indians in the central part of Brazil are of a higher type than the North American tribes, and are, undoubtedly, of a distinct race.

An ethnological phenomenon which occurred among these Indians, seems to prove conclusively that the Caucasian and the Indian belong to two distinct races. A party of outlaws from the coast, removed to the interior, seventy-five years ago, and married with the female Indians. Nearly every union proved fruitful, but after the lapse of some ten years, their retreat was discovered by the government, and all the fathers, the original rebels, were arrested and brought to Rio for trial. As their children grew up, they intermarried, a portion of them only being fruitful. The third generation also intermarried with each other, and not one of them, it is said, has offspring, except in a few cases, where they married back into the second generation. This shows that the hybridity, which is the test of species, obtains in a union of two races, which we have been wont to consider as belonging to the same human family; and therefore they cannot have had a common origin.—*Cor. Newburyport Her.*

MR. MARCY AND THE MISSOURI COMPROMISE.—It is well known that the late Governor Marcy was opposed from the beginning to the repeal of the Missouri Compromise. We learn from an authentic and reliable source, that shortly after the introduction of the project into Congress, a gentleman, while paying his respects to the Secretary in his office, overheard a conversation which plainly showed the feelings of Mr. Marcy. While the gentleman alluded to was engaged in conversation with the Secretary, a member of Congress from New York came in. "Marcy," said he, "are we going for that Nebraska bill?" The Secretary in language more forcible than well chosen, replied in the negative, adding: "Go down and ask Douglas if he knows what he is about! I wish Pierce had mettle enough to kill that bill."

ALL RIGHT.—A brute named Wells Fiske has been sentenced to the State Prison for life by Judge Aiken of the Common Pleas, for an aggravated attempt at rape on a young woman in Deerfield, Mass. Fiske is 54 years old, and has been in the State Prison before.

BALLAD OF JUPITER AND TEN.

BY J. T. FIELDS.

Mrs. Chub was rich and portly,
Mrs. Chub was very grand,
Mrs. Chub was always reckoned
A lady in the land.

You shall see her marble mansion
In a very stately square—
Mr. C. knows what it cost him,
But that's neither here nor there.

Mrs. Chub was so sagacious—
Such a patron of the arts—
And she gave such foreign orders
That she won all foreign hearts.

Mrs. Chub was always talking,
When she went away from home,
Of a most prodigious painting,
Which had just arrived from Rome.

'Such a treasure,' she insisted—
'One might never see again!'
'What's the subject?' we inquired—
'*It is Jupiter and Ten!*'

'Ten *what?*' we blandly asked her,
For the knowledge we did lack—
'Ah! that I cannot tell you,
But the name is on the back.'

'There it stands in printed letters—
Come to morrow, gentlemen—
Come and see our splendid painting—
Our fine *Jupiter and Ten.*'

When Mrs. Chub departed,
Our brains began to rack—
She could not be mistaken,
For the name was on the back!

So we begged a great professor
To lay aside his pen,
And give some information
Touching 'Jupiter and Ten;'

And we pondered well the subject,
And our Lemprière we turned,
To find out who the *Ten* were,
But we could not, though we burned!

But when we saw the picture—
Oh, Mrs. Chub! oh, fie! oh!
We perused the printed label,
And 'twas *Jupiter and Io!*

LIFE NOW-A-DAYS.

Life is but a span—of horses;
One is 'Age,' the other 'Prime,'
Up and down the hill our course is;
'Go in,' ponies—'make your time.'

Boyhood plies the whip of pleasure,
Youthful folly gives the stroke;
Manhood goads them at his leisure—
'Let 'em rip,' 'they're tough as oak.'

'Hi, ya! there,' the stakes we'll pocket;
To the wind let care be sent;
Time, 2.40. 'Whip in socket—
Give 'em string and let 'em went.'

On the sunny road to fifty,
'Prime' is drowned in Lethe's stream;
'Age' is left, lame, old, unthrifty;
Life then proves a one-horse team.

'Age' jogs on, grows quite unsteady,
Reels and slackens in his pace;
'Kicks the bucket' always ready;
'Gives it up'—Death wins the race.

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of Vocal and Instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

Coggswell's Medical Salt, A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it is barring control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SORDIDS INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, breast, abdomen, or extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin; dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which E. PARKER & Co are the managers, are chartered by Private Act of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another feature of which the managers call attention to, is that all persons have a legal right to send orders for tickets to Georgia, as the lotteries now in operation are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the receipt of the order. According to the scheme one ticket in every ten must draw a prize. Tickets are $20; halves, $5; quarters, $2 50. Every ticket purchased entitles accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize being drawn, and result of drawing published for all parties interested.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers, viz: Sun, Clipper, Patriot, Register, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Herald*. Persons wishing to address the undersigned direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 ly

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, opps. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other European Countries, Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Reexamine made into American or Foreign works, to determine the validity or utility of Patents or Inventions.—and legal or other advice rendered in all matters touching the same. Copies of any and all Patent furnished, after remitting One Dollar. Assignments recorded at Washington.

The Subscriber is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any business offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THIS BUSINESS THAN THE SUBSCRIBER; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he would respectfully solicit a share, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty-four years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any practitioners in that capacity, who had so much business before the Patent office; and there were none who conducted it with more ability, fidelity, and assiduity. Regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ancuer 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with this office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the only Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of opium" to the child.

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and highly recommended by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price only 25 *cents*.

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children"

Sold by country traders and all Apothecaries throughout the United States and Canada.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain to restore nature to its proper channel. In every instance they the Pills prove effectual, for they are certain to open those obstructions to which females are liable, and bring nature into proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptives among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case the Pills will invariably remedy all these evils. In all cases of painful menstruation, or obstructed or spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, can receive the One Dollar in a letter *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,631, Post Office, New York City, and have them sent to their respective addresses by return of mail.

THE Subscribers having leased this well-known and popular establishment, long occupied by Col. Wm. S. Hadley, as an

EATING HOUSE AND HOTEL,

would invite the patronage of the public, whether citizens or visitors from abroad.

The House has been refitted and newly furnished, and will be conducted as heretofore—a Permanent Boarders or transient visitors accommodated

B. H. GRANT. L. B. LEWIS.
Portsmouth, July 4, 1857. tf

That Favorite Summer Resort and Watering Place

The Gerrish House,

KITTERY POINT, ME., NEAR PORTSMOUTH,

HAS recently been put in thorough order, and newly furnished throughout; and the subscriber having taken a lease of the same for several years, will hereafter have it open to the public *all seasons of the year.*

Coaches leave this House *twice daily*, for the cars at Portsmouth and Kittery Depots.

July17 2m ANDREW AMEE, Kittery, Me.

SAGAMORE HOUSE,
FROST'S POINT, RYE, N.H.,

IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders accommodated on reasonable terms. Persons desirous of viewing the ocean, or a quiet retreat, and coming by Railroad, will stop at the Depot in Portsmouth—where Mr. WILLIAM D. PERKINS' Carriage will be in readiness to convey them to the House.

The SCHOONER SIBYL, commanded by Capt. JOHN PRELL, will touch at the Point daily, to convey passengers to and from the Isle of Shoals.

Pleasure Boats in readiness for sailing or fishing parties. GEORGE W. TOWLE.

Rye, July 1, 1857.

Appledore House,
ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steele,) will run daily to this Island from Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS DOCKHAM, a thoroughly seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class packet requires

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the bosom of the Atlantic—free from heat, dust and noise—it is peculiarly adapted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

Press Your Own Hay.

THE subscriber offers for sale to the farmers of Rockingham County

C. J. Fay's Patent Hand Hay Press.

This machine is the cheapest and most durable of any now in the market. It is made of the best materials, and requires only two men to handle it. For further particulars apply to the subscriber who has the exclusive right of sale in Rockingham County.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.
The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of at great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a full test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.
LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which they attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

WEDNESDAY, SEPTEMBER 1, 1857.

☞ The Matoon (Ill.) Gazette declares that the "black laws have been powerless to keep negroes out of the State," and in view of this inefficiency of those laws, says:

If we are to have the African race among us, let us have them as slaves, well fed, well clad, but kept in their proper sphere, and allowed all the privileges consistent with their real wants, and the safety and well being of our own race.

Upon this, the Portsmouth, Virginia, Transcript, remarks:

The Gazette's confession of faith, exhibits as clearly as possible the truth of the charge, made by the South, that the antipathies of abolition and free-soil to African slavery, results rather in hatred than solicitude for their interest. Here the desire is to deny them admission into the free State of Illinois, unless they are there as slaves, which is said to be "their proper sphere," and the ground of this urgency is that they would then, and then only, be humanely treated. This is identical with the position of the South, whose people assume that the condition of the African has been greatly ameliorated, in every point of view, by his submission to intelligent direction—to christian instruction—to God. inspired care for their physical necessities. It is the question in a nut-shell—beyond the possibility of being controverted.

The above is a very mild, south-side view—nevertheless, it presents some wholesome lessons,—one of them is, that statutes as infamous as the Illinois black code, while they show the debasement of the power that made them, yet fail of their purpose. Another is, that some men in the so-called free states, have no proper idea of rational liberty. And a third is the conviction that those who advocate slavery as a blessing for anybody else, should be permitted to taste its sweets and enjoy its blessings in their own persons.

☞ A convict was discharged from Sing Sing Prison on the 5th ult., who has spent thirty years in State Prison. He was sent to the old City Prison in 1823, for the term of fourteen years. He was one of the chain-gang sent to Sing Sing in 1828, to build that prison. At the expiration of his term he was out about three years;—then sent back for ten years. He was out only three months; was drunk all the time; was then taken up and sent for six years. That expired on the 5th. He has been a good convict; has been punished only once during the entire thirty years; he is now in good health; is fifty-six years old, and is a superior mason and stone-cutter. He intends to devote the remainder of his life to himself.

A New Way.—An old Scotchman, when sending his son away to seek his fortune, gave him the dubious advice—"Make money, Sandy; honestly, if you can; but at all events, make money. The last shift to raise the wind is thus exposed by the Portland Advertiser of Wednesday:

Yesterday, City Marshal Randall received a dispatch from Bangor directing him to arrest John Stetson, John Pratt, and Thomas Wood, in the train from the eastward. The Marshal succeeded in securing Pratt and Wood, but Stetson made his escape. These persons recently engaged in a foot race near Portland; and they were employed in the same healthful diversion in Bangor, where they are charged with conspiracy and cheating. The three worthies travel together; Stetson and Wood get up a race with an understanding who shall win, and Pratt bets with the spectators, always, of course, placing his stakes in favor of the runner who is arranged to come out ahead. In that way, his chances are good for winning, and the trio share the proceeds.

Well, whatever may be thought of this "way" to make money,—we think our down east neighbors, in Maine, arrest people on queer charges. The other day, a man was taken up because a little girl died of fright at his shooting her dog; and now these chaps are arrested on a charge which it must be impossible to prove, unless somebody 'peaches—and we don't believe Stetson & Co. are green enough for that.

P. S. The Portland Advertiser states that Wood and Pratt settled up the charges against them and were allowed their liberty.

Very few men, properly speaking, live at present, but are providing to live at another time.

That's so—and it's a poor plan, too.—What assurance has anybody, that "tomorrow will be as this day, only more abundant?" Better enjoy now the blessings at hand, and then be ready for whatever others may come along also. Don't wait (for instance) to get *much* money before you enjoy what you have now.

The Memorial.—John P. Jewett & Co. of Boston have published, and Mr. J. H. Foster of Portsmouth has for sale, a handsome volume of nearly 400 pages, entitled "The Memorial: or the Life and Writings of an Only Daughter. By her Mother, authoress of 'Shady Side.' With an Introductory Notice by Rev. A. L. Stone."

The authoress of the Memorial is (or we may rather say was) Mrs. Mary E. Hubbell, the writer of that spirited book Shady Side. Her portrait and autograph compose the frontispiece.

The memoir, by the mother, of the daughter, is in itself touching—and becomes more so when we reflect that the mother herself died, leaving this work to be finished by another hand.

The selected prose writings of the daughter are admirable,—and so are many touches of her own pen, interwoven with the memoir,—but these latter have now and then a dash of cruel self distrust and self condemnation, which would diminish the pleasure of reading, did we not remember and make allowance for her training. She must have been a delightful child—and the thought that she, and her mother, whose writings are thus interwoven, have both passed away from among the things seen and temporal, to the enjoyment of the blissful realities unseen and eternal, of which both spoke so often, gilds the whole book with the interest of sacred romance. The reader who can be interested in any book of this description will find the Memorial a piece of choice reading. The Exeter News Letter says:

Those who have known and admired Mrs. Hubbell as the author of "Shady Side," will be glad to meet her again in this handsomely gotten up volume, and will more then ever regret that death paralyzed the hand which so gracefully would have portrayed the whole memorial of an only daughter's life. The pen which always wrote so truthfully and so well, was taken up, however, by one who entered fully into the author's spirit and into her faithful delineation of character; and he has interwoven into the narrative so much of the mother's own history as to give the book a double charm.

A New Work.—We understand that Messrs. Wentworth & Co. of Boston, are about publishing a new work entitled "The Young Woman's Friend; or the Duties, Trials, Loves and Hopes of Woman." By Rev. Daniel C. Eddy, of the Harvard Street Church in that city, so widely known as the author of the "Young Man's Friend," "Angel Whispers," and other publications which have had an extensive circulation. Perhaps no writer of our times is so popular among all classes of people as Mr. Eddy, which is no doubt owing to his attractive style and his peculiar talent for rendering the most profound truths intensely interesting, by his beautiful and dramatic manner of presenting them to the minds of his readers. We hail, therefore, a new work from his pen, with great satisfaction, and presume that the mission and sphere of woman will be treated of in a strain of eloquence and power that will fascinate both old and young, married and single, mother and daughter.

The Mail and Jail.—The Newburyport Herald says, the temperance meeting on the Mall, Sunday evening, was attended by a larger audience than had heretofore assembled there. The addresses from Rev. Messrs. Reed, Paulson, and Pike, were highly interesting, and each vindicated the justice of prohibition and urged the execution of the law for suppressing intemperance. Among the most attentive listeners was a young man at the window of the jail, who had been imprisoned for crime committed when he was so far intoxicated as to be unable to make any attempt to conceal it. These meetings have had a good effect upon the community, and they will be continued for several Sundays more.

The Murder and Suicide at Westerly, R. I.—The Providence Journal gives the following account of the murder and suicide committed by Chas. Babcock at Westerly, R. I. The letter is dated Westerly, Aug. 29:—

"Charles D. Babcock got into a quarrel with his wife, this afternoon at half-past four, when she fled to the street, where he followed her with an axe, knocked her to the ground, and then laid the blade of the axe into her left temple, causing instant death. He retreated to the house and cut his own throat with a razor, causing his death in a few moments. The cause is said to have orginated in some testimony which was to be given on Monday next, where he was interested—assisted by excessive use of spirituous liquors."

The Hoosac Tunnel.—Work has been resumed upon the Hoosac Tunnel. The North Adams Transcript says that the boring machine was making good progress on Wednesday afternoon last. It is operated by two steam engines of about 40 horse-power each. The parties most interested are very sanguine of success.

Burned to Death.—Mary Crowley, a demestic in the family of Mr. D. Ruggles, Worcester, Ms., on Friday morning, while engaged in kindling the fire, poured on burning fluid, to hasten its ignition, when the can, which contained about two quarts of the liquid, immediately exploded, the flames completely enveloping the girl, by which she was fatally burnt, dying in about 8 or 9 hours.

A Clergyman Laid up for Laziness.—The Western Recorder, a Baptist journal published at Louisville, Ky., makes the following novel announcement:—

One D. D., converted from the Dutch church, a man of sound learning and undoubted piety, now stands excluded from the Baptist church because he is lazy!

Alabama Crops.—A correspondent of the N. Y. Journal of Commerce, Mobile, Aug. 21st, states that the grain and vegetable crop is large beyond all precedent.—The promise of an over abundant cotton crop is equally good.

"The Man that Lost his Watch."—One of our first citizens went to Boston on Saturday, and returned in tribulation for the loss of a much prized watch. It had disappeared from his possession, and could nowhere be found. Relating his mishap to a friend, it was suggested that it might have slipped down instead of being taken out by a thief; and thereupon he began to think that he felt something in his boot, and drawing it off found his watch as safe as a "thief in a mill;" and there it must have been all day.—*Newburyport Herald.*

The Mayor of Chicago having suppressed gambling, is now exterminating houses of ill repute. Frequent descents are made, and merchants' clerks, bank clerks, and clerks of every hue and grade are caught, fined and dismissed to be caught again.—An order has been introduced into the Common Council, compelling young men to give their real names, under severe penalty.

On Sabbath afternoon, Aug. 22, the Congregational Church in Colchester, Conn., was struck by lightning while the congregation were leaving the church.—Several persons were prostrated, but fortunately no one was killed. The building was considerably damaged.

The Boston papers say that last week the police took into custody a boy named Henry Wallace, but four years of age, who was in an intoxicated state. The officers state that it is the fourth or fifth time that the boy has been in that condition. His mother, who lives with a negro, it is said feeds him with rum.

It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

Ann Arbor, November 6th, 1856

Prof. O. J. Wood—Dear Sir: I have heard much of the wonderful effects of your Hair Restorative, but having been so often deceived by quackery and quack nostrums, hair dyes, &c., I was disposed to place your testimonials in the category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me assurance as induced me to try one of your Restoratives in my family—first, by my good wife, whose hair had become very thin, and settlerly white; and before exhausting one of your large bottles her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon the top and over the head; and my wife now use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. My family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of age, sore or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

Solomon Mann.

Friend Wood: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,

Solomon Mann.

Carlyle, Ill., June 28, 1852

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

How to Preserve Beauty.—Nothing is more becoming to a man or woman than a beautiful luxuriant head of hair, and a woman's beauty is certainly incomplete without a fair complexion, and he or she who neglects these great and important adornments of nature must expect to suffer the mortification of premature baldness, and a wrinkled face and a sallow skin.—Nothing is necessary to preserve these essential attractions but the use of Prof. Wood's Restorative.—*Louisville Times.*

Instances of poisoning from the use of brine in the place of salt having occurred among the poorer classes in Germany, and among animals, Mr. Reynal, the well known physician and chemist, instituted a series of experiments, deducing the following conclusions:—That three or four months after its preparation, it acquires poisonous properties, and that the employment of it, even in small quantities, mixed with the food and continued for a certain time, may be fatal.

SPECIAL NOTICES.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly lie, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

New Clothes.—Most people do feel a little proud of new clothes, especially if "a good fit." But clothed with blotches and scaly excrescences, if they fit ever so closely, we cannot well be proud of them. The use of the Carminative will cure all. Try it. Try it.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a sure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

How it is.—In relation to Miss Goodrich, whose father is in jail for rape and incest, and who is reported by a Boxford correspondent of the Salem Gazette, to have eloped with the young man who was complainant in the case, we learn from the best authority, that she left by the advice of her friends, after the discovery of poison in the house, and threats had been made to take her life. She is now at a place known to the officers of justice, who have received a letter from her within a few days, and it necessary, she could be restored to her anxious (!) mother. She will be forthcoming on the day of trial. It is well known that another girl has charged the same crime of rape upon Goodrich, and there is every reason to believe that the villain will get the punishment the law fixes for such enormities.—*Newburyport Her.*

POLICE COURT.

Before Justice Odell, Aug. 28. James Donovan was charged by an Assistant Marshal with being drunk on the 27th, on Market Square. Plea not guilty; proved guilty; fined $2, costs $3.09.

The same James Donovan was found guilty of making great noise, brawl and tumult at the same time and place; fined $3; costs $3:86. Execution issued in both cases.

August 31.—Alexander Mulligan, being charged by the City Marshal with making a brawl in Hanover street on the 29th, plead guilty and was fined $3; costs 3,86; Paid.

Sept. 1.—John Donovan was fined $3; costs 5.63, for assault and battery on Wm. Wood; and ordered to give $30 bonds to keep the peace. He paid and gave the bonds.

Wm. Wood was fined $3: costs 4.46, for assault and battery on John Donovan, and ordered to give bonds in $30 to keep the peace. Paid and gave the bonds.

These two cases were a mutual drunken battle.

All these items are the proper fruits of the groggeries.

☞ The steamer Acorn of Boston arrived here Tuesday noon, having on board a party of one hundred and fifty, or more, from Beverly, accompanied by the Bay State Band from Salem. They dined at the City Hotel, and after a stop of a few hours started on their return. The distance by water is about 45 miles, and on such a day as Tuesday is one of the pleasantest excursions to be had on our coast.

THE MORTGAGEES' SALE of the Portsmouth & Concord Railroad took place on Tuesday, at the Court House in this city. It was "a sale of all the estate, rights, franchises, and privileges of said Corporation included by the mortgage, according to the terms and conditions thereof"—and "the property consists principally of the Railroad from Portsmouth to Concord, with sundry fixtures and furniture."

The property was sold by Hon. O. F. Fowler of Bristol, for $35,000; and was bought by the Concord & Portsmouth Railroad Corporation.

The locomotive 'Portsmouth,' and sundry cars, were afterwards sold for $12.000, and bought by the C. & P. Railroad.

PORTSMOUTH STEAM FACTORY.—The annual meeting of this corporatian was held in this city on Tuesday, when the following Directors were chosen:—Ichabod Goodwin; John Knowlton; William P. Jones; Samuel Batchelder; Nathaniel Goddard; John A. Blanchard; Calvin W. Clark.

From the report it appears that about half the product of the mill equal to 1,500,000 yards, is held over. The other half paid expenses, and affords a dividend of $1.50 per share, payable on the first of October.

☞ Some excitement was caused in Congress street, on Tuesday morning, by the erratic movements of a dog supposed to be mad, but who was probably suffering from the application of turpentine or some other kindred substance.

☞ Some humorous fellow amused himself on Monday evening, by cutting a number of awnings, in Congress street.—One of the sufferers suggests that we indite a severe article on "Rum and Rowdyism." Possibly the deed may have been done without the promptings of liquor, but it is hardly possible that a sober person would commit such a wanton piece of malice.

DOUGLAS JERROLD ON REPROBATION.—Mrs. Colonel Latter, a bigoted believer in the limited liability of human happiness, and the certain damnation of all, except some fifty or sixty of her own peculiar clique, was endeavoring to knock into Jerrold's "limited capacity" the "Five Points" of Calvinism. When she came to that of Reprobation, she said it meant, in few words, the doctrine "that every man was *born to be damned*." on which the outraged christianity of the listener relieved itself by saying, "Then, had I known it, *I'd be d——d if I would have been born!*" The fair theologian always considered Jerrold decidedly in for a warm berth.—*English Paper.*

JACK ASHORE.—The crew of the Roanoke appear to be enjoying the largest liberty during their ten days' vacation.—Two of them have been so judicious as to go to the City Clerk and obtain marriage certificates, and by this time, probably, are spliced hard and fast. Certainly honest Jack is supposed to go on a spree when he has a chance, but this legitimate kind of spreeing, where the parson is invited in, will give the best of satisfaction.—*Charlestown (Mass.) Adv.*

From examinations of the diseased potatoes by Mr. Enoch Moody of Saco, Me., he is of opinion that the disease commences in the tops and goes downwards.

LATER FROM CALIFORNIA.

NEW ORLEANS, Aug. 30.

The steamship Empire City has arrived here from Key West, all well.

The steamship Illinois, from Aspinwall, with five hundred passengers and $1,700,000 in specie, would leave Havana for New York, 30th inst. She had been on Colorado Reef, seventy miles west of Havana, for three days; but after throwing off two hundred tons of coal, she got off without injury. She was hauled off by the steamer Empire City, assisted by the war steamer Baules de Gray.

The Illinois will be due at New York on Wednesday.

In California, the principal topics were politics.

The weather and crops were good.

The towns of St. Louis and Michigan Cliffs had been destroyed by fire.

The news from Central America is unimportant.

The news from Havana, per Empire City, is unimportant. Sugars were quiet; stock 244,000 boxes. Exchange had improved.

NEW YORK, August 31.—The Bank returns for last week show a decrease in loans of $3,552,000; in specie of 856,000; in circulation of 23,000; and in deposits of $4,551,000.

WASHINGTON, August 31.—The Marshal of Minnesota has been instructed to take the census of the Territory whenever he is informed it is the wish of the people to form a State Constitution and come into the Union.

Recent foreign papers mention the death of Rev. W. J. Conybeare, widely known as one of the authors of that magnificent work, the "Life and Epistles of St. Paul." He was related by marriage with the Babingtons and Macaulays, and was a pungent essayist. It was he who, in satirizing "sporting clergymen," subdivided them into three classes—"Nimrods, Ramrods and Fishingrods."

Philip Clark, formerly of Iowa city, returned to that place a few days ago, from California, after an absence of eight years. He left a wife, children, and a valuable farm when he went to California. He finds on his return, that his wife long since married again; having first secured a divorce and a decree, giving her the farm for her support. The farm has been sold, and is now in other hands, and his former wife is in some other part of the country.

MRS. CUNNINGHAM.—A writ habeas corpus was granted in the case of Mrs. Cunningham yesterday by Judge Peabody, of the New York Supreme Court, for the purpose of giving her a hearing upon the legality of her imprisonment.

THE ROANOKE.—It is stated that the Surveyors on the United States steam frigate Roanoke, now laying at Charlestown Navy Yard, have decided that $80,000 will be required to put her in order, and that it will take 6 months to complete the repair.

A LITTLE IRONIC.—The Salem Register alludes to the Gubernatorial contest of the "Rivals," Messrs. Gardner and Banks, as a case of "Brass vs. Iron."

Said a woman to an old maid, who reproached her for her choice of a husband, "To be sure he is not so good a husband as he should be; but he's a powerful sight better than none."

A SUGGESTIVE REPORT.—A clergyman observing a poor man by the road breaking stones with a pickaxe, and kneeling to get at his work better, made the remark, "Ah, John, I wish I could break the stony hearts of my hearers as easily as you are breaking those stones." The man replied, "Perhaps, master, you do not work on your knees."

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, and selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published, as it not only contains the choicest selection of Vocal and Instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been completely cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. Nothing will do so other as they do me, the fact is worth knowing.

Yours with great respect, REV. W. PREBLE,
Clerk of Grosser Choice.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their tonic laxative action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a bilious disease that did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARRISBURG, Lyc. Co., Pa., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her daughter of the worst case of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured or even them. Such a medicine as yours, which is actually good and honest, will be prized by us.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. N. V. Hinon, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the organs of digestion and purify the blood they are the very best remedy I have ever found, and I can confidently recommend them to my friends.

Yours,

WABNAW, WYANDOTTE CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin, and in her hair. After our child was cured, she took your Cathartic Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

FULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for my entire restored health and vigor, if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which confined me to my room for weeks. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure, and I am now, by persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout.—a painful disease which afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness, and Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every family in the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country, but have some one among some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. Who is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant proofs to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the incurable canker that, fastened on the vitals, sets your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this well known remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus it has become, and we hope it the best agent which our skill can furnish for their relief.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commission issued by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that persons have a legal right to send orders or tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combinations, the prizes amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings of the Maryland State Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Clipper, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioner appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investments, and the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets in Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday, and the tickets or orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; half $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $60,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m31y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, All Papers or Models for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered by those elsewhere. Testimonials have given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as evidence of his ADVANTAGE OR ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and other countries, enable him, in question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most worthy Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhea, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and wherever introduced it is received with favor. These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*:—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for *50 Cents*.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

Coggswell's Medical Salt, A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: SUDDEN INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how it does this?*—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, when health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular, and whenever an obstruction takes place, whether from cold, or from any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptives among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case the Pills will invariably remedy all these evils. I all cases of painful menstruation, or nervous affections, affecting the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4 531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite selfentitle prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of Paregoric, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "restless children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

CRINOLINES in White, Black, Drab and Slate. Hair Cloth, Moreens, Skirts and Skirting.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons, and PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair at Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and they be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by one of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of a great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee *an entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special notice, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of one year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conscious for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

THE FAILURES.

These events, which in the ordinary course of things would have come along in 1847, were postponed by the great discoveries and gatherings of gold; so that when contractions should have taken place, we had instead a further expansion. Now, at the end of 20 years, instead of our usual 10, we have a grand crash.

The Mechanics' Banking Association of New York city has failed, and the fact has added to the financial panic in Wall street. Van Blarcum, teller of the bank, is under arrest for an alleged defalcation to the extent of $70,000. The capital of the institution is $632,000. This bank must not be confounded with the Mechanics' Bank of New York, one of the soundest institutions in the country, with a capital of two millions, and Sheppard Knapp as President.

Intelligence has been received of the failure of Beebe & Co. of New York, a leading house in the specie and bullion business, and for a long time considered as one of the strongest firms in Wall street.

In the same city, Sept. 1, Messrs. Adams & Buckingham, extensive flour and produce dealers, suspended. They are said to be owners of one or two banks in Indiana, and to have been engaged largely in indirect banking operations. Their business connections are chiefly in Ohio.

It is rumored that J. H. Prentiss & Co. considered the most extensive hat manufacturers in the country, have failed.

There are several failures on the Corn Exchange reported.

On the 31st of August the Locomotive Works of Breese, Kneeland & Co., in Jersey City, in which about 300 men were employed, suspended work. It is believed the cause of this stop is the failure of Western Railroad Companies, who were their customers, to make payment in the present embarrassed condition of finances.

☞ The Atlantic cable is *about the size of a dime* in diameter. The outside is composed of 18 strands of small wire; next is 6 strands of yarn; next, 3 coats of gutta percha; inside of all are 7 copper wires for telegraphing. The aggregate length of smaller wires required in the manufacture of one mile of the cable, is 126 miles! It weighs 1800 pounds to the mile, is quite flexible, and it was estimated to be strong enough to bear in water over six miles of its own length if suspended vertically.

The whole capital of the company is $1,750,000, and was taken in shares of $5000 each. The proportions in which these shares have been taken are, one hundred and one in London, eighty-eight in America, eighty-six in Liverpool, thirty-seven in Manchester, and the remainder in other parts of England.

☞ The Indianapolis Journal, speaking of the arrest of James O. Brayman, of the Chicago Democrat, on a charge of larceny, says:—"This Mr. Brayman seems to have been guilty of more than robbing the post office. About a week ago we received a letter from him enclosing twelve or fourteen bills on the Stock Bank of Jamestown, which he said belonged to the 'widow of a poor printer,' and asked us to exchange them at the best rates we could for currency, and send the proceeds to him. On showing them to our bankers we found not only that the bank was broken, but that the bills were counterfeit. We suspect that the 'widow of a poor printer' would not have benefitted much by the exchange if we had been able to effect it. We sent the bills back as they came, with a note declining any participation in the charitable business he imposed upon us."

☞ During a terrific storm in the Housatonic Valley, on Sunday afternoon, 23rd ult., hail fell for about ten minutes in the village of Merwinsville, Ct., with such violence as to smash hundreds of window lights, and to completely ruin the tobacco crop, which was more than usually promising. The damage must amount to many thousand dollars. The stones were round, of a milkish whiteness, most of them about the size of a bullet, but many were seen as large as a hen's egg. They were very hard, so that a heavy blow was needed to crush them. Although the storm did not cover an area of more than ten miles in width, yet a great amount of property must have been destroyed. Many had placed their sole dependence on the tobacco crop.

☞ The world-renowned Washingtonian Temperance Lecturer, John Hawkins, of Baltimore, is announced to speak at the Town Hall in Milford, on Friday evening, 4th inst.

THE ADMINISTRATION PLAN AS TO KANSAS. We get from Washington, in a despatch to Col. Forney's Philadelphia Press, a fresh repetition of the governmental plan for "pacifying" Kansas through the subjection of her citizens:

The work of the Convention will, it is said, be quickly done. It will probably be submitted to the people on the day that a Legislature is elected, and the chances are that the Constitution will be in Washington, with a member of Congress and two Senators to back it, by the 1st of December. It is supposed that the Constitution, like that of New York and Pennsylvania, will be *silent* as to slavery. This programme will prevent an attack on Gov. Walker's nomination in the Senate. He can resign, and may come as a Senator from the new State.

Slavery being in the Territory now—*de facto and de jure*—silence in regard to it in the State Constitution would continue it there. And the return of Gov. Walker as a U. S. Senator (says the Traveller) can of course only be accomplished by gagging the ballot-box, and preventing the real citizens from exercising their legitimate rights.

We have always supposed, since Senator Douglas brought in his Bill, that Kansas would come in as a slave State, by some dodge, sneak, or swindle.

☞ Beverly Tucker, appointed U. S. Consul at Liverpool, has written a letter to the President declining the appointment. He assigns a number of reasons for this course; among others, that the pay is inadequate; that a gentlemen holding the position is expected to entertain every American who calls upon him; that out of the salary he receives—which is seven thousand dollars—three thousand dollars is required for clerk hire, leaving but about four thousand to live upon.

P. S.—WASHINGTON, Sept. 1st.—Beverly Tucker has accepted the appointment to the Consulate at Liverpool.

"TRAININ' DAY."—A Regiment of the Massachusetts Militia (uniform companies, of course,) is to encamp at Newburyport this week. Upwards of one hundred tents are erected. Gilmore's Salem Brass Band is engaged for the Regiment; and several other bands will attend with Companies.—The show will be splendid.

The 5th Division of Maine Militia is also encamped in Portland, for three days.—The Portland, Lewiston, and Boston Brass Bands are in attendance; and the grounds are visited by thousands, these beautiful moonlight evenings.

☞ In 109 towns in New Hampshire there has been a decrease of population of nearly 17,000. Thus in all parts of the Eastern States there has been a rush from the rural towns to supply the commercial and manufacturing, and that is one of the principal reasons of the present "hard times." There is two little attention to agriculture.

☞ A letter from Point Coupee, La., says that in consequence of severe frosts in various parts of the State, the spring cane will be behind a fair average, and that the fall must be very late to allow it to ripen. Under all circumstances, the crop of sugar cannot exceed 250,000 hhds., and the planters generally estimate it at not over 200,000.

BARLEY BREAD.—The Maine Farmer commends the use of barley for bread, and speaks of receiving from Aroostook County a specimen of flour from grain cut August 3d. The Maine farmers acknowledge early barley bread, taken hot, to be a real luxury, and especially so, as it comes at a season when the meal and flour chest is low, and Genesee rather high. The average yield of barley on new land is larger than wheat.

CANADA.—The Chatham (Canada West) Freeman publishes an "official" account of the arrival there, of fugitive slaves from the United States, among them a slave of George Coleman, near Fairfax, Va., two belonging to J. T. Gordon, of Alexandria, Va., and one to Capt. Gordon, of Washington city.

☞ The New Hampshire Patriot of Sept. 2 comes out in now type, and is, as it has been for many years, very nicely printed. Mr. Joseph W. Merrian has become joint editor, and it is now published by "Butterfield & Merrian, editors and proprietors."

☞ The Commencement of Brown University, at Providence, took place on Wednesday. Orations before the societies were delivered by Wendell Phillips and Mr. Samuel Cox, and a poem by Mr. S. D. Phelps.

ERROR IN A SCHOOL BOOK.—In the fifth book, Sanders's Series of School Readers, p. 268, Justice Story is spoken of as the late "Chief Justice of the United States."

PRISON STATISTICS.—The Prison statistics gathered by Rev. Charles Spear, are said to show that the average number of prisoners in the prisons of the United States is 50,000, and that 30,000 are discharged annually. In England, the average is set down at 30,000 in the prisons, of whom 7000 are juvenile delinquents. In France the whole number of prisoners is about the same as in the United States, 10,000 of whom are juvenile delinquents, many of them acquitted and yet detained, as no one will own them.

LOWELL NEWS.—The chime of bells are all cast and tuned, and the scale is given by them with great accuracy; they are now hung in Troy at the Foundry, and as much praised for the beauty of their workmanship as for their great musical merit. The key-board for playing them is to be arranged in a handsome case like the front of an organ, of a fine design.

In the Police Court, Emily and Maria Taylor, two sisters who have just served a term for vagrancy, were convicted of passing counterfeit money, and sentenced to the house of Correction in Cambridge for the term of six months.

Mary Taylor, mother of the two girls, was convicted of drunkenness.

Catharine Flynn, common drunkard, six months to the House of Correction.

Michael O. Donald, common drunkard, six months to the work house.

Michael Martin, violation of the liquor law, ordered in $200 to C. C. P.

Mary A. McAnally, common drunkard, six months to the House of Correction.

Owen Mahon, violation of the liquor law—ordered in $200 to C. C. P.

Ithamer Stowe, violation of liquor law, ordered in $100 to Sept. 5th.

Samuel J. Priest, violation of liquor law—continued.

SENATOR WILSON OF MASSACHUSETTS.—The following is the entire letter of Senator Wilson to Mr. Gough, from which an extract has heretofore been printed:

NATICK, Mass., June 20, 1857.

DEAR SIR:—In response to your inquiries, I have to say that the Maine law in Massachusetts has not met the expectations of its friends. I advocated and voted for the law in the legislature, and I have supported it before the people, and I intend to continue to do so. But the law has accomplished far less than its friends reasonably expected when they passed it. In the first place, the law has not been fairly tested, owing to the embarrassments thrown in its way by courts and juries. This may be corrected in process of time. At any rate, I hope so. Another cause of the failure is this, its friends have depended too much on the law, and too little upon moral action. Work that ought to have been done has been neglected because the friends of the cause have placed too much reliance upon the force of law. I think they begin to see this, and am confident they will hereafter not only sustain and enforce the law, but uphold it by appeals to the moral sentiments of the people. My idea is, that we want laws, such laws as can be enforced, and that appeals should be continually made to the heart, conscience and reason of the people, to abandon the use of what the law proscribes. Yours truly,

HENRY WILSON.

EDUCATION IN VIRGINIA.—Gov. Wise, who once thanked heaven—as if heaven were the cause of ignorance!—that there was neither a common school nor a printing-press in his immortal district of Accomack (not an original thing with him, for Governor Sir William Berkely, who was also of Accomack, said pretty much the same thing of the whole Ancient Dominion itself, some two hundred years ago),—Governor Wise, we say, who talked thus foolishly in Congress, is now manfully exerting himself to promote education in Virginia.—*Boston Traveller.*

MONEY FOR A MARRIAGE.—A young lady recently was told by her lover that her marriage with him must be posponed, because he had lost five thousand dollars in shipping goods to San Francisco. She asked him how long before the happy event could take place. He replied, till he had recovered the amount lost—it would not be wise to think of such a thing at any earlier period. It might be only one year! The young lady pined under this information; but ascertaining that Messrs. Anderson & Son, of Macon and Savannah, Georgia, would supply her with tickets in their lotery, she inclosed ten dollars to them, and received not only a ticket in return, but, in a few days, the further information that it had drawn ten thousand dollars. She received her money, one half of which she represented to her intended on the day of her marriage; and the other half has been invested in a neat dwelling-house, where the happy pair reside. This was obtaining money for her marriage portion very easily; and we suppose, if the whole truth were known, this is not a solitary instance of similar success.

The above named managers are to draw "The Jasper County Academy Lottery" on the 15th of September next, for which whole tickets can be procured for $10; halves, $5, and quarters $2 50, by sending for them by mail. The prizes range from twenty dollars to the grand prize of $60,000—and a fair chance is open for all, as the tickets have only single numbers on them, and none of the absurd combinations, which, at one time made lotteries suspected by the community.

The above named lottery is drawn under the immediate supervision of W. R. Symons and J. M. Prentiss, Esquires, Commissioners appointed by the State, and sworn to act honestly and fairly—which guarantees the integrity of the managers. They will furnish prizes to those who speculate; and we might remark, "Happy are those who win, and their names will be legion."

The small schemes in the above lottery are drawn every Saturday during the year—tickets from one so four dollars. *Adv.*

☞ We do our friends a real service in calling attention to a medicine of such acknowledged merit as Wistar's Balsam. We are liable to coughs and colds, which cease to be dangerous when recourse is had to the Wild Cherry.

SPECIAL NOTICES.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

NEW CLOTHES.—Most people do feel a little proud of new clothes, especially if "a good fit." But clothed with blotches and scaly excresences, if they fit ever so closely, we cannot well be proud of them. The use of the Carminative will cure all. Try it. Try it.

☞ We are happy to announce that the best of cheese may be had at 12 1-2 cents per pound. Molasses for 48 cents per gallon; sugars at reduced prices; potatoes very cheap, and all family groceries at uncommonly low prices for cash, at the store of F. W. ROGERS, on the corner of Vaughan and Congress streets,—where Fancy Soaps of various kinds, and many other articles may be found, but no spirits except Camphene and Burning Fluid. au18 tf

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. No family should be without these Powders. One, taken in the first stages of the disease will almost invariably check it. They are perfectly safe and effectual. For sale by J. H. Thacher and Wm. R. Preston. aug25 8w

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases incurable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

☞ Hon. Hannibal Hamlin of Maine, visited the Navy Yard, on Wednesday, in honor of which visit, a salute was fired. He addressed the citizens at Spruce Creek, Kittery, in the afternoon, and also those at the Navy Yard Village in the evening.

LOOK OUT! — *Messrs. Editors*:—Will you have the kindness to notify the public thro' your paper, that there are three or four suspicious-looking persons lurking about town, calling at houses under various pretexts, supposed to be connected with and in the employ of some notorious characters in this city. Have your revolvers loaded, your dogs in training, and housekeepers on the watch. A. B.

☞ Mr. Wm. Shillaber, of this city, was seriously injured on the New York Central Railroad, near Blackstone, Mass., on Tuesday—having his arm broken in two places, and being unable to speak on Wednesday noon.

He is a son of Capt. Robert Shillaber, and was formerly an engineer on the P. & C. Railroad.

☞ A Methodist Camp Meeting is to commence on Monday, in the grove near New Market Junction. The presiding elder and committee have made all needful arrangements for accommodation and good order.

☞ The present season has been particularly favorable to journeying—especially on foot. The continued moisture of the roads, and the general absence from dust, contributed greatly to the comfort of man and beast. Several parties of young men have made long pedestrian trips, to the White Mountains and elsewhere. Among others, the party of five from Portsmouth, whose start was mentioned in the Chronicle a week or two since, proved themselves excellent walkers. They were gone fifteen days, and travelled on foot nearly three hundred miles—including the climbing of Mount Washington.

Our statement that they "made jackasses of themselves," (figuratively speaking,) by each shouldering a heavy pack at the start, was not accepted as a compliment, we regret to learn. Now, the declaration that they *then made* themselves to resemble certain stupid animals, certainly implies that previously they had borne a different character; while the very successful manner in which they carried themselves and their packs through their long tramp, proved that, after all, they were not such asses as the writer of that paragraph—took them to be. We "walked over that course" ourselves, several years ago; but with the thermometer as high as ninety, and the dust flying "*higher* than ninety," it was rather tough.

The expenses of such a fortnight's trip need not be more than $15, but the clothes worn out make up about as much more.—When we get mileage, at the rate of a dollar a mile, we shall start again.

A CARD.

The Officers and Members of Atlantic Engine Co. No. 6 tender their sincere thanks to the members of Laconia Co. No. 2, for the bountiful collation furnished to them and their guests on Friday last.

Also to His Honor the Mayor and the citizens generally, for the interest and hospitality which they manifested on that occasion. And last, but not least, to the Ladies, who attended our Levee; they have our heartfelt thanks, and the part they took in the festivities of the day will long be remembered by the Atlantic boys.

Per order. J. G. FOLSOM, *Clerk.*

A BEAUTIFUL HEAD OF RICH GLOSSY HAIR,

Completely Preserved TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD:—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to class your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lake County some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my scepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend it to all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it. Again, very respectfully and truly, yours,
SOLOMON MANN.

CARETTA, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BARESS, ex-Senator, U. S.

U. S. AGRICULTURAL SOCIETY—*Louisville, Sept.* 1.—The U. S. Agricultural Society's Exhibition was opened here at 10 this A. M., by the Butcher's Association escorting Col. Wilder to the Amphitheatre, where he eloquently addressed 5,000 people, one half of whom were ladies. Many distinguished strangers were present.

The day was devoted to trials of speed on the track, and voluntary exhibitions of horses in the amphitheatre.

Six or seven hundred head of superior stock was entered, and the entry is still going on. The weather is delightful.

The Kentucky, Ohio and Indiana Stock took all the prizes which were awarded today.

The attendance was large, and intense interest was manifested in the proceedings.

The most celebrated stock breeders in the country were present.

VERMONT ELECTION.—*Montpelier, Sept.* 1. *P. M.*—Our annual election of State officers took place to-day. But few returns have yet been received, which indicate a light vote, and a large Republican majority. Returns thus far show the election of 32 Republican representatives, and one Democrat. The same towns last year elected all Republicans.

The vote for Governor, in eight towns heard from, foot up—Ryland Fletcher, Republican, 1968; Henry Keyes, Democrat, 801.

FROM WASHINGTON, Sept. 1st.—It is not probable that the contemplated changes in the heads of the Government Bureaus will be officially announced before the termination of the present fixed quarter of the year.

During August more than 1500 Land Warrants were issued under the Bounty Law of 1855; to satisfy which, 231,000 acres are necessary. So far, 26,500,000 acres have been granted under that act.

MUNICIPAL ELECTION. — *Wilmington, Del., Sept.* 1.—Our municipal election took place to-day. George Sparks, American, is elected Mayor by 331 majority.—The American ticket is also elected.

PRESBYTERIAN CONVENTION.—*Richmond, Sept.* 1.—The Presbyterian Convention was to-day engaged in the consideration of the subject of the formation of a general Synod. It is expected to adjourn *sine die* to-morrow.

MOB IN KANSAS.—A pro-slavery mob in Atchison, Kansas, on Saturday, prevented Gen. Lane from making a speech. The General halted at a distance from the hostile demonstrations, and beat a retreat.—The mob held possession of the place until all danger of Lane's arrival had passed, and then dispersed.

(Tribune correspondence, Washington, 1st.)—More troops are, it is reported, under orders for Kansas, and martial law will reign in the Territory till after the October election

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of vocal and instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c. form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians
Philanthropists, read their Effects,
and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach,

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headaches any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do by others as they do for me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, }
WASHINGTON, D. C., 7 Feb., 1856. }

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangement of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, A. ALLEN, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 19, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than all else she has had since she had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon relieved her by expelling large quantities of worms (dead) from her body. They afterwards cured her and two children of bloody dysentery. The disease in my neighborhood had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Ellms, Pastor of Advent Church, Boston.

DR. AYER: I have used your Cathartic Pills extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. ELLMS.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her neck and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her of her complaint.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that I suffered so for years.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness, and Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its efficacy; and fewer yet are communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral, administered in the first consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not neglect them till no human skill can master the inveterate disease that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not dwell on them. It is well made even for such disease as these. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best aight which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers wish to call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by operation of law in that state. A lottery is drawn every day of the week. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertiary combination. Prizes vary in amount from $20 to $100 00. All orders for tickets or packages will receive prompt attention and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Baltimore Sun, Clipper, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The managers also respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries are legalized by an Act of Assembly of the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the receipt of the order. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing published to all ticket purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers, viz: New Orleans Mobile Register, Charleston *Standard*, Nashville *Gazette*, Augusta *Chronicle and Sentinel*, Savannah *Daily Herald*. Write your address plainly and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

H. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice given in cases touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of any improvement, which can not immeasurably superior to, any which can be offered them elsewhere. The testimonials below speak for themselves. AS THE MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has already secured more patents, and prove, that at no other office of the kind are the charges for professional services so moderate.—The long and extensive practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more ability and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world—a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*;—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDRY INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how it does this?*—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine lymph, it reduplicates merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

A few boxes of this popular and extraordinary medicine for sale by J. H. THACHER,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and doubtful countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the vital stream of life immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, no relief will ever be obtained from these evils. I all cases of painful menstruation, or nervous and spinal affections in the back and limbs, hysterics, fluttering of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any thing injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Lawrence's Carminative,

OR

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

Carminative is an effectual remedy for

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country, intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty; and it is now extensively used, and approbated by the physicians of the living vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

One regard has been taken to have the price of the Carminative so low as to be within the reach of all. *Price only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

To country traders and all Apothecaries throughout the United States and Canada.

FAILURES IN NEW YORK.—There was a fair promise, early in the day, of a more cheerful market, but the failure of Messrs. Atwood & Co., bankers, was announced, and this increased the general excitement.

Messrs. Atwood & Co. were agents, correspondents and bankers for many business firms and banks at the West, and as soon as the failure of the Ohio Life and Trust Company became known, they were subjected to a run from their depositors to which they could not respond in the present condition of the money market. They hold a large amount of securities, but these are unavailable *at any* price, or rate of interest. Messrs. Atwood & Co. have acted very honorably, having deposited all the funds in to-day's remittances, in the Continental Bank, to the credit of their correspondents, freely given up all collection paper and other property to the rightful owners, and made good all their checks.—*Journal of Commerce.*

A GUILTY CONSCIENCE.—A man, travelling in the cars of the Boston & Main Railroad, stopped at the Newmarket Station, and left his valise in the care of the Station-agent, while he made a call at some place. The agent set the valise down by the track of the road, and forgot it, as is supposed. But recollecting it after a couple of hours and looking for it, it was nowhere to be found, and no clue to its whereabouts could be ascertained. But the conscience of the person who took it, would not, it seems, permit him to appropriate it, although the contents were $1,500. On Friday last the valise was found in the place where it was left, with its contents all safe.—*Exeter News Letter.*

RAILROADS.—The N. Y. Evening Post says:—"The aggregate length of all the railroads in the United States is about twenty thousand miles, with a united capital stock of near three hundred and eighty-five millions of dollars, and a bonded debt of four hundred millions. To this there must be added the floating debt, probably not far, if any, short of another one hundred millions, making a grand total of nine hundred millions of dollars expended in railroad property management and mismanagement."

A LUCKY PRINTER.—One of the compositors in the Boston Transcript office lately won a watch, in a raffle, of the most unique description. It could be taken entirely apart, and so nicely were the different sections of its internal machinery adjusted, that they would come together again without material injury. The fortunate possessor of the watch took it to a jeweller's, who appraised it at 37 cents. The compositor paid 50 cents for the chance to raffle for it.

SUICIDE IN LEE.—Abigail Emerson of Lee, N. H., aged 67, committed suicide on Tuesday last, by hanging herself in her own house. She had lived alone for several years past. Within a few years past, *four* unmarried women have committed suicide in that town.

Miss Spalding's Classes.
MISS SPALDING proposes receiving a CLASS OF YOUNG LADIES for the study of the FRENCH and ITALIAN languages, and of a thorough course of HISTORY, to commence in September, and continue two terms, of four months each, two recitations per week,—$15 per term.
A French Class of very young pupils will be received on the afternoons of Wednesday and Saturday; they will be carefully taught a correct pronunciation, without much study being required. $5 per term.
Lessons will also be given in general ENGLISH STUDIES, either to classes or individuals.

AMERICAN HOUSE,
BOSTON,
Conducted on the European Plan.
LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Southern residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their superior tenacity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far *superior* to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

OUR PROGRESS.

NO. VIII.

We can state, as further evidence of progress in 40 years, towards temperance, that seamen *then* used to have a spirit ration on board merchant ships,—but *now* our sailors do not. In our ships of war, the spirit is still furnished; but it may be commuted to money by the sailor, and in some cases it is.

The change in laws is another mark.—The old license, took it for granted that intoxicating drinks for men in health were needful—but might be abused, and therefore the law strove to limit and regulate. But the new laws, go upon the presumption that tippling is not needful, that it is dangerous, and therefore declare the sale unlawful, except for certain purposes, and under certain restrictions.

The change in Table Drinks is remarkable. Forty-five years ago, cider was the general, common, almost the universal dinner table drink in New Hampshire.—Coffee in the morning, and Tea at night were common; but most farmers and many other persons, had the mug of cider on the breakfast table also; and not a few had cider at supper.

Water as a table drink, was exceedingly rare,—so much so, that the writer of these lines never saw it in any case, until he grew up to manhood, (except in one family, where the loss of a hogshead of cider made a supply fall short, and except, also, a case or two of special request for water.) It may safely be said, that 40 years ago, 99 families in 100, in New Hampshire, drank cider daily at dinner. Now, not one in 20, perhaps not one in 50 or 100.

Water has come in its stead, a vast improvement every way. How did it all happen? Just so soon as the consumption of rum began to diminish, by thousands of drinkers breaking off, just so soon, cider began to be disused: And teetotalism, when it came up, finished off cider as a general or popular drink. Cider is still exempted from the operation of the New Hampshire law, and a little is made now—we should say, in Rockingham County, about one-twentieth part as much is made now, as was made 30 years ago. And while our orchards have increased, perhaps, fourfold, we do not know of *one cider* orchard planted within that time.

A little of what is made now, is drunk as bottled cider; a little used in cooking; the most becomes vinegar.

Let us now go further back still, to Revolutionary times. The Harrisburg Patriot publishes the following bill for a dinner furnished to the Honorable House of General Assembly of Pennsylvania, in 1778, on the election of President and Vice President:

The General Assembly
of the State of Pennsylvania
To GILFORD DALLY, Dr.

1st. December, 1778.

To providing dinner for 200 gent,	£500 00
522 bottles Madeira wine a45s,	1289 00
116 large bowls of punch a60s,	348 00
9 " toddy a30s,	13 10
6 " sangaree a60s,	18 00
24 bottles port wine,	36 00
2 tubs of grog for artillery,	36 00
1 gallon spirits for bell-ringers,	6 00
96 wine glasses (broke) a7s 6d,	36 00
29 jelly " (broke) a7s 6d,	10 17 6
9 glass dessert plates (broke) a15s,	6 15
11 china plates (broke) a30s,	16 00
3 " dishes (broke) a57s 6d,	10 2 6
5 decanters (broke) a30s,	7 10
1 large inkstand (broke)	6 00
14 lb. spermicetta candles a30s,	21 00
	£2295 15

This is a more vigorous bill than Charles Lamb's celebrated "strong" one—"To 100 pots of porter." The reader will notice the awful smash of crockery, and will be at no loss to account for it.

This was then the *fashion*, and no evil was thought of it. The fashion remained unbroken till within the last 35 years.—We well remember the 4th of July celebrations of 1812,—in Portsmouth, by both parties,—grand processions, great show, and a general drunk; with exceptions, to be sure, but few.

Now, let us look for a moment at quantities of liquor consumed. We have before us the 2d Report of the American Temperance Society, presented Jan. 28, 1829, in which we read:

In Plymouth, N. H., the cost of spirituous liquors sold in 1826 was estimated at 7,000 dollars. In 1827, after the formation of a Temperance Society, the value consumed fell to 3,000 dollars, and in 1828, to less than 500 dollars.

The Governor of Alabama gives it as his opinion, that the quantity of ardent spirits consumed in that state in the year 1828, was one-third less than in the year preceding.

From the above and similar facts, the Directors of the American Temperance Society, give it as their judgment, that, within that period, the consumption of spirituous liquors has been diminished one-half in New England, and one-third throughout the rest of the land.

Plymouth, N. H., in 1820, contained 1000 inhabitants.—The expenditure of $9000, or nine dollars per head, in that small country place, is a fair sample of the habits of that day. The habits of the country towns, in this regard, are wonderfully improved now.

☞ Mrs. Gardner is on trial at Plymouth, Mass., for the murder of her husband, of which she is undoubtedly guilty: her counsel is trying, by argument, to raise a "reasonable doubt" in the minds of the jury, and so turn her loose on society again. Not because he cares anything about her or the case, for he was appointed her counsel by the Court; but he has his fortune to make, and if he can make the worse appear the better reason, he will make it.

☞ On Wednesday, in Boston, Mr. James McGary, one of Dr. Kane's companions on his Arctic Expedition, and latterly connected with the Panorama of the Arctic Regions, now on exhibition in Boston, died at his residence in Central Court of congestion of the brain. He leaves a wife and two children.

☞ In Washington city, the Naval Courts of Inquiry will resume their sessions next Monday. The first consists of Com. Lavalette and Captains Mercer and Adams; the second, of Captains McKean, Pope and Van Brunt; and the third, of Commodores Storer and Stringham, and Captain Goldsborough.

☞ The failures in New York State are many. The Herald of Wednesday says in relation to financial matters:

"Wall street and its neighborhood was yesterday the scene of an excitement such as is seldom witnessed even in this excitable city. It will be seen by the money article that several more failures among the mercantile classes have occurred, and that the country banks are going down at the rate of two or three every day."

RESIGNATION OF JUDGE CURTIS.—*Portland, Sept.* 2.—The State of Maine, this evening announces, apparently by authority, the resignation by Judge Curtis of his seat on the bench of the U. S. Supreme Court. The Judge has tendered his resignation, which has been transmitted to Washington, to take effect on the 1st of October.

DARING BURGLARIES AT CHATHAM.—By a telegraphic dispatch from Chatham, on Saturday last, we learn that on Friday night, the Post Office at that place and *six stores were broken open, and goods and money stolen!* A carriage was heard in the streets at that place at about 3 o'clock, and at West Harwich between four and five.—*Barnstable Patriot.*

THE PRO-SLAVERY PRESBYTERIANS.—*Richmond, September* 2.—The Presbyterian Convention adjourned *sine die*, at 1 o'clock this morning. The preamble and all the resolutions were adopted, with but slight alterations. The third resolution expresses the desire of the Convention to unite with the Old School, and recommends the Knoxville Synod to invite the Old School Association to a fraternal conference, with that end in view.

ROCHESTER, N.Y. Sept. 2.—J. B. Robertson, Cashier of the Eagle Bank, has been arrested, on evidence said to be conclusive, for attempting to kill his wife by poison. Great sensation has been caused here thereby.

BANK FAILURE AT CINCINNATI.—*Cincinnati, Sept.* 2.—The deposit and discount bank of Hollis & Langdon suspended this morning. There is considerable excitement, as there were a large number of small depositors. The bank was involved in the failure of Beebe & Co. of New York city.

☞ A Reverend Scoundrel named Wm. B. Sutherland, has just fled from Burlington, N. J.—to avoid punishment for sundry acts and attempts of unchastity. We do not see it stated to what church Sutherland belongs.

In Fond du Lac, Wisconsin, a few days ago, Mr. Lemuel C. Bishop, one of the earliest and most influential settlers of that region, was killed by a furious bull. In Washington county, adjoining the above, a farmer was also attacked by a bull, and was saved only by a pair of steers which attacked the bull and drove him away—a most singular circumstance.

The recent census of St. Louis shows a disparity in the sexes of nearly 7000 in favor of males. By the census of Iowa, the males are in a majority of nearly 30,000. Other Western States are also needing large re-inforcements of the fair sex.—We believe that in Kansas, the disparity is still greater than in the States.

VERMONT ELECTION.—*Montpelier, Sept.* 2, *evening.*—Sixty-seven towns have elected 56 Republicans to the Legislature, and 11 Democrats. In 50 towns the vote for Governor stands—for Fletcher (Republican) 7980; Keyes (Democrat) 4013.

FROM EUROPE—3 DAYS LATER.

NEW YORK, Sept. 2.

The steamer Vanderbilt, from Liverpool August 22, arrived here this afternoon, with 350 passengers and $100,000 in specie.

THE TELEGRAPH CABLE.—A meeting of the Directors of the Atlantic Telegraph Company was held at Liverpool on the 19th ult. A sub-committee was appointed to report upon the causes of the accident, and the best means of ensuring future success. The directors sit in permanence until their future plans are arranged. The commanders of all the ships engaged will consult with the directors. Confidence was expressed as to ultimate success.

The experiments of connecting the wire in mid ocean had been successfully tried in 2000 fathoms, during a heavy sea. The engineer's report detailed the progress of paying out until the accident occurred.—The machinery only requires some slight improvement. The cable is everything that could be desired, and the engineer has greater confidence than ever as to the final result.

GREAT BRITAIN.—The master, chief and second mates of the ship Martha & Jane of Sunderland, have been sentenced to death at Liverpool for murdering Andrew Rose, a seaman, by continued ill treatment and brutal usage.

Orders had been received at Plymouth to prepare for receiving the U. S. steam frigate Niagara into Keyham Basin, should it be necessary. Vice Admiral Sir Arrington Reynolds visited the Niagara on the 8th, and in the evening entertained Capt. Hudson and the officers of the frigate at dinner.

TURKEY.—A telegraphic despatch from Constantinople announces that the Sultan has communicated to those European ambassadors who had supended relations with the Porte, that he is occupied with the formation of his new ministry, and that while the cabinet is reconstructed diplomatic intercourse cannot be resumed.

INDIA.—It is stated that Delhi is not taken, but the date of this statement is not given.

Gen. Barnard is reported to have died from dysentery.

The news given in the Bombay Times of July 14, by the last mail, respecting the taking of Cawnpore by the rebels, and the massacre of the Europeans there, is confirmed.

The Simoon and Himalaya arrived at Calcutta, with about 1500 of the China British forces, to proceed at once up the country. Only 300 more troops were expected.

Gen. Havelock's forces encountered the rebels, who were beaten on three occasions and several guns taken, between Allahabad and Cawnpore. The latter was retaken from Nena Sahib, whom Havelock is following up to Philloor, ten miles from Cawnpore.

Sir Henry Lawrence died of a wound received in a sortie from Lucknow, where at present all is well.

The Gwalior contingent has mutinied, and is supposed to have marched on Indore.

All the troops in Oude have mutinied.

At Agra all is quiet, and the native troops are disarmed.

RUSSIA AND CIRCASSIA.—The Russians were stated to have been defeated on the banks of the Kurah. They lost six guns and sixty-four pack-horses.

It is said that Scamyl, with 25,000 Circassians, had also defeated the Russian army, which attempted to dislodge him on the banks of a river commanding some passes. After a battle, which lasted ten hours, the Russians were driven across the river. Several fortified places, built at great cost by the Russians, for the maintenance of their communications, fell into Schamyl's hands.

AFRICA.—Intelligence from Tunis of the 13th, announces that a sanguary disturbance took place three days before, against the Jews, and even the Christians were menaced. Several persons were killed, and the English Consul insulted. Military measures of repression were adopted, but not until some grave disasters had taken place.

Official confirmation had been received in England of the murders of African travellers, Dr. Vogel and Corporal Maguire of the Royal Engineers.

LIVERPOOL COTTON MARKET.—The Brokers' Circular quotes a very good demand throughout the week, and prices of the current qualities of American had advanced 1-8 a 3 16 of a penny per pound.

LIVERPOOL BREADSTUFFS MARKET.—The Brokers' Circular says wheat has met with a slow sale; primo qualities of white must be noted 1 a 2d per 70 lbs dearer; inferior sorts without change. Flour is 6d per bbl dearer. Indian corn slow and rather easier.

Richardson Brothers quote wheat steady and unchanged, without much business.—Flour is sparingly dealt in, and useful sorts of barrels and sacks could not be sold without submitting to a reduction of 6d a 1s, and then sales were limited. Indian corn dull at a decline of 6d for mixed; other sorts supported at nearly former rates.

Richardson, Spence & Co., say—Tuesday's prices are nominally continued.—Bigland, Athya & Co. quote flour dull and 6d per barrel lower. Wheat dull and 2 a 3d lower. Corn dull and declined 6d.

WASHINGTON, Sept. 2.—The War Department to-day sent out orders to the following troops to put themselves en route for Kansas: ten companies of the First Calvary, under command of Col. Sumner and Lieut. Col. Johnson; seven companies of Sixth Infantry; ten companies of Fourth Artillery; four companies of Second Artillery; one light battery company—which will give a force of about 2000 men. Gen. Harney will remain in command in Kansas. Col. Albert S. Johnson will command the troops to Utah.

PROF. WOOD'S HAIR RESTORATIVE.—We have had occasion to use this famous preparation of Prof. Wood's, and after thoroughly testing its qualities, we find that where the hair is thin it will thicken it, if gray it will restore it to its original color; likewise, it gives it a glossy appearance, as well as keeps the hair from falling off. This invaluable ingredient is for sale at "Chinaman's Tea Store," southeast corner Frederick and Baltimore streets, by Mr. J. C. Given.—*Bal. Clipper.*

Sold by all good Druggists.

SPECIAL NOTICES.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks New and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street, ALLEN & PAINE.

NEW CLOTHES.—Most people do feel a little proud of new clothes, especially if "a good fit." But clothed with blotches and scaly excrescences, if they fit ever so closely, we cannot well be proud of them. The use of the Carminative will cure all. Try it. Try it.

☞ We are happy to announce that the best of cheese may be had at 12 1-2 cents per pound. Molasses for 48 cents per gallon; sugars at reduced prices; potatoes very cheap, and all family groceries at uncommonly low prices for cash, at the store of F. W. ROGERS, on the corner of Vaughan and Congress streets,—where Fancy Soaps of various kinds, and many other articles may be found, but no spirits except Camphene and Burning Fluid. 2m18 tf

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of those, Dr. Sanford's Invigorator or Liver Romedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertizes itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

Several bills were then read, accepted, and voted to be paid.

Josiah Sanborn asked leave to lay a crosswalk on Cabot st. Granted.

Adjourned.

A FEW QUESTIONS.—*Dear Chronicle:*—Will you please ask your readers the following questions?

Has an owner of buildings a moral and social right to rent said buildings to those who disturb the quiet of those living near them? This disturbance consisting in rum-drinking, quarrelling, hideous screams that would make demons quake, profanity, obscenity in word and act, and continued bawling of children before the houses, or dens, in which they *burrow*. A stickler for the doctrine of a literal fiery lake has only to pass one of these localities to have his faith actualized—there's his type of hell! Is such an owner of property a *man?* Will a man, for the purpose of renting his buildings to such objects, cut them up into small tenements, and stuff them literally full of degraded beings, whose approach is offence and whose instincts lead them to annoy? Does the money thus gotten raise him to the ranks of the fashionable—nay, buy him a right to respectability? Does his cushioned pew, made luxurious by such rents, feel soft and grateful while he listens to the minister, whose tongue is money-guided, when at the same moment the air is made vocal with the curses and yells of his tenants?

One other question—Is it a sure mark of good manners, in men and women, to go abreast and so take up all the sidewalk in passing others on the street? If so, then a portion of our people in Portsmouth have the clearest title to that distinction. No one, who has had occasion to walk our streets on a clear day or evening, will have any doubt of that. Now some have supposed that the sidewalks were made for persons passing *both* ways; but the good breeding and religion of a part of the residents of our city, especially of the ladies, for ladies they must be of course, have disputed that notion. As ministers like to speak encouragingly of any good practice, would it not be well for all our city pastors, from their respective pulpits, to commend this civil, polite and strikingly humane practice? Lastly, would it not be well for all educators of the young and defenders of morals to insist that it is decidedly vulgar to give those whom they meet a share of the walk. A CITIZEN.

Deputy Sheriff Morse shut up Whally & Leaver's shop on Tuesday, on behalf of the creditors of the firm, and in the evening started on a tour into the country in pursuit of Whalley, who had slipped off with a horse and wagon he had previously mortgaged.—He was found Wednesday morning at the house of one Ramsbottom, somewhere in the vicinity of Epping, where he had attempted to sell the horse and wagon. Officer Morse returned at noon with the recovered property. —*Ballot.*

THE LIQUID STOVE GLOSS.—The report in regard to this article, advertised by Mr. Carleton in our columns, is highly satisfactory. An old stove treated with it according to directions is made to look "as good as new," with half the labor required by any of the powder preparations, and without the annoyance of dust.—*Ballot.*

☞ The friends of John F. Patten Esq., late principal of the Haven Grammar School in this city, will be pleased to learn the fact that he has assumed the position of Sub-Master in the Washington Grammar School, at Roxbury, Ms., the minimum salary (at which he commences (being $800.—*Ballot.*

☞ We learn that a school of small mackerel were driven ashore at Sandy Beach, just below Fort Constitution, last Friday, and were gathered up in large numbers. They are believed to have been driven up by the blue fish, the abundance of which in our waters is supposed by fishermen to account for their general want of success in the prosecution of their business in our harbor the present season. —*Ballot.*

ENCOURAGING.—We sent bills to distant subscribers last week to the amount of $200. Gross remittances thus far $2,00. Perhaps some of the gentlemen would rather settle with an attorney.—*Ballot.*

SIGNOR BLITZ is to perform again in Ventriloquism, Sleight o' hand, and with his learned Canaries, at the Temple, this afternoon and evening; and the crowd of old and young who will attend, will certainly be entertained and amused, and may be instructed, if they are sharp enough to draw the instruction from the performances.—The Signor was greeted by a host of old and new friends, yesterday and last evening. Admission only 15 cents—children 10 cents, and they all ought to go.

PUBLIC CONCERT.—The Portsmouth Cornet Band will perform this evening on Haymarket Square, near the Middle st. Church, commencing at 8 o'clock.

DEATHS IN AUGUST.—The bill of mortality for this city during the month of August is as follows:

Whole number of deaths eight.

Males five—aged 4, 7, 23, 35, 65.

Females three—aged 49, 82, 75.

☞ At the late meeting of the New Hampshire (orthodox congregational) Missionary Society, at Keene, the Trustees appointed Rev. Asa Mann, of Exeter, a Missionary for Rockingham county, with special reference to Newington.

☞ There is a great training at Newburyport this week, and plenty of gamblers, pickpockets, and thieves lurking round. A few of them have slipped over this way, and more may come. Citizens look out!

FROM CALIFORNIA.

TWO WEEKS LATER.

NEW YORK, Sept. 3.—The steamer Illinois arrived here at midnight. She brings $1,600,000 in specie and 600 passengers, and connected with the Golden Age, which brought down upwards of $2,000,000.

SAN FRANCISCO, Aug. 4.—The regular course of mercantile pursuits has been materially encroached upon by business matters relating to the departure of the Eastern mails. In general merchandise a very limited business was done. In flour a moderate fair business was done at full rates. Money has been in abundant supply at 2 per cent. per month on collateral.

The Decatur had arrived from Punta Arenas with the remnant of the filibusters—all of them in a destitute condition.—Several of them were sent to San Francisco and the balance remained, awaiting orders from Washington.

The whaling schooner Francis, of New Bedford, was lost 120 miles north of Buenaventura on the 22d of June. Capt. Smith, Jonathan Smith, Abner Gray, Wm. Snow, and Benj. Thompson were lost, together with the vessel and 75 barrels of oil. Wm. H. Sherman, first mate, and two of the crew were picked up and saved.

The Isthmus was healthy.

FALL RIVER, Sept. 3.—A fire broke out in this city about 2 o'clock this morning in the brick block on Main st., known as the Pocasset Block, owned by Mayor Borden. A man named Hezekiah Bucklin was killed by the falling ruins. Loss $16,000; partially insured.

The Guitar at Home.
The best, cheapest, and most useful Book of the Season.
IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Ellis.
This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of Vocal and Instrumental Pieces published for the most powerful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.
Price, $1,50. For sale by
CHAS. C. HARVEY, Exchange Buildings.

A BEAUTIFUL HEAD
OF RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.
AND who that is gray would not have it restored to its former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other erruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.
ANN ARBOR, November 5th, 1856.
PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Many of my family and friends are using your Restorative, with the happiest effects; therefore my scepticism and doubts in reference to the Restorer and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.
Very truly and gratefully yours,
SOLOMON MANN.
FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the source of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.
Again, very respectfully and truly yours,
SOLOMON MANN.
CARLILE, ILL., June 28, 1853.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BESSES, ex-Senator, U. S.

AYER'S Cathartic Pills,

(SUGAR COATED,)

AND MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, EZ. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., Feb. 25, 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not yield promptly to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are doing wonders in this section of country. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at Detroit, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had a tumor in his side, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured, or even benefited. Such a medicine as yours, which is actually good and honest, will be prized here.

Yours, J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. T. Hines, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the best of all medicines. I have ever known, and I can confidently recommend them to my friends. Yours, J. T. HINES.

WEBSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

Yours, JOHN G. MEIGHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her neck and face, which had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hoster, of the Methodist Episc. Church

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not inform you of it. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease which I had suffered under for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are agreeable and effective.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, AND INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town and village every where in the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its efficacy, and yet the community are where which have not among them some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have authentic records to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the lamentable traitor that, fastened on the vitals, cuts your life away. All know the dreadful fatality of lung disorders, and so they know too the efficacy of the remedy, we need not dwell upon them to secure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and then afford the public only at the best agent which our skill can furnish for their use.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

IT is based on the following principle:

It has control over but ONE MALADY—has but ONE ALM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin (in every instance, however, where no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the just balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular. Whenever an interruption takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many premature graves among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, are but a few of the evils of the interruption of nature; and whenever that is the case, these Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite selfcontrolling prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; instead to do away with the necessity of the injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is composed, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children, and to destroy the disposition to worms, relieve pain and give tone, energy and strength to the whole system.

Great pains have been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cummings,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

A. LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations have nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

THE STATE DEBT.

After all the outcry by the N. H. Patriot and its echoes about the amount of the State debt, the "extravagance of the black republicans," New Hampshire "on the verge of bankruptcy," &c. &c. —the official reports of the State Treasurer show that *this indebtness is not $500 more than it was four years ago, when the democracy had the control of the State*, notwithstanding since that time large appropriations have been made for the Insane Asylum, the House of Reformation, and the State Prison, amounting in the aggregate to about $75,000.

By the State Treasurer's report in June, 1853, it appears that the indebtedness of the State at that time was as follows:

Amount of indebtedness	75,570,71
Available funds	1,171,71
Amount of actual debt	$74,399,00

By the report of the Commissioner for the present year (Mr. Berry, the Treasurer, being dead,) it appears that the amount of indebtedness, above available funds in the Treasury, June 2, 1857, was $74,778,55—just $379,55 more than it was in 1853 —no more, no less!

What then becomes of all the clamor raised by the sham democracy about the State debt? It is gone—snuffed out; there is nothing of it. The official documents prove their statements to be gross falsehoods.

The Republicans by the economy with which they have managed matters, in abolishing extra sessions of the Legislature, and reducing the length of the regular ones, have been able to make large appropriations for the support and the improvement of the Insane Asylum, House of Reformation, &c. without increasing the burthens of the people.—*Dover Enquirer.*

CONCORD & PORTSMOUTH RAILROAD.

In another paragraph is stated the fact that the Portsmouth & Concord Railroad was sold to the new corporation by auction, for $35,000—and the running furniture for $12,000. The original cost of the road was about $1,100,000.

On Friday, the new corporation met at the Court House—Judge Minot of Concord, presiding.

A code of by-laws was presented and adopted—fixing the number of shares at $500—at $100 per share. The by-laws fix the annual meeting on the first week in October. They require an annual report of all the officers of the road, their salaries and of the amount due each.

It was proposed and adopted, that instead of requiring three hundred dollars in bonds to purchase a share, that one share be given for every two hundred dollars of bonds—and that the assessment on each share of the capital be $15; instead of [illegible]—*Journal.*

THE BIRTH-DAY OF LAFAYETTE.—It has been suggested in various quarters, that the sixth of September, which will be the Centennial Anniversary of the Birth of Lafayette, should be celebrated in a becoming manner, in all parts of the Union. It is proposed that on the 6th, which occurs on Sunday, the various clergymen throughout the length and breadth of the Republic, should in their discourses to their respective congregations, allude to the patriotic career of the illustrious dead, and to the thrilling scenes in American history with which he was associated. On the seventh, the day after, the bells might be rung, the flags be displayed on all our public buildings, &c. In several quarters, preparations have already been made for a suitable demonstration. We hope to see some notice in Portsmouth.

A TERRIBLE PEST.—At St. Helena letter in the Journal of Commerce says:

"The island has been sorely pestered these few years past, by a species of small white ant, that was brought here in the wood of a vessel from the coast of Africa, and now swarms by millions in all our houses, stores, trees, &c. &c. It first has wings, which very soon drop off, and then this mite eats into wood, cloth, provisions, trees, vegetables, and everything that can be destroyed; and the first we know of its destructive power, in our house tumbling over our ears. They eat into the wood-work, and then eat up all inside, leaving but a shell, which with your finger you can penetrate. And only in darkness do they work, for their deeds are evil. Houses thoroughly repaired are in less than two years crumbling to ruin. It is a most unfortunate evil to the island, and causes a yearly loss of thousands of pounds. We shall be compelled soon to live iron houses. It is one of the plagues of Pharaoh."

The Island of Madeira—The Failure of the Grape Crop—Introduction of the Cutaccha—Grand Fete.

MADEIRA, July 25, 1857.

Madeira has lost much of its prestige since the cholera of last summer, which carried off ten thousand persons. The English avoid it this year, which is a great drawback to its gaiety. The failure of the grape has given it another blow, and produced a great deal of poverty and distress.—The Portuguese say, however, that it has been of service to the Island, as the people have turned their attention to the production of grains and the sugar cane, and are no longer under the dominion of English wine merchants.

This year there is not a grape on the Island, and all hopes of overcoming the blight are given up. No one comprehends the disease and no remedy can be found. The grapes when two months old collect a mould on the shady side, as large as a pin's head, which bursts and shoots out the seed —in a few days they are dead. Mr. March introduced the Catawba, which he thinks will flourish, and produce in a few years as much wine as the island has ever done, and of a very fine quality.—You know we heard Mr. March was dead—but he lives—a prosperous gentleman, extending the same kindness and hospitality to strangers, which so many have had occasion to remember in past years. The people here almost worship him. His generosity, benevolence, and personal exertions during the cholera panic have endeared him to the people beyond all description. On the 25th of August he gives a *fete* to ten thousand of the poor, on the occasion of the dedication of a church which he has built for them.—*Boston Traveller.*

John Howard March, the gentleman alluded to in the above, is a son of the late Dr. Clement March, of Greenland, N. H. He has been for forty years uninterrupted Consul at Madeira, having been appointed by President Madison. A duration of incumbency probably unexampled in the consular annals. Mr. March has acquired a large fortune during his residence in the island, and has always been distinguished for his hospitality and acts of charity.

WASHINGTON.—The report that Washington was created a Marshal of France, in order that he might command Count Rochambeau, is contradicted by a correspondent of the National Intelligencer, who quotes from a letter of Washington in which he denies the statement, which was, it appears, circulated at that time.

Morning Chronicle.

SATURDAY, SEPTEMBER 5, 1857.

S. J. COURT, MERRIMACK COUNTY.—The Concord. N. H. Patriot contains a report of the trial term, just closed. It lasted 11 days. Two liquor cases only, were decided against the prisoners, viz. J. Cutter and Geo. Wasson; while 7 or 8 similar cases failed, part of them by verdicts of not guilty, and the rest by disagreements. In the case of Lucy A. Warner, for fornication, she, also went clear by a disagreement of the jury, who stood six to six; though the evidence of her guilt was perfectly clear. The Patriot says:—

No counsel having been employed by her, Col. George, with his customary generosity, *volunteered* to see that she was not convicted without a full and fair trial. The evidence for the State showed that she was found under what might be regarded as rather suspicious circumstances, to wit, at midnight, in bed, naked; with a man, not her husband, under the bed. Defence set up that this man was a trespasser on the sacred precincts of her sleeping room, one of a gang of gamblers, disturbed by the entrance of the police; that in the stampede which followed, he rushed into her room and hid beneath her bed, as the nearest house of refuge—a *plausible* theory enough, but *sadly lacking evidence* to sustain it. However, the jury were not satisfied of the guilt of the respondent, and failed to agree, standing "six and six." The respondent was subsequently discharged from "durance vile," by order of the Court.

The reader will please to observe the account is from the Patriot, and to mark the words which we have printed in italics.

In the Patriot's view of the case, above quoted, Col. George's soft soap volunteer plea, fascinated six soft or stupid men, though the case was quite clear.—This opinion, with the fact that Col. George generally defended the cases, is a key to several of the disagreements and acquittals—but in others, the evidence, as reported in the Patriot, was rather scanty.

If we read the Patriot's editorial report aright, it amounts to this: the woman was not only guilty, but the evidence proved her so. Col. George volunteered to defend her, and set up a mere humbug plea, *lacking evidence* by the Patriot's own showing. Yet six jurors, in defiance of their oaths, and in the teeth of evidence, held out for acquittal, to please Col. George or themselves.

The Concord reporter for the Manchester American, gives the following account of it.

All attempts to punish offenders against the laws were failures, except where the offenders plead guilty. We had the most singular jurors that were ever empannelled in this county. No evidence against a criminal of any character, could unite either of the petit juries in favor of a conviction. No matter how clear the evidence, every rogue had friends where he most needed them. Hitherto, until within a year or two past, our county was famous for the promptness with which criminals were convicted by juries, and especially the numerous class who were arraigned for violation of the law for the suppression of intemperance. The *cause* of this will soon be *explained*. The Court, the Jurors and the Bar seemed not as in other days, and many were grieved that the Attorney General was so ready to dismiss criminal prosecutions in which the jurors had disagreed, rather than to try them a second time.

We shall have dissatisfaction all over the county, growing out of what has been transpiring in this city during the past two weeks. The people are one way, the bar another, the court and jurors apparently nowhere.—The erring part of community feel, just now, as though crimes of any kind may be committed "with perfect impunity and with great boldness," but, be assured, the people of this county are an intelligent and law abiding people, and, ultimately, all will be made right.

We would like to see the cause explained. In the meantime, we would remark that Judges and prosecuting officers cannot do much, when jurors are like those described in the Patriot.

We remember such a session of the criminal court held in this city two or three years since, when almost nobody was convicted, except one man who was not guilty. All the rascals went clear on small nibbles.

☞ A drunken fellow, who had outraged some passengers in a Second-avenue car, in New York, Monday evening, was put off by the conductor. He caught up a paving stone, and hurled it through the window, and the missile struck a young girl on the breast, and knocked her senseless. It was a shame that the brute was allowed to escape.

In Boston, Wm. Draper, 33 years old, died at the Hospital, on Thursday morning of lockjaw. He was injured on the 4th July last at Swampscott, by the explosion of a cannon while firing a salute. Since then he has been lingering from the injuries, which terminated in lockjaw.

THE GENERAL ASSOCIATION of Congregational and Presbyterian ministers of New Hampshire, convened at Keene, Tuesday, August 25th, 1857, and continued its meetings three days. The opening sermon was preached by Rev. J. M. R. Bartley of Hampstead, from the text, "But Christ is all and in all"—Col. 3: 10.

The Narrative of the State of Religion states that 555 have been added to the churches on profession; by letter 403, making the whole number of additions 958. The whole number of deaths, exclusions and removals by letter, is 712; leaving an increase of 242. The whole number of communicants is 18,845.

Besides supporting the ministry, the amount contributed for benevolent objects is reported at $30,240, which is about $1.62 for each member.

The report says:—"The cause of Temperance, we regret to learn, is not as prosperous as has been our hope and desire.—We have good theory enacted into a law on the subject of suppressing the evils of the liquor traffic; but for the practice there is a lack. In a few instances, however, the law has been put in force, and in others the fear of it has somewhat restrained the wicked; but on the whole, the heart of the people quails before a perverted public opinion."

MILITARY AND LIQUORART.—The Portland State of Maine informs us, that on Tuesday, the City Marshal and his deputies made a seizure of liquors in a booth near Camp Lincoln, which was occupied by Charles Sargent. The seizure was made on a warrant from the Mayor and Aldermen, granted under the 73d section of the Militia Law, which authorizes the Mayor and Aldermen of cities, and Selectmen of towns, to abate any temporary buildings within one mile of a muster field, where intoxicating liquors are kept for sale, or gambling permitted. We understand warrants are out against others, and that Gen. Anderson has tendered to the City Marshal the whole force of the military, if needed, to suppress the liquor booths.

BARNUM IN TROUBLE AGAIN.—Just as the steamer Arabia was about to sail from New York on Wednesday, Mr. P. T. Barnum, who had taken passage for Liverpool, was arrested on a "Jerome Clock note," held, as he says, by a broker, who shaved it at at about half its face. Mr. B. told the officer that if the broker wanted his "body," he was welcome to it, for he had not known what to do with it these two years. Barnum says that most of his persecutors are men who obtained the Clock notes at unlawful interest, and he looks to the courts to liberate him from their grasp.

BEVERLY, MASS.—Of all the towns in New England, says the Newburyport Herald, perhaps not one will excel Beverly in good order and high-toned morality, and this arises from the banishment of rum. At the earliest stages of the temperance reform Beverly resolved that liquor selling should cease in that town, and it has ceased; and the result is that Beverly furnishes less business for the courts, and fewer inmates for the prisons, than any other large town in the Commonwealth.

☞ An Irish laborer made a wager at New York last week that he could climb the topmast of a schooner and return with safety. He commenced the hazardous undertaking, and when on the pinnacle of the mast, became dizzy, and, losing his hold, tumbled head foremost to the deck, causing almost instant death.

LAFAYETTE.—The one hundredth anniversary of the birth-day of Lafayette occurs on Sunday, Sept. 6th. The authorities of Boston have ordered that, on the following day, Sept. 7th, the bells shall be rung at morning, noon and night.

☞ Sales of whole crops of apples have been made at Marietta, Ohio, at $1.25 to $1.40 per barrel, delivered on the banks of the Ohio. This is about fifty cents per bushel—quite a reduction from last year's prices.

What simple souls, that were not able
To lay the telegraphic cable;
The fact was evident, we take it,
If they put on the brakes, they'd *break it.*

H.

☞ Gov. Gardner of Massachusetts reviewed the troops at Newburyport this week,—and was handsomely entertained there by Gen. Cushing.

☞ A few days ago several free negroes were put up at auction in Norfolk county, Va., and sold to labor for a term sufficient to liquidate their taxes.

☞ The Newburyport Herald says the fishing business now is not better than it was in the days of the Apostles.

FATAL ACCIDENT.—Mr. Isaiah Hodgdon, of Tamworth, N. H., while in a state of intoxication, Monday night, fell down his chamber stairs and broke his neck.

FALL IN THE PRICE OF SUGAR.—Sugars have fallen in price, at retail, from 3 to 4 cents a pound in Boston during the present week.

HOOFS AND HEADS.—Combs are manufactured in Scotland of Buffalo hoofs—what once protected the foot of the beast adorning the head of the beauty. The hoof, however, undergoes eleven distinct operations before it becomes a finished comb.

PROVIDENCE, Sept. 3.—The injunction against the Farmers Bank has been made perpetual. Stephen T. Olney has been appointed receiver.

The cause of Gov. Robinson's acquittal is stated to be that the jury had entirely used up their stock of whiskey, which could not be replenished till some decision had been reached.

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—"There is a deep interest felt by the community in regard to this extraordinary medicine, whose opperation is as misterious as that of vaccine matter."—*Boston Herald.*

SPECIAL NOTICES.

BLACK BOILED SILKS.

BOILED BLACK SILKS.—We call the particular attention of purchasers to our Stock of Full Boiled Black Dress Silks. We are very particular in selecting our Black Silks, and shall keep on hand at all times, a good stock of 24 in., 26 in., 28 in., 30 in., and 32 inch of the same celebrated quality, which we have sold in such large quantities since we opened here; and which are warranted not to crack or break.

We receive our Silks New and Fresh every week. As this is an article which a person does not purchase very often, and which costs considerable money, it is very desirable to get the best in the market. For which purpose, purchasers are invited to call at the New Store, No. 15 Market Street, ALLEN & PAIN.

☞ We are happy to announce that the best of cheese may be had at 12 1-2 cents per pound. Molasses for 48 cents per gallon; sugars at reduced prices; potatoes very cheap, and all family groceries at uncommonly low prices for cash, at the store of F. W. ROGERS, on the corner of Vaughan and Congress streets,—where Fancy Soaps of various kinds, and many other articles may be found, but no spirits except Camphene and Burning Fluid. au18 tf

NEW CLOTHES.—Most people do feel a little proud of new clothes, especially if "a good fit." But clothed with blotches and scaly excresences, if they fit ever so closely, we cannot well be proud of them. The use of the Carminative will cure all. Try it. Try it.

Dr. Wilson's Dysentery Powders are a Medicine long needed. Persons are often suddenly attacked with Dysentery, Diarrhea, and Cholera Morbus, without being able to procure medical assistance, until the disease has completely prostrated the patient. THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of these, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from month to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

LOCAL.

☞ There was a nice little drunken scrimmage, on Congress, Fleet and Vaughan streets, on Thursday night, from half past 11 till nearly 1 o'clock. Three or four young men,—they probably call themselves—were just drunk enough to be noisy and quarrelsome; and there was much swearing and hollering, and considerable fighting.

A crowd of perhaps 75 men and boys gathered, including (we are told) the four watchmen; and the neighbors were looking from their windows, and some calling on the watch to take the brawlers off to the lockup. The reply was, that the rowdies had too many backers there, and that the City Marshal had been sent for. No arrests were made, though we are told Marshal Beck was on the ground after the row was all over.

Prominent among the fighters was the hopeful youth who was concerned in the Coult assault case, and who promised to swear (but did not) that Coult struck first.

There was also a drunken fight at the foot of State street, about the same time, between a lot of Irishmen—who swore and fought as long as they wished, and then went home.

☞ The Juvenile Singing School of Mr. Pearson begins a new term this (Saturday) afternoon. As this is the only institution of the kind in the city, Exchange Hall ought to be full. We have none too many singers among us; and the best if not the only way to have them is to begin with the children.

THE MEAN MAN, ONCE MORE.—The earnest but erratic writer who has done battle for three weeks past, against the new Commodore for minding his own business, against the old clerk for having an offer he did not dream of, and against us for saying what we never said, now sneaks out of the following small hole:

"Uncle Toby" shall have his say. We cannot blame him for fighting hard for his relative; but from his desperate attacks upon the Gazette for the expression of a modest hint, (1) we are confirmed in our belief that his project to arrange matters for Com. Pope, is not so successful as he might wish. (2.) We cannot with self-respect (3) bandy terms with such an old sinner, &c.—*N. H. Gazette, Sept. 5th.*

NOTES BY UNCLE TOBY.

1. The modest hint was a tissue of error and falsehood. Our attack was nothing more nor less than a correction of the error, and an exposure of the falsehood.

2. We had no such project, we never tried to make any such arrangement, and therefore we can never have any success or failure in the premises. The Commandant made his own offer in his own way, of a clerkship to a qualified, experienced clerk, without any influence of Uncle Toby, who never moved in the matter, but who was merely the passive receiver of an appointment to be forwarded to a third person, whose address he knew.

3. The self-respect of an anonymous scribbler, who gets behind the editor of a newspaper and tells half a dozen falsehoods—forbids him to *bandy terms* with an editor who exposes the falsehoods! And this self-respect comes on after the mean man has exhausted himself in a three weeks' campaign, and after he has been clearly shown to be in the wrong! Wonderful self-respect that—sounding very like the dignity and solemnity of some scoundrel attorneys, who put on great airs of sanctity when good testimony begins to break down their case, warn the witnesses that they are under oath, and look and talk as grave as owls.

☞ We notice that the Sycamore trees, in front of the Sheafe house on State street, have been cut down, and some mountain ash trees are to be set out instead. They were so infested with caterpillars, that every leaf was perforated with holes about the size of a pea. Hence it was found necessary to remove them.

Those animals are sure death to apple-trees, unless early measures are taken to prevent their accumulation. The best remedy is, we think, to strip them off as soon as they make their appearance, and wash the tree in strong soap suds. B.

☞ On Thursday night a horse owned by Hon. Richard Jenness, died in Messrs. C. H. & W. O. Sides' stable. His death was probably caused by over-exertion.

LIGHTS AND SHADOWS OF POLITICAL LIFE. Last Saturday, Judge Conrad sentenced a man named Rump to prison for two years and eight months, for the perpetration of frauds by which James Buchanan was elected to the Presidency. Mr. Buchanan now occupies the White House at Washington, and Rump is domiciled in a cell at Moyamensing!—*Phil. Bulletin.*

☞ A lady named Stinson, in Gardner, Me., on Tuesday received $900 damages against the city for injuries received by a defective sidewalk. At a previous trial, a verdict was rendered against the city, for the sum of $2000.

WASHINGTON, Sept. 3.—The War Department has issued an order to the following effect:—It being deemed inadvisable to detach Brevet Brigadier General Harney from service in Kansas, Colonel A. S. Johnston of the Second Cavalry, is assigned to the command of the Utah expedition, and will proceed to join the same without delay.

As Colonel Sumner, of the First Cavalry, may be daily expected, with his column of horse and foot, General Harney will in anticipation, dispatch six companies of the Second Dragoons to escort the civil officers to Utah on their mission, and remain attached to the command of Col. Johnston. The companies so detailed, will, if possible, be carried up to at least 60 privates each by transfer from the remaining companies. The Staff Department will supply all the wants of those dragoons, as well as the wants of other portions of the Utah expedition that may be remaining behind.

Brevet Major Porter, Assistant Adjutant General, will promptly report himself for duty to Colonel Johnston, before the latter shall pass Fort Leavenworth.

LAW IN MAINE.—The Portland State of Maine newspaper says:

A law containing the search and seizure clause may be so framed, as we believe, to effectually shut up drinking houses and tippling shops, and yet command a strong popular majority. If, on the contrary, unwise counsels prevail; if anger, ambition, a feeling of pride or of revenge, shall be allowed to control the movements of the party, and a law is passed that shall be thought an invasion of private rights, it will fall to the ground as the dodo and law at all.

The liquor question must be approached with caution, and disposed of in the spirit of concession, if we desire to promote the cause of temperance; and while we would pay great deference to the opinions of those zealous for a stringent law, we ought not to forget that an honest difference of opinion should not be allowed to separate sincere friends.

RACE COURSE.—It is stated that persons in North Bridgewater, interested in the trial of the speed of fast horses, are fitting up a half-mile course between that village and Campello, a village on the plain, as its name indicates, about a mile and a half from the former, at an expense of $3000. They profitably claim that the value of a horse is essentially increased by his reputation for speed, which can only be established by trial, which can be best done by a place suitably fitted up for that purpose. Hence the reason for the investment.—*Boston Transcript.*

Mrs. Georgiana Niles, for a long time a celebrated teacher of girls in Providence, R. I., went to England this summer, on a visit, expecting to return to Providence and resume her occupation, but has been prevented by her accidental marriage on the 12th of August, in Topsham church, to John Tyrrel, Esq., judge of the county court in Devonshire. Miss Sarah Jacobs, of Cambridge, Mass., succeeds her in her school.

The case of Mrs. Cunningham was continued on Wednesday, before Judge Peabody. When the Court opened, the Judge said he had been able to give the motion to dismiss the *habeas corpus* but very little consideration. He had concluded to deny the motion to dismiss for the present, reserving the right to reverse his decision if he should arrive at a different conclusion after additional consideration.

SUNDAY FUNERALS.—The Express goes in for abolishing Sunday brass-band funerals. It is rather absurd, especially when "the gentlemen in the coffin" happens to die on the Monday previous. Heaven save us from being carried to Greenwood on Sunday, in the middle of a procession of firemen, muskets, militia men, and machines, with a brass band playing the "Anvil Chorus" over our remains.—*N. Y. Mirror.*

The Guitar at Home.

The best, cheapest, and most useful Book of the Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections, and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadences, Preludes, &c, selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the most selection of Vocal and Instrumental Pieces ever published for this graceful and fashionable instrument, but the Preludes, Cadences, &c., form an excellent method for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

Price, $1,50. For sale by

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin, and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all gloomy persons who would have their hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,

SOLOMON MANN.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming very thin and brought prematurely on; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

AYER'S Cathartic Pills,

(SUGAR COATED.)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Mothers, Fathers, Mothers, Physicians Philanthropists, read the effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. *Sir:* I have been repeatedly cured of the worst headache any body can have by your pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., Nov. 1, 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say that they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1856.

DR. AYER: Your Pills are doing wonders in this place. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to the island at great expense, and got no better. She then commenced taking your Pills, which we had heard of by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of your almanacs came to our wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctor's bills, and much sore, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the organs of digestion and purify the blood they are the very best cathartic I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her head and neck, that had proved incurable for years. Her mother has been long grievous by afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she took your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hanson, of the Methodist Episc. Church

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be unmindful of the relief your skill has brought me if I did not report to you how severe A cold settled in my limbs and brought on excruciating neuralgic pains, which seized in chronic rheumatism. Notwithstanding I had the best of medical advice, I only grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has lamed me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, AND CONSUMPTION

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in civilized country on this continent without some personal experience of its efficacy, or that of some of the communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that stalks upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, not neglect them until no human skill can master the inexorable ranker that, fastened on the vitals, rots your life away. All know the dreadful fatality of lung disorders, and so many have the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare to cost, no care, no toil to produce it the most perfect possible, and thus afford ingenuity, that by it the best agent which our skill can furnish for their ease.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRASER & Co are the managers, are authorized by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the commissioner is authorized to state, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act of that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. Prices of tickets range from $1 to $50. No tickets are, however, sent unless the money for the same is received with the order. The drawings are given upon the principle of one number on each ticket (after the Havana plan), and Terms combination. Prizes vary in amount from $20 to $20 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, and the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day in the month. If no particular class is named, orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten will come a prize. Tickets range from $1 to $25, quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000; every prize being drawn, and result drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel and the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Daily Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid immediately, no percentage deducted from prizes as in other lotteries.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere—Testimonials are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure*—and unlike all other preparations, which, if they check the disease, leave the system in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them, if they do not give *perfect satisfaction*, return them and take your money.

MARRIAGE GUIDE,

YOUNG'S GREAT PHYSIOLOGICAL WORK, The POCKET ESCULAPIUS, *or Every One His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not be about the house. It will be sent to any one on the receipt of twenty-five cents. Address Dr. WM. YOUNG, No. 152 SPRUCE street, above Fourth, Philadelphia.

Coggswell's Medical Salt, A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: removes INFLAMMATORY DISEASE—wherever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that the vitalizing matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its curative powers, the enlightened community, and not the discoverer, must be the judge.*

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, when every health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interference of menstruation; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, vertigo, &c. Not only they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should not be taken by pregnant females, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to the health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, prepaid, to Dr. L. Cheeseman, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; are to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all families. Price only 25 cents.

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worried children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

CHINOLINES in White, Black, Drab and Slate colors. Hair Cloth, Moreens, Skirts and Skirting.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston,

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played as the same time by one of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of an great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced skillful workmen. We feel safe in well promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time, and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T Gilbert & Co., Wm. P. Emerson,
Brewster & Allen, A. W. Ladd & Co.
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlors and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations have nothing left to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Morning Chronicle.

MONDAY, SEPTEMBER 7, 1857.

THE WHITE MOUNTAINS.

MEREDITH VILLAGE, Sept. 4.

Dear Uncle Toby:—I suppose you have seen enough, heard enough, written enough, and printed enough on the White Mountains. Still you need to chronicle the changes in them. So I send you one item of news. The mountains are 25 per cent. higher this year than last. I do not mean to say that Prof. Guizot's barometer has increased their altitude, compared with the level of the sea; but compared with the level of my pocket, the altitude of my travel bills has been thus much improved. I think it will be well for you, each season, before the travel commences, to publish at your subscribers' cost, if not as advertisements, the scale of prices. Last year I thought the hotel prices at a maximum of $2 a day. Now I find the fare slightly deteriorated (I fancy) and the bill raised to $2.50. But the fare is good enough, and would be if it were equally abundant and of cheaper materials.

The stage bills are rather an item: $4.50 from Center Harbor to the Notch. From there to the Glen I paid a dollar for sending my valise: three cents a mile. A trunk, they told me, would have cost me three times as much. There is nothing on the Glen side that is sufficient to compensate for such extortion. I would as soon spend an additional day at Franconia Flume and never see the Glen.

I can now judge better of three ascents to Mount Washington. Each costs about $3 per saddle. That from the Notch is the longest, hardest, and by far the most interesting. The approach to the base of Mt. Washington by that way is worth as much as all you see from the summit. No accident have I heard of on that road; but it is terrific, and worse this year than last. Unless Mr. Gibb shall improve the first two miles of mud and corduroy, he will find few willing to pass it twice.

Braybrooks' road is no doubt the easiest for invalids and old women, but you see nothing till you are occupied in the last dire ascent, and then it is awful: it is one steady pull from the time you leave the woods, and before, till you reach the top. I think I should feel better towards his house, did not the stage almost compel travelers from Franconia to the Notch to dine there. By keeping on you could finish your day's ride in good season for a late dinner. This you could eat leisurely, washed and dressed. But no: you may take your choice between waiting a full hour, with nothing to see but distant mountain tops, and taking a bonnet dinner with "stage waiting" for dessert.

The Glen ascent offers a medium between the two, for difficulty and prospect. This academized road is a failure; you ride over it all on horseback. Still it is an excellent substitute for Gibb's mud and corduroy; and when the end is reached, the prospect, tho' far inferior to that along Gibbs's road, is not to be despised. You notice that the two fatal cases of last year and year before were Glen ascents; and the nearly fatal one of Sunday before last was also by this route. There is danger from the fact that there is a false peak below the summit on that side, on which doubtless the bewildered parties expected to find the Tip Top House. A monument with a large hand pointing to the true summit, if erected there, would diminish the danger. A rigid refusal of ardent spirits by all commencing the ascent, would make it less perilous. A man caught in the mist half a mile from the summit, who has emptied his brandy flask an hour before, must be in extreme peril.

I have very little idea that either of the houses near Mt. Washington is a cordially temperance house. I know that some of them are not, but it is difficult enforcing the laws in that wild country without the aid of missionaries, and these have still work enough to do nearer home. I think the Flume House would be the most difficult for a toper to make himself at home in, of all the houses I have visited; and next to that the Profile House.

Here the work goes bravely on. A single year has put quite a different face upon the working of our excellent law. This morning I am told that a gentleman of this county, who has represented his town in the legislature, and whom I last saw a sleek and gentlemanly politician at one of "Gov." Wells' moral lectures, and who as a speaker excelled the "Gov." himself, has obtained a furlough till Monday to go home and get ready for jail.

Some fifteen months ago I was at a railroad station in this state, when a man, who probably knew where I hailed from, was telling of the hardships of lumber life further up. The employees of his party could get no drink any where near where they worked, and so at the end of a fortnight they had to come down to "Meredith Village *or somewhere*" to have a good time; so he had to keep two gangs to carry on his work. "Make yourself easy on that head, my friend," I told him; "let us have our law a year or two longer, and the lumber-men will have to go below Concord before they can get drunk; and then your friend, I suppose, will have to employ three gangs.

Well, the men who have sold liquor at that "*somewhere*" have all been sentenced, and their costs have swallowed up all their profits made since the passage of the law, though their losses are infinitely less than the mischief they have done in any one of several families. For particulars see reports of the court now sitting at Guilford.

Yours truly, WINNIPISIOGEE.

PROFESSOR SILLIMAN'S MEMORIAL.

WASHINGTON, Sept. 2.—The following is the memorial of Professor Silliman and forty-two others of Connecticut, addressed to the President:

The undersigned, citizens of the United States, and electors of the State of Connecticut, respectfully offer to your Excellency this their Memorial. The fundamental principle of the Constitution of the United States, and of our political institutions, is, that the people shall make their own laws and elect their own rulers. We see with grief, if not with astonishment, that Gov. Walker of Kansas openly represents and proclaims that the President of the United States is employing through him (Walker) an army, one purpose of which is to force the people of Kansas to obey laws not their own nor those of the United States, but laws which, it is notorious and established upon evidence, they never made, and rulers whom they never elected.

We represent, therefore, that by the foregoing your Excellency is openly held up to the great derogation of our national character as violating in its most essential particular the solemn oath which the President has taken to support the Constitution of this Union. We call attention, further, to the fact that your Excellency is in like manner held up to this nation, to all mankind, and to all posterity, in the attitude of "levying war against a portion of the United States," by employing arms in Kansas to uphold a body of men and a code of enactments purporting to be legislative, but which never had the election, nor sanction, nor consent of the people of the Territory. We earnestly represent to your Excellency that we also have taken the oath to obey the Constitution, and your Excellency may rest assured that we shall not refrain from the prayer that Almighty God will make your administration an example of justice and beneficence, and with His terrible majesty protect our people and our Constitution.

In President Buchanan's reply he says:

From the distinguished source whence it proceeds, as well as its peculiar character, I have deemed it proper to depart from my general rule in such cases, and give to it an answer.

Then, after reciting some of their statements, he says:

These are heavy charges, proceeding from gentlemen of your high character, and if well founded ought to consign my name to infamy.

But in proportion to their gravity, common justice, to say nothing of Christian charity, required that before making them you should have clearly ascertained that they were well founded. If not, they will rebound with withering condemnation upon their authors.

Subsequent events proved them true.

The Boston Advertiser, in examining the document, says the President "explicitly admits that he designs to support and enforce the enactments of the pretended legislature, although he must know their spurious origin, their atrocious and inhuman character; and when it is notorious, as has been admitted even by democratic Senators, that some of them are repugnant to the Constitution of the United States. But the President makes no exception.

He says Congress recognised these enactments. It is difficult to justify this assertion. Congress did nothing about them. The concurrence of the two houses is necessary to the action of Congress, and the houses persistently disagreed on Kansas affairs. But even the Senate passed several bills disavowing a part of these enactments; and these bills would have passed the House had they not been objectionable in other respects.

The President declares that *slavery is already established in Kansas*. We are glad to get a confession from so authentic a source. He says further that the Dred Scott decision has settled this point. This is stretching the decision to the farthest.

On the whole, the letter (if it be genuine, and no reason appears for doubting its authenticity) must be regarded as removing the last grounds of hope that the President would secure to the persecuted and abused people of Kansas their rights as men and as citizens. He takes open ground against them, supporting empty forms rather than the substance; technicality rather than justice.

Not a word does he vouchsafe about the Missouri invasion; the unequal apportionment; the restricted right of suffrage. Indeed those are things which *cannot* be explained or justified."

RUM, CRIME, AND TAXES.

A DIALOGUE.

N. H. Gazette, Sept. 5th.—We cannot with self-respect bandy words with such an old sinner as Uncle Toby.

Uncle Toby, then, must consider himself entirely shut out from the communion of those Saints who write for the Gazette, especially that particular Saint whose budget of falsehood and error Uncle T. exposed. Perhaps the old man may survive the shock of being cast out into the outer darkness, where such luminaries of the church do not bestow their cheering and enlightening rays,—but perhaps—Hold, what have we here?

Gazette, Sept. 5th.—We commend the above facts and figures to the official Maine Law Organ, the Phenix. It will take a good deal of Uncle Toby's philosophy to explain them satisfactorily.

Uncle Toby thinks it rather droll, for a paper to decline bandying terms with him, and for the same paper, in the same breath, to invite him to a discussion, and challenge him to an explanation. But let that pass. What are the figures?

N. H. Patriot.—[Speaking of the S. J. Court, Merrimack Co.]—We learn that the whole cost to the county of the late term of the Court was about $3000. [The Patriot's table of costs foots up $2.171.] The liquor cases alone, at the recent term, cost the County more than $1,200, and all that was received by the County, from them, was $76 (fine and costs,) from J. Cotter, and 77.72 (fine and costs) from George Wasson.

Uncle Toby.—This does not need much explanation. It is $1000 and more addition to the rum tax of Merrimack County. Not only this $1000, but also the other 1000 are really, though not directly, rum tax; for without drunkenness, crime would be small. We undertake to say, that not one in ten of the criminals, which cost all this money, is a total abstinent, or a fanatic, or "a Maine Law hypocrite," or any thing of that sort—but that they are all national union savers, of the bluest sort, indigo blue, dyed in the wool, and washed out in rum. The criminals, though, especially those who made money by the crime, ought to have paid the money. Why did they not?

N. H. Patriot.—[Speaking of the case of Lucy A. Warner, who went clear tho' guilty of fornication.]—No counsel having been employed by her, Col. George, with his customary generosity, *volunteered*—The evidence for the State showed,—Defence set up—a *plausible* theory enough, but *sadly lacking evidence* to sustain it. However, the jury were not satisfied of the guilt of the respondent, and failed to agree, standing "six and six."

Manchester American. — No evidence against a criminal of any character, could unite either of the petit juries in favor of conviction. No matter how clear the evidence, every rogue had friends where he most needed them.

Uncle Toby considers the facts and figures quite plain now.—Volunteer counsel steps in, not to defend injured innocence, or to shield helpless guilt from excessive punishment, but to defeat justice and make law a mockery. Jurymen sit on the cases, who ought to be in the criminal's box,—and the names of these jurymen must have been put on the lists by Selectmen no better than themselves. The consequence is, that the meanest of lawyers pocket the dirtiest of fees—that the keepers of groggeries go home to feed their victims with vile liquors, and replenish their own coffers with the wages of iniquities,—and *the people* are *all* taxed to pay the expenses. The combination against the laws is composed of a venal press, of debauched counsel, of perjured jurors and slimy demagogues. Uncle Toby calls for reformation.—But so long as we will have groggeries, we must have crimes—while we have crimes we must have courts, cost what they will.

THE MOST SKEPTICAL PEOPLE

Can be convinced by trial that all the family medicines are not humbug, and that among the thousand of butterfly life, there are a few of great merit and undoubted worth. Of those, Dr. Sanford's Invigorator or Liver Remedy, stands first and foremost among the remedies of the day; that can be relied on as a medicine that is all it is recommended by its proprietors. It advertises itself on every trial, for there are none who use it but tell their friends to do so, and so it goes from mouth to mouth, till all the people of the Union have learned the good of this truly valuable medicine. It is recommend, by testimonials to prove its virtue, for the cure of liver complaints of every kind, from the worst Dyspepsia to a common headache, and is particularly adapted to Jaundice, Deranged Stomach, Bowel Complaints, and diseases of Children.

☞ On Saturday evening last, the half past 7 o'clock train on the Eastern Road, when about 2 miles out of Greenland, ran into an ox, and caused a detention of the train of some fifteen or twenty minutes.—A step was wrenched from the baggage car, and the cow-catcher broken by the collision.

The animal belonged to Mr. Ezra Young, and was worth nearly $100. He was not in sight three seconds before the engine struck him, but happened to cross the track just as the train was passing.

☞ Five hundred people, lovers of music, it is said went to Haymarket Square, on Friday evening, to hear the band, being invited thither by an item in the Chronicle. These people were disappointed, and some of them were as angry as Jonah was when the gourd dried up. Nevertheless, nobody was to blame. The band had an appointment to play at that time, in that place,—and a proper and reliable man engaged to carry their stage thither.—But when he essayed to fulfil his contract, he found the stage not fit to be removed so far. The playing was therefore on Market Square, and was well attended.

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other countries. Caveats, specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind sets the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full access to the Patent Office granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

August 28, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

The Guitar at Home.

The best, cheapest, and most useful Book of Season.

IT contains over 150 of the most beautiful Songs, Ballads, Duetts, Selections and adaptations from favorite Operas, Dances, Waltzes, Favorite Melodies, Cadenzas, Preludes, &c., selected and arranged for the SPANISH GUITAR, by James Flint.

This is certainly the most valuable work for Guitar Players ever yet published. It not only contains the choicest selection of Vocal and Instrumental Pieces ever published for this graceful and delightful instrument, but the Preludes, Cadences, &c., form an excellent school for those who wish to learn the Guitar, as an instrument of accompaniment for the voice. The most simple forms of accompaniment are used, and they are written rather to support the voice than to make a display of instrumental effects.

Price, $1.00. Sent by mail.

A BEAUTIFUL HEAD

OF RICH GLOSSY HAIR,

Completely Preserved

TO THE GREATEST AGE.

AND who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, or with sick headache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following.

ANN ARBOR, November 5th, 1856.

PROF. O. J. WOOD—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, half of me, &c., I was disposed to place your Restorative in the same category with the one thousand and one loudly trumpeted quack remedies, but I may you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first, by my good wife, whose hair had become very thin and entirely white; and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy on, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthy influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use to all who would have their hair restored from white or gray, (by reason of sickness or age,) to original color and beauty, and by all young persons who would have the hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND WOOD: It was a long time after I saw you at Bloomfield before I got the bottle of Restorative you gave me as a sample upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly yours,

SOLOMON MANN.

CARLYLE, ILL., June 23, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so. S. BAKER, ex-Senator, U. S.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians
Philanthropists, read their Effects,
and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been amazingly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they clean out, quick. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, EO. W. PEEBLE.
Clerk of Common Carriers.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate in say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the bowels. Indeed, I have seldom found a case of bowel disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

Corn Growers HARRISON, CHARLES CO., MD., Nov. 18, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. Her friends commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and cured two children of bloody dysentery. One of our neighbors had in bed, and my wife cured him with two doses of your Pills, which otherwise he was paid from five to twenty dollars a-doctor bills, and lost much time, without being cured after all. I even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. A. GRIFFIN, *Postmaster.*

Indigestion and Imparity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the organs of digestion and purify the blood they pass by the most refined, of all laxatives known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WAKEMAN, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN M. SPRAGUE, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. Your fame should be spread to the daughter of sorrow, some upon her hands and feet that had parted. Incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured we gave her your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Blanchard, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I thought the agonies I suffered from your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which soon ripened into chronic rheumatism. Notwithstanding I had the best of physicians, my disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were almost like magic. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1854.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease, which had chased me for years. VINCENT SIDDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are a speedy and sure remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, THE INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout our country and Canada, and the interior of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized portion of this continent without some personal experience of its effects, and know not of some acquaintance any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. This is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs. It is also the pleasantest and safest remedy that has been employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have the testimony of those who believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are colds. Don't let them fasten upon your lungs, and then ask if there is any thing that will do them good. Why not be your own doctor? Why not, instead of the vitals, cure your life away. All know the dreadful fatality of lung disorders, and so they look for the virtues of a remedy widely, we dare not ignore than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and then offer it to the public only as it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of R. J. Dobbin & Co., are still in the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to supervise and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they lived close by them. Prizes are payable at the agency fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets in Maryland, as lotteries are legalized by special law in that state. Drawings take place every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the commission reaches the hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is remitted with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100 to $1000. Persons ordering tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings of the Grand Consolidated Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D.C.

Address T. H. HUBBARD & CO.,
No. 29 Fayette st., or box No. 40,
Baltimore, Maryland.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to supervise and certify their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investing in the Interest of Parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that persons living at a distance have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the number of tickets in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $50 to $5,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SWAN & Co., Augusta, Georgia

Prizes paid in full.—no percentage deducted from prizes as in other lotteries.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its wonderful effects. These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purpose they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent cure*, and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they regulate the *Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, how it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it acquires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

IMPORTANT DISCOVERY,

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE compilation of ingredients in these Pills, is the result of a long and extensive practice; they are certain in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature in its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the seeds of such a complaint has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. A trial of one box will immediately ease nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less valuable in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted perfectly safe, and free from any thing injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4 531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

CHILD'S PAIN-KILLER.

THIS favorable preparation is a favorite selectific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treatment of

DISEASES OF CHILDREN,

and has been used with never failing success. The Carminative is emphatically

A CHILD'S MEDICINE,

and is the only Child's Medicine in this country; unobtrusive and unassuming, containing no injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the *rapid cure of*

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children, and so debilitate and prostrate them, relieve pain and give tone, energy and strength to the whole system.

One regular fee has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents*.

Parents who value rest should not fail to buy a bottle, as they will be repaid upon its giving relief to "worrisome children."

FROST'S POINT, RYE, N. H.,

IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders accommodated on reasonable terms. Parties desiring a pleasant and splendid retreat, and coming by Railroad, will stop at the Depot in Portsmouth—where MR. WILLIAM D. PERKINS' COACH will be in readiness to convey them to the House.

The SCHOONER SIBYL, commanded by CAPT. CHARLES A. PREBLE, will touch at the Point daily, to convey passengers to and from the Isle of Shoals.

Pleasure Boats in readiness for sailing or fishing parties. GEORGE W. TOWLE.

Rye, July 1, 1857.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this Island from Pier Wharf, in Portsmouth, immediately on the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS C. HUDDLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid movements without flaring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner, having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the best experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any manufactured, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to call at our Rooms, at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons,	Hallett & Cumston,
T. Gilbert & Co.,	Wm. P. Emerson,
Brown & Allen,	A. W. Ladd & Co.,
George Hewes,	Woodward & Brown,
Newhall & Co.	

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is mentioned in special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of 4 year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished rooms and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and convenience of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

TUESDAY, SEPTEMBER 8, 1857.

S. J. Court at Concord.—The Concord correspondent of the Manchester American says:

Int le article you published on Tuesday evening from me without a signature, I referred to the singular condition of matters at the close of the late session of the Court held in this city, last week and the preceding week. Everything attending the session was calculated to arouse the people of this county to the importance of looking into court matters, and I predict great good will result from the strange conduct of court, jurors and lawyers.

Party politics were visible almost all the time in all that was done, and it was too evident that matters had been badly managed in towns under the control of that party which too much opposes laws for the suppression of intemperance and its criminal results; I mean in selecting jurors. No crime found a juror ready to punish its perpetration; and to show the bearings of the presiding judge, it is only necessary to give an item from one of his charges to the jury, and I select one, in the case State vs. the Selectmen of Northfield. This was on trial of the indictment of that board of town officers for not putting the name of a voter on the check list last November. There were three indictments against the same board of selectmen, and the case under trial was one of deliberate action, and about which there could not have been any accident. The court was forced to admit the right of the voter to have his name upon the check list, and yet it took the singular position of instructing the jury, that unless it was shown that it was done intentionally, the party indicted should be acquitted; or rather, in substance, if it was not designedly done, the party should not be censured.

That is, men who hold the inestimable privileges of freemen in their hands may be ignorant of their duties as public officers, and rob men of their elective franchise, and they shall not be held responsible for their ignorance or carelessness, and if a criminal intention cannot be proved, then it is all safe to the accused. The court did not take the ground that these public servants were bound to know their duties clearly and perform them honestly, or suffer the consequences. But as this matter is to be discussed here in this county, I will trouble you no more about it now.

The Concord correspondent of the Manchester Mirror says:

Since you last heard from me, the Court, then in session, has adjourned; and *such a term of Court* we never witnessed before, and pray heaven that its like may never be seen in Merrimack county again. Its doings will prove a heavy blow against future litigation, and, in that point of view, good may come of it. The people have lost confidence in courts, jurors, lawyers and all else that goes to make up a term of a court in Merrimack county.

The Concord Statesmen says, editorially:

So far as the criminal business was concerned, probably a term of court was never held in Concord with which law-loving people have more ample reason to be dissatisfied, than the one which closed on Saturday last. Through the stupidity or perverseness of some jurors,—we know not who,—it was nearly impossible to procure verdicts against persons arraigned for various misdemeanors. Rum-drinking, fornication, and such like offences, seem to have been held in so high regard by some men, that a bar was interposed to the administering of punishment. Will not the selectmen of Merrimack county towns look out in future to place in the boxes the names of men suitable for jurors.

In the matter of the *Warner* woman, under indictment for fornication, and of whose guilt no person, aware of facts developed upon the preliminary examination a few weeks since, or who listened to the testimony in court, could have the least doubt, the jury disagreed; and so in other cases about which no intelligent, common sense juryman could have been at any loss as to the path of duty.

The reader will observe that the Statesman, in the latter paragraph, takes the same view of the Warner case, which the Patriot took, viz: that the woman was proved guilty, and yet the jury disagreed. *Ergo*, there was something rotten about the jury!

The appearance of the thing, as we read it in all the papers, is this: It was neither accident, carelessness nor ignorance that *happened* to send in jurymen from half the towns, who perjured themselves and shielded the rogues. It appears like a cunningly devised conspiracy between some scoundrels, pettifoggers, and selectmen, to have in the jury box for drawing, no men who could not be trusted to do dirty work.

Marblehead.—A correspondent of the Salem Gazette reports that during a fight between a party of drunken sailors, belonging to the schooner "Speed," of Great Egg Harbor, lying at Marblehead, and a few rowdies of that town, on Wednesday last, Frank Silver, one of the participators in the fracas, was stabbed through the lungs with a dirk knife in the hands of Thomas Atkins, one of the crew of said vessel. Silver lies in a very critical condition. His physician says his recovery is very doubtful. The parties engaged in this affair have been arrested and committed to the jail in Salem.

LAFAYETTE.

One hundred years ago, a man was born in Auvergne, France, (says the Boston Transcript,) whose career opened with a disinterestedness of purpose, and was achieved with a consistent self-devotion that unites the romance of chivalry with the principles of Christianity. With the vivacious instincts and the local patriotism, characteristic of a Frenchman, his native enthusiasm overleaped the boundaries of rank, country, and family, and identified itself with the cause of human liberty and civil progress. Few could have imagined, when they glanced at the youthful guard of honor attached to the king's household, and the boyish bridegroom who led a fair scion of de Noailles to the altar, that a destiny thus auspiciously opened would be voluntarily sacrificed; that the favored courtier, the rising *militaire*, the happy husband and the social favorite, would turn his back upon the blandishments of a gay capital, of love, national distinction, and royal patronage, to encounter the perils of a dreary voyage, the distasteful contrasts of an embryo civilization, and the severe deprivations of an apparently desperate cause. This, the prosperous nobleman of France did, with a calm decision and a magnanimous intrepidity which will forever hallow his memory and live in a nation's gratitude.

When Lafayette arrived at Charleston, S. C., in the spring of '77—at the age of nineteen,—the darkest period of the American Revolution shrouded the destinies of the country with gloom. The effect of his appearance, at such a crisis, was remarkable. The most skeptical and selfish, as they rehearsed his antecedents and witnessed his ardor, were obliged to confess that a strong moral attraction consecrated the war for liberty—however disastrous.

Lafayette came to win all hearts, to gain the instant confidence and the permanent affection of Washington; he came to cheer the social hour of the officers, to promote the comfort of the famishing troops, to cooperate with hand and voice, with valor and counsel.

His relation to the United States is as peculiar as it is memorable. When he first returned, after the war, he visited several States, and beheld the foundation of the Republic whose liberties he had so bravely defended.—Everywhere, he was received with enthusiasm; and among the very few letters of Washington in which a vivid expression of personal sentiment occurs, is that wherein he describes to Lafayette his feelings on parting with him at Alexandria, and returning, absorbed in affectionate regrets, to Mount Vernon.

His next visit was the greatest instance of national recognition in history.

An American who saw much of Lafayette in Paris, and at his home in Lagrange, says:
